20 iii " " "
21 St. Thomas.
25 Christmas.
26 St. Stephens.
27 i Sun. aft. Christmas.
St. John Evangelist.
28 Innocents.

ECLIPSES, 1908

There will be three Eclipses of the Sun in 1908 as follows

I. Total of the Sun, Jan 3, visible in the southern and south-western states as a small partial eclipse on the Sun's southern limb near sunset. The Sun will set more or less eclipsed within the area included between a line from Savannah, Ga., to Omaha, Neb., and thence through the Staked Plains of Western Texas. Through Western Louisiana, Arkansas and Missouri and Eastern Texas, Indian Territory and Kansas. The middle of the Eclipse will occur at sunset. The path of the total phase lies westward in the Pacific from San Jose, Costa Rica.

II. Annular of the Sun, June 28. The path of the Annular phase will touch the United States only in South Florida.

	Begins	Ends	Size	Dif. for Stan. T.
Boston.	10 10 am	1 15 pm	8	-16m.
New York.	9 55 "	0 58 "	9	- 4m.
Washington.	9 27 "	0 41 "	10	+ 8m.
Charleston.	9 3 "	0 24 "	11	+20m.
St. Louis.	8 29 "	11 8 am	9	+ 1m.
New Orleans.	8 5 "	11 10 "	10	0m.
San Francisco.	6 20 "	7 52 "	4	+10m.

III. Central of the Sun, Dec. 23, invisible in North America.

CHRONOLOGICAL CYCLES.

Dominical Letters.	ED	Julian Period	6621
Epact	27	Dionysian Period.	237
Lunar Cycle (Golden No).	9	Jewish Lunar Cycle.	6
Solar Cycle	13	Roman Indiction.	6

Mohammedan year, 1326, begins Feb. 4.
Jewish year, 5669, begins at sunset, Sept. 25.

MORNING STARS.

MERCURY, Mar. 18-25 and Nov. 8-15 at time of Greatest Brilliance.
VENUS, after July 5. MARS, after Aug. 22. JUPITER, from Aug. 17 to Dec. 5. SATURN, from Mar. 20 to July 1.

EVENING STARS.

MERCURY, Feb. 8-12 and Oct. 10-15 at time of Greatest Brilliance.
VENUS, until July 5. MARS, until Aug. 22. JUPITER, until Aug. 17 and after Dec. 5. SATURN, until Mar. 20 and after July 1.

PLANETS BRIGHTEST.

MERCURY—(see morning and evening stars). VENUS, May 29, as an evening star, and August 11 as a morning star. MARS, not this year. JUPITER, Jan. 29. SATURN, Sept. 30. URANUS, July 7, and NEPTUNE, Jan. 5.

Heavy figures, 12 noon to 12 midnight

Domestic Postage.

FIRST CLASS.—Letters and all written matter, whether sealed or unsealed, and all other matter sealed, nailed, sewed, tied, or fastened in any manner, so that it cannot be easily examined, **two cents per ounce** or fraction thereof. A "Special Delivery" ten-cent stamp, when attached to a letter in addition to the lawful postage, entitles the letter to immediate delivery at, or within one mile of, any post-office. Postal cards, one cent each; with paid reply, two cents each.

SECOND CLASS.—All regular newspapers, magazines, and other periodicals issued at stated intervals, at least four times a year; the postage is **one cent for each four ounces**, payable by postage stamps.

THIRD CLASS.—Embraces **printed books**, pamphlets, circulars, engravings, lithographs, proof-sheets and manuscript accompanying the same, and all matter of the same general character, and not having the character of personal correspondence. Circulars produced by hektograph or similar process, or by electric pen, are rated as third class when mailed in lots of twenty or more. The limit of weight for mail matter of the third class is four pounds, except in the case of single books exceeding that weight. The rate of postage on mail matter of the third class is **one cent for each two ounces** or fraction thereof.

FOURTH CLASS.—All mailable matter, not included in the three preceding classes, which is so prepared for mailing as to be easily taken from the wrapper and examined. Rate, **one cent per ounce** or fraction thereof, except seeds, roots, cuttings, bulbs, plants, and scions, which are **one cent per two ounces**. Limit of weight, 4 lbs. Full prepayment compulsory. Liquids, and other like injurious matter, not admitted, except under conditions which may be learned at any post-office.

Register all valuable letters and packages. **Registry fee, eight cents**, which, with the postage, must be fully prepaid.

FEES CHARGED FOR MONEY-ORDERS.—For Money-Orders in denominations of \$100 or less, the following fees are charged: For orders for sums not exceeding \$2.50, 3 cts.; \$2.50 to \$5, 5 cts.; \$5 to \$10, 8 cts.; \$10 to \$20, 10 cts.; \$20 to \$30, 12 cts.; \$30 to \$40, 15 cts.; \$40 to \$50, 18 cts.; \$50 to \$60, 20 cts.; \$60 to \$75, 25 cts.; \$75 to \$100, 30 cts.

Foreign Postage.

To all Foreign Countries (except Canada and Mexico):

On Letters, **five cents for each half ounce** or fraction thereof—prepayment optional. Double rates are collected on delivery of unpaid or short-paid letters.

International Postal Card, two cents.

On Newspapers, Books, Pamphlets, Photographs, Sheet Music, Maps, Engravings, and similar printed matter, **one cent for each two ounces** or fraction thereof.

All matter except Letters must be prepaid. Letters and other packages may be registered on payment of a fee of eight cents.

To **CANADA** (including Nova Scotia, New Brunswick, Manitoba, and Prince Edward Island): **LETTERS, two cents for each ounce** or fraction thereof; Books, Circulars, and similar printed matter, **one cent for each two ounces** or fraction thereof; **SECOND CLASS MATTER** same as in the United States; **SAMPLES, one cent per two ounces** (must be paid at least two cents); **MERCHANDISE, one cent per ounce**. Packages must not exceed 4 lbs. in weight—prepayment compulsory. No *sealed* packages other than letters in their usual and ordinary form may be sent by mail to Canada.

To **MEXICO**: Letters, Postal Cards, and printed matter, same rates as in the United States. **SAMPLES, one cent per two ounces**; **MERCHANDISE** other than samples can only be sent by Parcel Post. No *sealed* packages other than letters in their usual and ordinary form may be sent by mail.

To **PHILIPPINES, CUBA, GUAM, PORTO RICO, TUTUILA, and HAWAII**, same rates as in the United States.

LIMITS OF SIZE AND WEIGHT: Packages of samples of merchandise to all countries must not exceed 12 ozs., nor measure more than 12 inches in length, 8 in breadth, and 4 in depth; and packages of printed matter must not exceed 4 lbs. 6 ozs.

INTERNATIONAL OR FOREIGN MONEY-ORDER FEES.—On Money Orders payable in foreign countries the following fees are charged: For Orders for sums of \$10 or less, 10 cents; \$10 to \$20, 20 cents; \$20 to \$30, 30 cents; \$30 to \$40, 40 cents; \$40 to \$50, 50 cents; \$50 to \$60, 60 cents; \$60 to \$70, 70 cents; \$70 to \$80, 80 cents; \$80 to \$90, 90 cents; \$90 to \$100, \$1.00.

Rules for Computing Interest.

The following will be found to be excellent rules for finding the interest on any principal for any number of days. When the principal contains cents, point off four places from the right of the result to express the interest in dollars and cents. When the principal contains dollars only, point off two places.

Four per Cent.—Multiply the principal by the number of days to run, and divide by 90.

Five per Cent.—Multiply by number of days, and divide by 72.

Six per Cent.—Multiply by number of days, and divide by 60.

Seven per Cent.—Multiply by number of days, and divide by 52.

Eight per Cent.—Multiply by number of days, and divide by 45.

Nine per Cent.—Multiply by number of days, and divide by 40.

Ten per Cent.—Multiply by number of days, and divide by 36.

Twelve per Cent.—Multiply by number of days, and divide by 30.

Fifteen per Cent.—Multiply by number of days, and divide by 24.

Eighteen per Cent.—Multiply by number of days, and divide by 20.

Twenty per Cent.—Multiply by number of days, and divide by 18.

Twenty-four per Cent.—Multiply by number of days, and divide by 15.

Rate of Income on Stocks.

Purchased at the following prices (par value being \$100), and bearing interest at the following rates:

Paid.	3%	4%	5%	6%	7%	8%	9%
\$50	6.00	8.00	10.00	12.00	14.00	16.00	18.00
55	5.45	7.27	9.09	10.90	12.72	14.55	16.36

This Table is based upon the usual calculation of 9 hours to a day.

Weights — Measures.

MEASURES OF WEIGHT.—*Avoirdupois*: 1 pound equals 7000 grains; 16 drams, 1 ounce; 16 ounces, 1 pound; 112 pounds, 1 hundredweight; 20 hundredweight, 1 ton. *Troy*: 1 pound equals 5760 grains; 24 grains, 1 pennyweight; 20 pennyweights, 1 ounce; 12 ounces, 1 pound. *Apothecaries'*: 1 pound equals 5760 grains; 20 grains, 1 scruple; 3 scruples, 1 dram; 8 drams, 1 ounce; 12 ounces, 1 pound. *Metric*: 1 kilogramme equals 1000 grammes, equals 2.2 Avoirdupois pounds.

MEASURES OF LENGTH.—*Customary*: 12 inches equal 1 foot; 16½ feet, 1 rod; 40 rods, 1 furlong; 8 furlongs, 1 statute mile; 1 statute mile, 5280 feet or 1760 yards; 1 marine league, 3 nautical miles; 1 fathom, 6 feet; 1 nautical mile equals 6080.2 feet. *Metric*: 1000 millimetres equal 1 metre; 1000 metres, 1 kilometre; 1 metre equals 39.37 inches.

SURFACE OR SQUARE MEASURE.—*Customary*: 144 square inches equal 1 square foot; 9 square feet, 1 square yard; 30.25 square yards, 1 square rod; 40 square rods, 1 square rood; 4 square roods, 1 acre; 640 acres, 1 square mile; 1 acre equals 208.7 feet square. *Metric*: 1 square metre equals 10.764 square feet; 100 square metres equal 1 are; 1 hectare equals 100 ares, or 2.471 acres.

SOLID OR CUBIC MEASURE.—*Customary*: 1728 cubic inches equal 1 cubic foot; 27 cubic feet, 1 cubic yard; 40 cubic feet of round timber, 1 ton; 50 cubic feet of hewn timber, 1 ton; 128 cubic feet of wood (4 feet by 4 feet by 8 feet), 1 cord; 24.75 cubic feet of stone, 1 perch—usually 16½ feet by 1½ feet by 1 foot, but varies greatly. *Metric*: 1000 cubic centimetres equal 1 litre; 1 litre equals 1.0567 quarts.

LIQUID MEASURE.—English gallon equals 277.274 cubic inches, or 1.20032 U. S. gallons; 4 gills, 1 pint; 2 pints, 1 quart; 4 quarts, 1 gallon.

DRY MEASURE.—1 bushel equals 2150.42 cubic inches; 2 pints, 1 quart; 4 quarts, 1 gallon; 2 gallons, 1 peck; 4 pecks, 1 bushel. *Metric*: 10 millilitres equal 1 centilitre; 10 centilitres, 1 decilitre; 10 decilitres, 1 litre; 1 litre, 0.908 dry quart.

CAPACITY OF BOXES.

23 in. sq., 11.66 in. deep	=	Approx. 1 wine barrel.
17 " " 9.10 " "	=	" 1 wine half barrel.
17 " x 14 in. 9.00 " "	=	" 1 bushel.
10 " x 12 " 6.00 " "	=	" 1 "
8 " sq., 8.40 " "	=	" 1 peck.
8 " " 4.20 " "	=	" 1 gal. (dry measure).
7 " diam., 6.00 " "	=	" 1 gal. (liquid measure).

The Metric System.

The Metric System of Weights and Measures has been legalized by act of Congress, July 18, 1896.

METRIC WEIGHTS.—10 milligrams make 1 centigram, 10 centigrams 1 decigram, 10 decigrams 1 gram, 10 grams 1 dekagram, 10 dekagrams 1 hektogram, 10 hektograms 1 kilogram, 1,000 kilograms 1 metric ton.

METRIC MEASURES.—(One milliliter equals cubic centimeter.) 10 milliliters make 1 centiliter, 10 centiliters 1 deciliter, 10 deciliters 1 liter, 10 liters 1 dekaliter, 10 dekaliters 1 hektoliter, 10 hektoliters 1 kiloliter.

METRIC LENGTHS.—10 millimeters make 1 centimeter, 10 centimeters 1 decimeter, 10 decimeters 1 meter, 10 meters 1 dekameter, 10 dekameters 1 hektometer, 10 hektometers 1 kilometer.

APPROXIMATE EQUIVALENTS.

A meter is about a yard; a kilo is about 2 pounds; a liter is about a quart; a centimeter is about ½ inch; a metric ton is about same as an ordinary ton; a kilometer is about ½ mile; a cubic centimeter is about a thimbleful. A nickel five-cent piece of our coinage is a handy key to metric measures and weights. It is two centimeters in diameter and weighs five grams.

PRECISE EQUIVALENTS.

1 acre equals .4047 hectar; 1 bushel, 35.24 liters; 1 centimeter .3937 inch; 1 cubic centimeter, .0610 cubic inch; 1 cubic foot, .0283 cubic meter; 1 cubic inch, 16.39 cubic cent.; 1 cubic meter, 35.31 cubic feet; 1 cubic meter, 1.308 cubic yards; 1 cubic yard, .7645 cubic meter; 1 foot, 30.48 centimeters; 1 gallon, 3.785 liters; 1 grain, .0648 gram; 1 gram, 15.43 grains; 1 hectar, 2.471 acres; 1 inch, 25.40 millimeters; 1 kilogram, 2.05 pounds; 1 kilometer, .6214 mile; 1 liter, .9081 quart (dry); 1 liter, 1.057 quart (liquid); 1 meter, 3.281 feet; 1 mile, 1.609 kilometers; 1 millimeter, .0394 inch; 1 ounce (avd.), 28.35 grams; 1 ounce (Troy), 31.10 grams; 1 peck, 8.809 liters; 1 pint, .4732 liter; 1 pound, .4536 kilogram; 1 quart (dry), 1.101 liters; 1 quart (liquid), .9464 liter; 1 sq. centimeter, .1550 sq. inch; 1 sq. foot, .0927 sq. meter; 1 sq. inch, 6.452 sq. cent.; 1 sq. meter, 1.196 sq. yards; 1 sq. meter, 10.76 sq. feet; 1 sq. yard, .8361 sq. meter; 1 ton (2,000 lbs.), .9072 metric ton; 1 ton (2,240 lbs.), 1.017 metric ton; 1 ton (metric), 1.102 ton (2000 lbs.); 1 ton (metric), 9.842 ton (2,240 lbs.); 1 yard, .9144 meter.

PRESIDENTS OF THE UNITED STATES.

Names.	Born.	Inaugurated.	In Office.	Died.	Native of
George Washington.	Feb. 22, 1732	April 30, 1789	8 years.	Dec. 14, 1799	Virginia.
John Adams.	Oct. 30, 1735	Mar. 4, 1797	4 "	July 4, 1826	Mass.
Thomas Jefferson.	April 2, 1743	" 4, 1800	" "	July 4, 1826	Virginia.
James Madison.	Mar. 16, 1751	" 4, 1800	" "	June 28, 1836	"
James Monroe.	April 2, 1759	" 4, 1817	" "	July 4, 1831	"
John Quincy Adams.	July 11, 1767	" 4, 1825	" "	Feb. 23, 1848	Mass.

William H. Harrison.	Feb. 6, 1773	" 4, 1841	1 month.	April 4, 1841	Virginia.
John Tyler.	Mar. 20, 1790	April 5, 1841	3 yrs. 11 m.	Jan. 17, 1862	"
James K. Polk.	Nov. 2, 1795	Mar. 4, 1845	4 yrs.	June 15, 1849	N. Carol.
Zachary Taylor.	Nov. 24, 1780	" 4, 1849	1 yr. 4 m.	July 9, 1850	Virginia.
Millard Fillmore.	May 7, 1800	July 10, 1850	2 yrs. 8 m.	Mar. 8, 1851	New York.
Franklin Pierce.	Nov. 23, 1804	Mar. 4, 1853	4 yrs.	Oct. 8, 1861	N. Hamp.
James Buchanan.	April 23, 1791	" 4, 1857	" "	June 1, 1868	Pennsylvania.
Abraham Lincoln.	Feb. 12, 1809	" 4, 1861	4 yrs. 40 d.	April 15, 1865	Kentucky.
Andrew Johnson.	Dec. 29, 1808	April 15, 1865	3 yrs. 11 m.	July 31, 1875	N. Carol.
Ulysses S. Grant.	April 27, 1822	Mar. 4, 1869	8 yrs.	July 23, 1885	Ohio.
Rutherford B. Hayes.	Oct. 4, 1822	" 5, 1877	1 "	Jan. 17, 1903	"
James A. Garfield.	Nov. 19, 1831	" 4, 1881	6 m. 15 d.	Sept. 19, 1881	Vermont.
Chester A. Arthur.	Oct. 5, 1830	Sept. 19, 1881	3 yrs. 5 m.	Nov. 18, 1886	"
Grover Cleveland.	Mar. 18, 1837	Mar. 4, 1885	4 yrs.	"	N. Jersey.
Benjamin Harrison.	Aug. 20, 1833	" 4, 1889	" "	Mar. 13, 1901	Ohio.
Grover Cleveland.	Mar. 18, 1837	" 4, 1893	" "	"	N. Jersey.
William McKinley.	Jan. 29, 1843	" 4, 1897	4 yrs. 6 m.	Sept. 14, 1901	Ohio.
Theodore Roosevelt.	Oct. 27, 1858	Sept. 14, 1901	"	"	New York.

Weather Signals.

NO. 1. Fair Weather. NO. 2. Rain or Snow. NO. 3. Local rain or Snow. NO. 4. Temperature. NO. 5. Cold Wave.

No. 1, alone, indicates fair weather, stationary temperature.
No. 2, alone, indicates rain or snow, stationary temperature.
No. 3, alone, indicates local rain or snow, stationary temperature.

No. 1, with No. 4 above it, indicates fair weather, warmer.
No. 1, with No. 4 below it, indicates fair weather, colder.
No. 2, with No. 4 above it, indicates rain or snow, warmer.
No. 2, with No. 4 below it, indicates rain or snow, colder.
No. 3, with No. 4 above it, indicates local rain or snow, warmer.

No. 3, with No. 4 below it, indicates local rain or snow, colder.

STORM AND HURRICANE WARNINGS.

N. E. Winds. S. E. Winds. N. W. Winds. S. W. Winds. Hurricane.

STORM WARNINGS.—A red flag with a black center indicates a storm of marked violence.

The pennants displayed with flags indicate direction of wind—red, easterly; white, westerly; pennant above flag indicates wind from northerly quadrants; below, from southerly quadrants.

By night a red light indicates easterly winds, white light above red, westerly winds.

Two red flags with black centers indicate approach of tropical hurricanes.

No night hurricane signals are displayed.

Principal Cities.

POPULATION, DISTANCE FROM NEW-YORK, AND DIFFERENCE BETWEEN MEAN AND STANDARD TIME.

Explanation of the Currencies of the various Countries.

AUSTRIA AND RUSSIA—The Paper Currencies are continually subject to important fluctuations.

In FRANCE, BELGIUM, SWITZERLAND, AND ITALY, 1 franc=100 centimes. GERMANY, 1 mark=100 pfennig. HOLLAND, 1 florin or gulden=100 cents. NORWAY, SWEDEN, AND DENMARK, 1 kroner=100 ore, UNITED STATES, 1 dollar=100 cents. SPAIN, 1 peseta=100 centavos. AUSTRIA, 1 florin=100 kreuzer. PORTUGAL, 1 milreis=1000 reis. GREECE, 1 drachma=100 leptas. TURKEY 1 piaster=40 paras. RUSSIA, 1 rouble=100 copecks.

Italian notes and silver are not current in France, Belgium, and Switzerland, but the silver of these countries passes current in Italy.

Help in Case of Accidents.

DROWNING.—1. Loosen clothing, if any. 2. Empty lungs of water by laying body on its stomach, and lifting it by the middle so that the head hangs down. Jerk the body a few times. 3. Pull tongue forward, using handkerchief, or pin with string, if necessary. 4. Imitate motion of respiration by alternately compressing and expanding the lower ribs, about twenty times a minute. Alternately raising and lowering the arms from the sides up above the head will stimulate the action of the lungs. Let it be done gently but persistently. 5. Apply warmth and friction to extremities. 6. By holding tongue forward, closing the nostrils, and pressing the "Adam's apple" back (so as to close entrance to stomach), direct inflation may be tried. Take a deep breath and breathe it forcibly into the mouth of patient, compress the chest to expel the air, and repeat the operation. 7. **DON'T GIVE UP!** People have been saved after **HOURS** of patient, vigorous effort. 8. When breathing begins, get patient into a warm bed, give **WARM** drinks, or spirits in teaspoonfuls, fresh air, and quiet.

SUNSTROKE.—There are two important indications for treatment—reduction of temperature and the use of stimulants. The patient should first be removed to a cooler spot if possible, or at least where shade can be secured. The treatment should be begun at once. The clothing about the neck and body must be either loosened or removed. Cold is particularly indicated in cases where there is great heat of the body, and delirium and convulsive movements are present. This means of reducing the temperature may be applied in the shape of cracked ice about the head and spine, or the use of cold water. If the heat of the body is very great, it may be necessary to wrap the patient in sheets wet with cold water. If there is, besides the great heat, evidence of serious depression, stimulants must be used while the cold is being applied.

HÆMORRHAGE.—The usual treatment is rest in the recumbent position; small pieces of ice should be freely swallowed, and the application of ice wrapped in a towel or in an ice-bag, or snow, cold water, etc., over the stomach; hot applications may be applied to the extremities.

FIRE IN A BUILDING.—Crawl on the floor. The clearest air is the lowest in the room. Cover head with woolen wrap, wet if possible. Cut holes for the eyes. *Don't get excited.*

Help in Case of Accidents.

BURNS AND SCALDS.—Cover with cooking soda and lay wet cloths over it. Whites of eggs and olive oil. Olive oil or linseed oil, plain, or mixed with chalk or whiting. Sweet or olive oil and lime-water. Shock, which is always present in severe burns, requires the administration of stimulants. Pain is more constant and intense in burns than in any other form of injury, and requires sedatives, which should be administered by the medical attendant. Later on the appearances of inflammation and other complications are to be carefully watched for.

SUFFOCATION FROM INHALING ILLUMINATING GAS.—Get into the fresh air as soon as possible and lie down. Keep warm. Take ammonia—twenty drops to a tumbler of water, at frequent intervals; also, two to four drops tincture of nux vomica every hour or two for five or six hours.

TESTS OF DEATH.—Hold mirror to mouth. If living, moisture will gather. Push pin into flesh. If dead, the hole will remain; if alive, it will close up. Place fingers in front of a strong light. If alive, they will appear red; if dead, black or dark.

MAD DOG OR SNAKE-BITE.—Tie cord tight above wound. Suck the wound and cauterize with caustic or white-hot iron at once, or cut out adjoining parts with a sharp knife. Give stimulants, as whisky, brandy, etc.

FIRE IN ONE'S CLOTHING.—*Don't run*—especially not downstairs or out-of-doors. Roll on carpet, or wrap in woolen rug or blanket. Keep the head down, so as not to inhale flame.

FIRE FROM KEROSENE.—*Don't use water*, it will spread the flames. Dirt, sand, or flour is the best extinguisher, or smother with woolen rug, table-cloth, or carpet.

CINDERS IN THE EYE.—Roll soft paper up like a lamp lighter, and wet the tip to remove, or use a medicine dropper to draw it out. Rub the *other* eye.

FAINTING.—Place flat on back; allow fresh air, and sprinkle with water. Place head lower than rest of body.

STINGS OF VENOMOUS INSECTS, ETC.—Apply weak ammonia, oil, salt water, or iodine.

LIGHTNING.—Dash cold water over a person struck.

Poisons and Antidotes.

FIRST.—Send for a physician.

SECOND.—**INDUCE VOMITING**, by tickling throat with feather or finger. Drink hot water or strong mustard and water. Swallow sweet oil or whites of eggs.

Acids are antidotes for alkalies, and vice versa.

ACIDS, MINERAL.—Chalk, magnesia (plaster off wall in emergency), solution carbonate of soda, emollient drinks, fixed oils.

ACID, CARBOLIC.—Any soluble sulphate, such as magnesia.

ACID, HYDROCYANIC.—Fresh air and artificial respiration, with cold effusion. Ammonia by inhalation and intravenously in vein of leg.

ACONITE.—Emetics, stimulants, external and internal; keep up external heat, keep flat on back.

ANTIMONY TART.—Vegetable acids, such as tannic acid, catechu.

ARSENIC.—Freshly precipitated hydrated sesquioxide of iron made by adding magnesia to any iron solution.

ATROPIA.—Same as Belladonna.

BELLADONNA.—Emetics—mustard flour in water; give physostigma or pilocarpine; cold to head.

CANTHARIDES.—Emetics, emollient drinks, opiates by mouth and rectum, large draughts of water to flush kidneys.

CHLORINE WATER.—Albumen, white of egg, milk, flour.

CHLOROFORM.—Fresh air, artificial respiration (inclining head down, pull tongue forward), brandy and ammonia intravenously in leg, the **HYPODERMIC** injection of 15 m. tincture of digitalis and 1-60 of a grain of atropine.

COLCHICUM.—Emetics, followed by demulcent drinks. If coma be present brandy, ammonia, coffee. Opium in large dose. Keep up external heat.

CONIUM.—Emetics, followed by stimulants external and internal.

CORROSIVE SUBLIMATE.—Albumen, white of egg (4 gr. sublimate require white of one egg), flour, milk. Equal parts of lime water and milk. Emetics, or evacuate stomach by pump.

Poisons and Antidotes.

COPPER SULPH.—Yellow prussiate of potash or soap.

CROTON OIL.—Emetics; wash out stomach, followed by mucilaginous fluids, containing opium.

DIGITALIS.—Recumbent posture after emetics. Emetics and opium; give tincture aconite.

ELATERIUM.—Demulcent drinks, enemata of opium, and external heat.

HYOSCYAMUS.—Stomach pump, emetics, stimulants external and internal, physostigma and pilocarpine.

ILLUMINATING GAS.—Hypodermic injections of nitroglycerin are recommended by Kloman, of Baltimore.

IODINE.—Emetics and demulcent drinks, starch or flour diffused in water, opium and external heat.

LEAD SALTS.—Any soluble sulphate, either magnesia or soda, succeeded by emetics, and afterwards by opium and milk.

LOBELLA.—Stimulants externally and internally; external heat.

MORPHINE.—Same as opium.

NUX VOMICA.—30 grs. of chloral and 60 grs. of bromide of potash. Nitrite of amyl.

OPIUM.—Atropine hypodermically till respirations number 8 per minute. Stomach pump, stimulants, external and internal, brandy and coffee, cold affusion, ammonia to nostrils, galvanic shocks, compelling to move about, artificial respiration, electric brush. Permanganate of Potash.

OXALIC ACID.—Lime, not potash or soda.

PHOSPHORUS.—Sulphate of copper in emetic dose as chemical antidote. No oils. Emetics and purgatives.

POTASH AND SODA SALTS.—Dilute acetic acid, citric acid, lemon juice, fixed oils, demulcents, vinegar.

SILVER NITRATE.—Solution of common salt and demulcent drinks. Emetics.

STRAMONIUM.—Same as Belladonna.

STRYCHNINE.—Same as Nux Vomica.

TOBACCO.—Emetic, stimulants, external and internal, strychnine, external heat.

ZINC SALTS.—Carbonate of soda, emetics, warm demulcent drinks.

Things Easily forgotten.

Washington, D. C.

Wea.

WED. JAN. 1, 1908

Ther.

Forenoon Cloudy; afternoon clear.
Rather cool but not frosty. Light W. wind.

Took a rather long walk with C. in forenoon looking for rooms at the Shoddham, Normandie and Stoneligh Court. Found nothing suitable to our present needs so we shall probably stay on at the Gordon.

I went to Dr. Allen's at 2 P.M. & spent two hours in his chair. Received written letters until 5.30 when C. went to see for our home. Nelson called at 8.45 and stayed until 10.

Wea.

THURSDAY 2

Ther.

Clear, calm, mild, spring like.

Spent forenoon in my room writing letters & working a little on Umbagog. M. S. To Dr. Allen's at 1.30 spending nearly an hour there. While in his chair. I saw a Buzzard soaring over the city at a great height. This is literally the first native bird I have noted since I came here three weeks ago.

C., Henry & I went to Belasco Theater this evening. To see John Drew in a "House with a thousand chandeliers." It was very poor

Washington.

Wea.

FRI. JAN. 3, 1908

Ther.

Clear & cooler with light easterly winds.

To Dr. Allen's at 8.30. Back to the
Gordon by 10.30. At 12.30 C. & I
went to Harvey's to lunch with Nelson
& Henry, the former being our entertainer.
He had roasted oysters deliciously cooked
and served with a unique sauce, an
invention of Harvey's & a carefully guarded
secret as was told. I spent most
of an afternoon walking in Embassy M.D.
I had a lot of fun with the Washington
in the evening.

Wea.

SATURDAY 4

Ther.

N. E. storm, at first snow, then sleet,
finally rain, the air intensely chilly.

Wrote letters and worked a letter
on Embassy M.D. in forenoon. Went
to Dr. Lewis's 1408 New York Ave. at
noon and had two teeth extracted,
taking laughing gas or rather a modern
substitute for it that works more gently.
After this walked to 7th St. & bought a
bowl for C. & Lily's birds. Took the car back.
Spent afternoon & evening in our rooms
writing a letter. C. read from magazine in
the evening.

Washington.

Wea.

SUN. JAN. 5, 1908

Ther.

Brilliantly clear with fresh N. W. wind.
Much cooler, the street puddles frozen.

Took a walk with C. after breakfast.
Sixteenth St. is shaded by tulip trees of
fair size. In the top of one of them, only
a few rods from the Gordon, I saw a ♂
Cardinal. He was among the seed vessels
of the tulip tree & he chirped incessantly.

Wrote letters after my return.

Miss Stebbins lunched with C. & me. At 3
P.M. Jos. Grinnell called & took me to the
Kensington where I met Miss Alexander
of Colo. Hearty spent the evening with C. & me.
Wea. b MONDAY 6 Ther.

Brilliantly clear with fresh N. W. wind.
Early morning cool.

To Dr. Allen's at 8.30. He filled
one tooth & dismissed me at 9.30.
On the way back I called at the
Riggs Nat. Bank & drew \$100. on my
letter of credit. Also bought some
magazines. Walked on Embassy M.D.
rest of forenoon & out afternoon.
C. went to the Belasco Theatre in the
John Macbroom this evening, & to the
Cosmos where I met Howell, Tessa &
others. Met C. & Miss Grinnell when they
came over to see & escorted them home.

Will in room.

Wea.

TUES. JAN. 7, 1908

Ther.

Raining heavily all day. Wind N.E.

Writing all day in the smoking room and the hall of the Gordon.

The conditions are not favorable there for composition but I did my best & produced a couple of pages of rather dull matter for the introduction to the Umbagog book. C. worked with her typewriter on some M.S. that Henry has given her to copy. We did not either of us go over to see our canoe to see it.

Wea.

WEDNESDAY 8

Ther.

Cloudy, chilly, calm. Raining in evening. Mr. & Mrs. J. C. Melvin arrived from Boston at 9.45. I went to station to meet them but missed them there. Found them later at New Willard & brought them to Gordon to lunch. They started for South Carolina at 3.45. At 2.30 I met an appointment with Dr. Allen who filled a few teeth. Back to Gordon by 6 P.M. Shopping a little by the way. C. read short stories from magazines in the evening.

Washington.

Wea.

THUR. JAN. 9, 1908

Ther.

Clear, cold; high N.W. wind; a harsh, disagreeable day despite the bright sun.

To Dr. Allen at 8.30. He kept me about an hour & filled two teeth.

Returning to the Gordon I wrote letters until noon. C. & I took a walk after lunch calling at the Belasco for opera tickets for next week & at Brentano's to buy two novels & some note paper.

Got back about 3.30 and worked on Umbagog M.S. until 6.30. Henry came at 8.15 & stayed until 10.

Wea.

FRIDAY 10

Ther.

28°

Clear and warmer yet frosty. Light westerly to southerly winds.

To Dr. Allen at 8.45. Spent an hour in his chair & had one tooth filled. Did a little shopping & returned to the Gordon to work on Umbagog M.S. Escorted C. to the Belasco after lunch. She went to attend a travel lecture by Boston Holmes & very good she found it. I spent the afternoon writing. C. read to me in evening. Letter from W. C. Jellison about 7.15 & 8.15. read it.

Washington.

Wea.

SAT. JAN. 11, 1908

Ther.

Forenoon sunny; afternoon cloudy; light rain at evening. Mild with light S.E. wind.

Spent entire morning in hotel lobby working on Umbagog M.S. Out walking with C. most of afternoon. We visited F. St. where I bought a rain coat and the Corcoran Art Gallery where I saw Joe Smith's Egyptian pictures a second time. In a little flower store near Stoneligh Court we bought an aralia, a primrose & a pot of muffs to brighten our little parlor at the Gordon. C. read to me from "Beau Bracade" after dinner.

Wea.

SUNDAY 12

Ther.

60°

Forenoon sunny; afternoon cloudy with heavy thunder shower. Very warm. Wind W.

Spent most of day in hotel lobby writing letters. Took a short walk alone about sunset strolling through the streets & parks near the Gordon. It seems strange to see no native birds. I thought I heard the chirp of a Cardinal outside my window this morning but was not sure. I see old Robin's nests in trees along our street. C. read to me this evening from "Beau Bracade".

Washington - Boston.

Wea.

MON. JAN. 13, 1908

Ther.

50°

Early morn clear; rest of day cloudy with light rain in P.M. Calm. Mild

C. & I took a walk after breakfast calling at the Tailor's to try on a rain coat I bought yesterday & am having altered, to the Penn. R.R. ticket office & to Galt's where we posted, then to return to the Gordon, & to keep on to Agric Dept. where I saw Henry, Fishbe, Oldys, Oberholser & Osmond & to the Smith. gallery where I had a dinner with Ridgway & Richmond. Returned to Gordon to lunch. Spent P.M. in my room writing. C. & I went to the Palace at 7.45 to see the opera "Aida". It was fine with a capital tenor.

Wea.

TUESDAY 14

Ther.

Clear, much cooler, strong N.W. wind. Left Washington at 7.40 A.M. by Colonial Express for Boston where I arrived on time at 8.20 P.M. Got off at North St. and walked to W. C. Jeffers house where I am to stay until Thursday. Before going to bed Jeffers gave me a full account of the financial condition of the Fish & Game Pres. Ass. He has gone to the bottom of things. I worked on the case most of the day on Umbagog M.S. There is no direct connection between Washington & Boston & all the funds except the very smallest are from from case.

I bought a rain coat at the Tailor's & am having it altered at the Penn. R.R. ticket office.

Boston - Washington.

Wea.

WED. JAN. 15, 1908

Ther.
22°

Clear & colder. High N. W. wind

A strenuous day. Breakfast at 8, a walk across the Garden & Cannon with Joffins at 8.40 reaching 15-20th st. about 9.

Spent most of forenoon in our office. Saw Gilbert, W. Deane & J. L. Munster then. Signed a lot of quarterly cheques. Directed purchase of 5 new Mass. bonds for the Estate. Lunched at "Bank of Boston", Executive Com. meeting in State building 2-5 P.M. Annual Meeting Feb & June in Government. Westminster Hotel 7.30-10.30. Reed, Henson, Wiggins & others attended and came bitterly I talked to them my name with clean from President but was elected President. The opposition, elected about 4 of them men on the committee. It was a very fine.

Wea.

THURSDAY 16

Ther.
40° at

Cloudy & warmer with rain in forenoon Boston.

Left Boston at 9.04 A.M. by Island Ex. for Washington which I reached at 9.45 P.M. A little fresh fallen snow in Conn. Worked at intervals through day on a letter to Feb & June Ass. declining to become again as President. Read magazines, etc. Found Mr. & Mrs. Buck on the train & talked with them about Joffins when I met them in 1898 or 9. They were on their way to Purchase is-day. On reaching the Gordon about 10 found Co. as well as usual.

Washington

Wea.

FRI. JAN. 17, 1908

Ther.

Clear, calm, mild. A delightful day, one of the very pleasant of the winter.

Spent forenoon writing letters in the lobby of the Gordon. To Dr. Allen at 1.45. He worked on my teeth about an hour. On my way back to hotel bought some underclothes & a pair of premises for one pencil. Worked on writing of M.S. in late P.M. Henry came at 8.15 and stayed until 9.30. He is having much trouble with intestinal indigestion. I have a heavy cold which started in Boston.

Wea.

SATURDAY 18

Ther.

Partly cloudy. Rather mild but with chill east wind.

Heard a Cardinal chirping in the grounds at the rear of the Gordon as I was eating breakfast. To Dr. Allen at 9 A.M. He kept me about an hour talking a plastic case of my lower jaw for use in making a plate.

Returned to the Gordon at 10.30 & spent the afternoon of the day then writing letters & M.S. in the lobby. Co. who is in the Columbia Co. P.M. with Miss Thompson to the Red Hill.

Washington.

Wea.

SUN. JAN. 19, 1908

Ther.

A rare day, Cloudless, calm, just pleasantly cool - or warm - which shall we say? Ther. about 50° at noon.

To the Ontario at 10.30 to see Henry. He is suffering from intestinal indigestion but keeps out & at his work. I sat with him in his room until noon. Two Buzzards perched the windows every here. Crows cawing. Got back in time for lunch with C. In the afternoon we called on the Vernon Baileys & on Mr. Marriam. I called alone on Mrs. Bolton. Walked back from there.

Wea.

MONDAY 20

Ther.

Clear, calm, mild.

C. spent the day in one room, in her wrapper. I helped her about some copying she is doing for Henry, also I worked on Umbagog M.S. for them or from home. Went to Dr. Allen at 1.30. He took another plaster cast of my mouth & extracted a loose piece of jaw bone.

W. E. Brigham, Washington speaker for an Am. Harveyst, interviewed me this evening at the Astor Hotel. I told him literally nothing except that I was having his Paul doing in a special perfect room alone & had with me all the

Washington.

Wea.

TUES. JAN. 21, 1908

Ther.

52°

Partly Cloudy, calm, mild.

Took a short walk just after breakfast calling at a tailor's & at a flower store to order some roses for C. at E. R. S.'s request. Worked on Umbagog M.S. the rest of forenoon. To Dr. Allen at 1.30. He filled a front tooth. Started for Brookland at 2 P.M. Reached there about 2.30. Found Mr. & Mrs. Ridgway at home & spent more than an hour with them. Saw a ♂ Cardinal & a Cassin's Chickadee in their grounds & saw more of each species on way way there. On my way back noted a sluggish flight of winged Crows of both species - not many I judge 100 in all.

Wea.

WEDNESDAY 22

Ther.

Clear with light N. E. wind. Almost oppressively warm in forenoon; cooler at evening.

Worked on Umbagog M.S. most of forenoon. Visited Dr. Allen's office at 10.30 to have a filling smoothed off. C. & I had in lunch a lunch that Jim Helton had us. I took another to Henry at 2.30. His intestinal trouble is no better & he is fast breaking down nervously. I went with him to Dr. Javon's at 5.30 spending about an hour there. Worked again on the M.S. after my return. C. began a new story this eve. "Lord Cammerling's Secret"

Washington.

Wea. THUR. JAN. 23, 1908 Ther.

Snowing heavily all the afternoon, most of it melting as it struck but about an inch covering the ground by nightfall. A raw dismal day with violent winds.

C. went to church at 11 but I did not sit foot out of doors all day. Through the forenoon & the latter part of the afternoon I worked on the biography of M. J. Keating old matter & writing a little new. Henry called at 3.30 staying about an hour. He had seen Garrison who thought him better. C. read about from "Lord Lovelock's Secret" in the evening.

Wea. FRIDAY 24 Ther. 24°

Clear with strong N.W. winds. Cold. Ground covered 1 in. deep with snow. Streets & sidewalks icy & very slippery. Began writing letters after breakfast when Henry telephoned that he was feeling much worse, that he was going to his niece's in Watertown & that he needed my help. I first went down town & bought his tickets for the Federal Ex. Co. motor. After lunch I went to the Ontario & posted his trunk. Merriam called to see me & to him. He said he was in the hospital in a bad way. I went down to the hospital & saw him. He was very weak & I stayed with him for some time. He was very weak & I stayed with him for some time.

Washington.

Wea. SAT. JAN. 25, 1908 Ther.

Clear, calm, mild. Snow washing rapidly the streets & sidewalks bare & dry by sunset but the lawns still white.

Spent forenoon in hotel lobby writing letters. C. & I went to Belasco Theater after lunch to see the "Great Divide", a good melodrama, well acted. It was over about five o'clock when we went out for a walk. It was like an April evening & the western sky was flushed with delicately tinted streaks. C. went out after dinner.

Wea. SUNDAY 26 Ther.

Cloudy, calm, mild.

Merriam, his daughter Zenaida, Fisher, Nelson, Chapman, Shiras & I spent the forenoon together at the Zoo where we were taken about by Dr. Baker & one of his assistants. I enjoyed it exceedingly. I heard a Boy Oyst' mow "much like a house cat, only louder. We got back at noon Jim Melvin passing through the city from Boston is selling cash with cash. Hobbs at 1.30. He stayed an hour. I went to Dr. Baker at 3. He kept me one hour. I stayed at 5.30.

Washington.

Wea.

MON. JAN. 27, 1908

Ther.

Clear with high, cold N. W. wind
Ther. above freezing point most of day.

To Dr. Allen at 9.45. He worked
on my plate about an hour and I wrote
a mass of the day but did not eat with it.

Worked on Umbagog M.S. & letters from
11 to 1 and from 3 to 6.45. C. & I took
a short walk after lunch. Later I went
to the Ontario to get something to send Henry.
He wrote that he has decided to go to Bethel.

Nelson called at 8 P. M. & we went to the
Cosmos to get some. Saw Fisher, Osgood, Pritchard,
Stiles & Howell there.

Wea.

TUESDAY 28

Ther.

Partly cloudy with chilly, variable winds
chiefly westerly.

To Dr. Allen at 8.30. He worked
on my new plate. I got back
at 10. John Nichols, my old schoolmate,
called & spent an hour. Then I
worked about an hour on the

Just after lunch I went to the
Ontario & packed Henry's things & sent
them to Albert & sent him to
Watkinson. Paid a second visit to Dr. Allen
after at 4.45. C. began a new book
of detection stories this evening.

Washington.

Wea.

WED. JAN. 29, 1908

Ther.

Clear with breeze & cool yet not cold
N. W. wind. Ther. 34° at sunset.

To Dr. Allen at 9.40. He merely
filed my plate a little. Worked on
Umbagog M.S. from 10.45 to 12.30 when
I started for Harvey's where I met
Nelson by appointment. C. was to have
gone with me but she had neuralgia.

Nelson & I lunched on roast oysters &
apple pie. He talked chiefly about Alaska.
I got back in the Golden at 2 & worked
from 3 to 6.30 at night. C. reworked
from the 11th to 12th in the evening after dinner.

Wea.

THURSDAY 30

Ther.

17°

Clear & cold with light N. W. wind 28°

To Dr. Allen at 9.45. He worked
on my plate about 15 minutes & then
dismissed me. Returning to the Golden
I worked on Umbagog M.S. until
lunch time. At 2 I went to the
drug store opposite the Arlington to
register a letter to Markin. Worked
from 3 to 5 on the M.S. Spent an
hour with home with C. who read aloud
part of the time then and again in
the evening. She has not been out for
three days because of neuralgia.

Washington.

Wea.

FRI. JAN. 31, 1908

Ther.
16°

Forenoon clear, afternoon cloudy. 28°
Cold but without wind

Spent entire day in hotel
writing on Umbagog M.S. in the lobby
down stairs from 10 a.m. to 1 p.m.
and from 3 p.m. to 5.30 p.m.

C. spent the day in bed on account
of her neuralgia which, however, is
better rather than worse. The guests at
the Gordon are an uninteresting lot, I
am on speaking terms with only two of
them & C.'s position is the same.

Wea.

SAT. FEB. 1

Ther.

Cloudy with light rain. Mild. About
2 inches of snow fell last night. The
rain carried off most of it to-day.

I worked on Umbagog M.S. most of day
spending, however, two or three hours
with C. who kept to her bed and taking
a short walk at evening. The sidewalks
were wet & slushy but most of the snow
had disappeared. Horses were slipping
badly on the asphalt. The clouds were
gathering in the west and the air was
cooler than at noon.

Washington.

Wea.

SUN. FEB. 2, 1908

Ther.
24°

Clear & cold with high N.W. wind

Walked to Arlington drug store & to
St. John's church just after breakfast on
errand for C. She was up & dressed to-day
but not out of doors. I wrote letters, morning
& afternoon, in hotel lobby. Miss Gregerson
dined with us at 7 and spent evening.
I escorted her to Shoreham at 10.

Where not snow-covered the grass still
shows green despite recent cold. The streets
& sidewalks are bare but icy in a few places.

Wea.

MONDAY 3

Ther.

Clear, calm, warmer 38 max.

Spent most of day in hotel lobby
working on Umbagog M.S. To Dr. Allen's
at 1.30. He filed my plate some more.
Returning took C. for a short walk, the
first time she has been out for over a week.
To the Cosmos at 8.30 staying until
10. Talked with Nelson, Fisher, Osgood,
Knowlton, Baker, Swartz and Hopkins.
The rooms well filled. Everybody eats
sandwiches & drinks beer or lemonade.
The men wear anything they please & only
a very few attend in evening dress.

Washington

Wea.

TUES. FEB. 4, 1908

Ther.

Clear & cooler with easterly winds.

An interrupted day. At 9.30 I went to 7. St. to get a concert ticket for C.

at 10 to the Shoreham to take Miss Gregerson to Nat. Museum & Smithsonian, where we spent two hours;

at 1.30 to Dr. Allens, where I had my plate tinkered down more;

at 3.30 to the auction room on G. St. to show C. a fine collection of Japanese

vases of art; at 4 to the Outlets where I packed a muffer, handkerchiefs etc to send to Mary. C. went to see after dinner

Wea.

WEDNESDAY 5

Ther.

20°

Cloudy, cold, snowing all day covering the ground to a depth of 4 or 5 inches by nightfall. For the first time since I came the footfalls of horses on the asphalt are not heard in our rooms.

Spent most of day in hotel lobby working on Umbagog M.S. Walked to the Treasury after breakfast and went by car to 11th St. and back after lunch. Buying three novels at Brentano's & some paper etc. C. had a heavy fall this forenoon while on her way to see Sally Deacons who arrived at the Hamilton last evening.

Washington

Wea.

THUR. FEB. 6, 1908

Ther.

46°

Cloudless, calm, mild. Nearly six inches of snow at sunrise. The warm air & clear sun melted it rapidly & sidewalks & crossings were everywhere bare before sunrise.

Spent forenoon in hotel lobby working on Umbagog matter. Walked to Columbia Theatre after lunch to buy tickets to Saturday matinee. On way back saw Purple Grackle, fine ad. ♂, perfectly typical, in Lafayette Park. It was low down in elm & I within 20 ft. It finally flew off heavily. C. did not leave our rooms today. Called out only 4.30 P.M. & 5.15 P.M. & 10.15 P.M. & only had a few calls.

Wea.

FRIDAY 7

Ther.

26°

Clear; cooler; fresh N.W. wind. 38°

Two Crows cawing near the Gordon at sunrise this morning. House Sparrows thronging the parks & becoming noisy, of late.

Spent most of day in hotel lobby working on the Umbagog introduction. I am trying to describe the lake, its coves, its marshes etc. concisely yet interestingly, a different task.

C. & I walked to the farm store on 14th St. just after lunch. She read aloud to me this evening from the "Broken Road", a capital story.

Washington

Wea.

SAT. FEB. 8, 1908

Ther.

34°

Clear & cool with light N.W. wind

Spent most of day in hotel lobby working at my usual task. Walked to the Riggs' Bank after breakfast to get a gold coin and to the Columbia Theater with C. after lunch. She met Sally Denison there. They saw Gilbert Parkes "Rights of Way" and thought it good. I came back to the Gordon to work stopping by the way at the 14 St. flower store to order roses & carnations for the wedding. C. read to me this evening for an hour as usual.

Wea.

SUNDAY 9

Ther.

15°

Clear, calm, cold.

28°

Thirteenth anniversary of my wedding.

To early service at St. Johns at 8 a.m. with C. We had a brisk walk after that. Spent remainder of day in hotel reading & writing letters.

Nelson & Sally Denison dined with us at 7 P.M. Sally departed at 8.15 but Nelson stayed until 10.30.

He talked about his adventures in Alaska & Mexico. C. & I saw each other. #10 gold pieces. Walter & Marger sent us white roses. I bought red roses & carnations.

Washington.

Wea.

MON. FEB. 10, 1908

Ther.

Cloudy, calm, mild. Streets stoppy, sidewalks dry.

Spent most of day in hotel lobby working on Umbagog introduction. To Dr. Allen at 4.40. He advises me to abandon my plans & have "bridges" made, which I shall do. On my way back met Dick Dana. We took a rather long walk together. He is here for a few days only - to see the President. Spent evening at Casino. Dined with Alfred, Nelson & Rose & Gervann.

Wea.

TUESDAY 11

Ther.

Cloudy, calm, mild. Snow melting but slowly. Lawns still thinly snow covered.

To Dr. Allen at 9.40. He began work on my bridge, keeping me about an hour. Returning walked until 1 on Umbagog Rd. At 2.15 C. & I walked to auction rooms on S. St. To look at Oriental rugs, some of them very handsome. Thence by car to Capitol where we took seats in Senate gallery. C. stayed there until 5.30, I only half an hour when I visited the House gallery & then returned to Gordon to write for two hours. C. took the Babylon Road home.

Washington.

Wea.

WED. FEB. 12, 1908

Ther.

Cloudy, calm, mild.

To Dr. Allen at 10.10. He worked on my bridge for nearly two hours. Before going to his office I visited Columbia Theatre and bought two tickets for matinee, next Saturday. On the way back I looked in at the rug auction but made no bids. Spent afternoon in hotel lobby working on Umbagog M.S. C. took a long walk in Georgetown. Dined this evening at Beloved Vagabond.

Wea.

THURSDAY 13

Ther.

Raining most of day. Calm, mild.

To Dr. Allen at 11.30. He worked until 4 on my bridge. I spent most of afternoon in hotel lobby working on Umbagog M.S. Went out for a walk at 5.30 visiting the flower boxes on Conn. Ave. where I bought a pan of hyacinths and one of primroses for one room & the Arlington day later when I got a valuation for C. Madame called at 8 & stayed until 10 P.M. We sat in hotel reading room

Washington.

Wea.

FRI. FEB. 14, 1908

Ther.

Cloudy, calm, mild. Misty with fine rain, also, at intervals.

Spent forenoon in hotel lobby copying and amplifying notes made at Ballou's last August. To Dr. Allen at 1.45. He worked on one of my teeth about half an hour. Returning I sat with C. about an hour and then went to the lobby to resume my writing. C. did not go out all day. She sent to me in the evening from the "Beloved Vagabond", a charming story.

Wea.

SATURDAY 15

Ther.

Forenoon Cloudy with heavy showers. Afternoon sunny. Very warm.

Spent forenoon in hotel lobby working on Umbagog introduction.

C. & I went to Columbia Theatre in afternoon to see "Prince Chap", a capital play, movingly human and very well acted. There was a good audience. We walked to & from the theatre. The afternoon was warm & springlike. After our return at 5 I worked another hour in the lobby. C. read Beloved Vagabond in evening.

Washington

Wea.

SUN. FEB. 16, 1908

Ther.

Colder. Morning clear; afternoon cloudy; snowing at 9 P.M.

Lo Dr. Allen at 10 A.M. He put in my "bridge" a tedious & painful operation consuming over two hours. On the way to his office I saw 4 ♂ Grackles, all juv., on the ground in Lafayette Park. C. heard a Cardinal bringing over the Garden at 8 O. M.

C. & I walked to the Sawtells on N. St. at 4.30. We met there General & Mrs. Sawtelle, their daughter Laura, Mr. & Mrs. Deland & another lady. We stayed an hour & had afternoon tea. I heard a Cardinal chirping near the British Legation house.
Wea. MONDAY 17. Ther. 38°.

Clear with harsh N.W. wind

Lo Dr. Allen at 11. He did a little final work on my bridge and handed me his bill the total amount of which was only \$12.4. Yet I have had something over thirty billings!

Lo the Outlets after lunch to pick up things Henry wants. I could not find all of them so had nothing. Returning walked for 2 hours on Embassy Mall. C. had a doctor for her neuralgia which is worse. I spent evening at G. W. Nelson. Talked with Nelson, Fisher, Ogden & Clark & Chicago

Saw a Crow Blackbird & a Field Sparrow in the Garden

Washington

Wea.

TUES. FEB. 18, 1908

Ther.

Clear & rather cold with fresh N.W. wind

Took a short walk after breakfast visiting the auction rooms on J. St. where another large collection of Japanese things is about to be sold.

Spent remainder of day in our hotel working on Embassy introduction in the lobby most of the time.

C. went to a concert with Lady Deane in afternoon. He finished the "Beethoven Violin" his evening

Wea.

WEDNESDAY 19

Ther.

Cloudy. About 2 in. of snow fell last night. It rained steadily all day & by evening the snow was nearly all gone.

Lo Dr. Allen at 9.15. He ground down my bridge a little. I am beginning to eat with it. Spent most of day in hotel lobby working on Embassy int. but went out a second time at 2 P.M. to buy tickets for C. to a concert next Tuesday and to Saturday Matinee at Belasco Theatre. C. stayed in all day. She began reading a "Son of the People" to me this evening

Heard a Grackle near the Garden

Washington.

Wea.

THUR. FEB. 20, 1908

Ther.

Clear & cooler with brisk N. W. wind.

Spent forenoon in hotel lobby working on Embassy introduction. Took a walk with C. just after lunch, first to 14th St. flower store where I bought roses to send to the Swallows, whose only son has just died, next across the park to 11th St. finally to the Hamilton where I left C. to make a call on Sally Deaton. Returning I walked until 6 o'clock. He didn't stay as much. C. had a "dinner of the People" after dinner.

Wea.

FRIDAY 21

Ther.

Partly cloudy; chilly; wind N.

Took a walk up Conn. Ave. with C. just after breakfast. Called at Antique Store where I bought a brass candle sconce for \$4. Saw 8 Purple Martins in park. Work on Embassy m. s. in lobby from 10.30 to 11.30. Called on Dr. Allen then on Dr. P. M. for last time. Then to room where I bought some paper for C. Sally Deaton called at 3 P.M. C. said to see from "Son of the People" in the evening.

Washington.

Wea.

SAT. FEB. 22, 1908

Ther.

Clear & rather cold with fresh N. wind.

Spent forenoon in hotel. Wrote in lobby from 9 to 10.20 when Nelson came. I took him to our rooms where we sat with him until lunch which Nelson took with us. He left about 2 when I walked with C. to the Belages where the met Sally Deaton & with her saw the Ben Street hangers in their Harschman play. I returned to the hotel & wrote for 2 hours when Dorothy Harrison called. I answered her until 6 o'clock. C. said to see from "Son of the People" after dinner.

Wea.

SUNDAY 23

Ther.

Cloudy & chilly. About 40 in. of snow fell all night. Most of it melted in day.

I wrote letters in the lobby through forenoon. At 2.30 C.T. started by Willey car for the Postman to call on Nelson. He spent an hour in his room looking at photographs etc. He had many manuscript & other things. Started back at 4 P.M. walking all the way to the station, stopping at the Hamilton where Sally D. I walked a mile in my coat before lunch. C. said to see from "Son of the People" in the evening as usual.

Saw a Cardinal near the station.

Cambridge - Boston.

Wea.

FRI. FEB. 28, 1908.

Ther.

Clear & cold with brisk N. wind.

I have taken a room at Mrs. Cummings' 74 Buckingham Street. Spent day at my museum unpacking trunks, writing a few letters etc. Most of the garden covered thinly with dry snow. Street bare but dry, sidewalks bare & dry. Saw birds to day. Called at the neighbors this evening seeing Mrs. S. Miss Thompson, Mrs. Hunt and Mrs. Hillman.

Wea.

SATURDAY 29

Ther.

16°

MONDAY 2

Ther.

Cloudy with drizzle of rain. Chilly. Ground snow - covered to depth of 2 1/2 inches this morning.

Spent day in Museum writing letters, filing bills, etc. A Chickadee calling phoe bee in the garden this evening.

Whitehead's men began work on our house about 10 A.M. We are to have living room remodelled & a new chamber for C. built at the expense of having. To N.O.C. meeting at 8.30 & came this eve. J. Dwight there

Cambridge

Wea.

TUES. MARCH 3, 1908

Ther.

Partly cloudy; cooler. Wind N.E.

Spent day in Museum getting Umbagog notes & M.S. in order for further work on this Stone Murrey book. No calls. A Nuthatch, 2 Chickadees & a Crow visited the garden. The Nuthatch gave an spring call twice. Green tips of crocus shoots above an inch out of ground. Char. Army sailed for England at 10 A.M.

Called on Mrs. Cobb & Dr. J. F. Allen

Wea.

WEDNESDAY 4

Ther.

Clear with light N.E. wind. Warmer. Snow & ice melting slowly.

Spent day in Museum working on Umbagog notes and M.S. A Downy Woodpecker & Chickadee visited the feed on the catolapa tree. Heard Crows cawing. C. went to New York yesterday. Hildebrandt captured him a trap over the hedges. Tending & an meadow beyond. Called on our new neighbors the Fairchilds at 8.30 staying one hour.

Cambridge

Wea.

THUR. MARCH 5, 1908

Ther.

Clear, calm, warmer. The snow and ice melting rapidly and the streets and sidewalks covered in places with slush or water.

Spent day in Museum working on Umbagog notes. Gilbert went to Concord to help James clear one orchard of brown tail nests.

He was also instructed to direct Nathan where to put down cord that was to be hauled from Putnam place. Two Chickadees on the tree. Spent evening at Mrs. Scudder's.

Wea.

FRIDAY 6

Ther.

Cloudy & intensely chilly with S. wind. Snowing most of the afternoon but less than an inch had fallen by evening.

Spent day in Museum working on Umbagog notes, Gilbert helping me rather efficiently by feeding a lot of unfamiliar ones on large shoots. He also called upon Purser who came to say about some time work on the birds. I saw on birds in the garden from two Chickadees & a Brown Creeper. Called on the Chapmans this evening.

Cambridge - Boston.

Wea. SAT. MARCH 7, 1908 Ther.

Partly Cloudy in forenoon; afternoon sunny. Much warmer. Snow & ice melting fast.

To Boston at 9.30 a.m. Met John Thomas of Lynn in our office. He has applied for the position of gardener on our place. I liked him.

Forbes met me at 10.30 at an office to talk over game legislation. I called on Jeffries' office but he had just gone. Got out at 3.30 & went down below in Museum. Asked to dine with Meyer & Walter D. but declined. Bought some books in town.

Wea. SUNDAY 8 Ther.

Cloudy, calm, mild. Light rain at evening.

Spent forenoon in Museum writing letters. Then again from 4-5.30 P.M. Dined at The Scudders' at 1.30 with Mrs. Scudder, Mrs. Hunt, Mrs. Hillhouse and Miss Una Clark. The last named introduced me to her fiancé, Mr. Hunt, who came for her at 3.45. I took tea at The Cobbs' with Mrs. Cobb, Loring Tuller, Mrs. Moffatt & Austin Webb. Stayed until 9.30.

Cambridge.

Wea. MON. MARCH 9, 1908 Ther.

Cloudy calm, mild. The ground is over most of lawn & garden.

Spent day in Museum. A ♀ Canada Nuthatch, 3 Chickadees & a ♂ Downy visited the suit.

Gettard & I cleared out Walter's room, removing everything. Whitecomb's men are to begin laying an oak floor there to-morrow. I worked a little on Umbagog M.S. & wrote a few letters.

Dined at Baltholde's at 6.30 with Jeffries, Bangs, Bens, Swales, W. Deane & F. H. Allen. Council meeting afterwards lasting until 11. We met to read about M.S. Abstract of Proceedings prepared by Townsend & F. H. Allen.

Wea. TUESDAY 10 Ther.

12°

Clear & Cold with high N.W. wind, 26°

Spent day in Museum working on Umbagog M.S. Purdie called at 5 P.M. staying about an hour. I spent the evening at my boarding house playing several games of checkers with Mrs. Freeman and going to bed early.

Flicker: * on Buckingham St. 8.30.

Cambridge

Wea. WED. MARCH 11, 1908 Ther.

At day break this morning I heard
the love call of a Screech Owl
given four times sometimes near
the house.

Spent day in Museum working
on Chubb's introduction. He
called. Saw a Brown Creeper &
five Chickadees in the Garden.
Called on Margie Deane & on
the Coolidges this evening.

Wea. THURSDAY 12 Ther.

Clear, calm, still warmer. A
very springlike day
Spent day in Museum working
on Chubb's introduction. Getting
wrote to Concord to cut off branch
and nests at Concord. He sent
4 Blackbirds then. I saw 2
Song Sparrows in our garden.
About a dozen Brown creepers in
flower in front of the Museum.

Batchelder reports a Robin in yard
long at his place. I went in there at
8 P. M. To call on Frank & Mary & the Little boys

Cambridge - Boston - Concord.

Wea. FRI. MARCH 13, 1908 Ther.

Sunny but hazy, mild. 52°

Spent forenoon in Museum
writing letters. Batchy called.
To Mrs. Conner. Took at 2-30.
Saw Henshaw, Tabor & Bigelow.
Jeffries called with draft of petition
for amendment to Ditchers bill now
pending at State House. It is to better
provide for legating simplified collecting.
I walked back to my room at 4:45.

No birds in garden to-day.
Went to walk after dinner & to bed at 8:30

Wea. SATURDAY 14 Ther.

Clear, calm, very warm for season

To Museum at 8:30. John Brown
came at 9. To see me & the place.
Wrote Jeffries sent petition which I signed.
2 Song Sparrows in Garden. Flicker skinned
on Buckingham St. at dinner & several
other young birds calls & in other daybreak.
To Boston at 10:30. Spent two hours
at office. Saw Dr. Munkland there.

To Concord at 11:30 & back 4:30
at Concord. Saw and saw a Robin.
To Concord at 11:30. Saw and saw a Robin.
To Concord at 11:30. Saw and saw a Robin.

a robin calling in our garden as I was
wrote to Concord to cut off branch
and nests at Concord. He sent
4 Blackbirds then. I saw 2
Song Sparrows in our garden.
About a dozen Brown creepers in
flower in front of the Museum.

Concord - Cambridge

Wea. SUN. MARCH 15, 1908 Ther.

Partly Cloudy. Rain in late P.M. & Thunder shower at evening. Very warm with violent S.W. wind. When I awoke at day break Song Sparrows were singing all about the house. Heard Robin long later. Blackbirds calling but not singing. Went to Ball's Hill in forenoon. The river open but some fields of ice on mudflats. Country alive with Song Sparrows, Robins. Saw numbers of Red-wings & Pheasants & one Phoebe near the river. Sleaked a Partridge. Saw young song sparrows but none in the woods. Spent afternoon in house hanging pictures.

Wea. MONDAY 16 Ther.

Brilliantly clear with strong N.W. wind; much cooler. Groundfrozen at sunrise. Spent forenoon at farm. Pat. came down to talk over spring work. I saw & I put up some bird houses. Robins singing in early morn. Flock of about 12 juncos about the old barn. Drove to station at 12.40. The ice all gone from river meadows. Saw 2 Marsh Hens. Reached Cambridge at 2 P.M. Home to Museum & under letters. Pease & I were at work on birds.

Wea. TUES. MARCH 17, 1908 Ther.

Cloudy & intensely chilly. Snowing at P.M. about 2 inches on ground by night. Spent day in Museum working on Umbagog M.S. No callers save Carl Larsen who came at 5 P.M. I had a long talk with him & explained why I do not care to employ him again. John Thomas, too, is no longer to be considered for the Arctic work unfortunately of him. A Song Sparrow singing in garden. Dined at Mrs. Seidman's at 6.30 with the family, Miss Thompson & Sam Hurdson.

Wea. WEDNESDAY 18 Ther.

Stormy with rain, sleet & snow. Intensely chilly S.E. wind. Spent forenoon in Museum packing trunks & rearranging things. In Boston at 2 P.M. Called at Locomants to look at Oriental rug and met J.C. McLean at office. He consulted me about inscription on monument to his brother's memory. Called on Dimick but missed him. Got back at 5.46. Attended Council meeting N.O.C. at Roddy's 7.30-11 P.M.

Cambridge - Concord.

Wea. THUR. MARCH 19, 1908 Ther.

7°C noon. Windy. The noon sun very calm. much warmer.

Spent day in Concord, writing letters, packing, putting things in order for the move to Concord to Concord.

Song Sparrow & a Chickadee in the garden.

Called out to J. W. Higginson at 8 P.M. to Concord from Concord. The description on John Malouin memorial tablet. Called on Mrs. J. B. Flanagan at 8.45.

Wea. FRIDAY 20 Ther.

Sunny but hazy. Cold with harsh N. W. wind.

Gilbert & I went to Concord with "Bobby" by 9.04 train from W. Cambridge.

Found out as at Concord.

We landed in Concord about 11. The roads in bad condition, salted & frozen. Pat walked in wood shed old P.M. I took two short walks. Walter Forbes called.

Also Henry Richardson, Song Sparrow, Titmouse & Golden-crowned Kinglet.

Concord.

Wea. SAT. MARCH 21, 1908 Ther. 10°

Brilliantly clear with little or no wind. Warm at noon when I saw Honey Bees flying about our window.

Spent day on farm. H. P. Richardson came with her men to clear out cellar & of gyp & from last week.

Pat & Borden handling wood & kitchen place. I went to see my old horse & also from last week.

Called to Holden's on way. Ponderous on 7 to 10. Saw pair Bluebirds & 2 Song Sparrows.

Wea. SUNDAY 22 Ther. 20°

Sunny but hazy. Cold with S. W. wind. Ground hard & frozen on farm, day with much snow.

Pardie & I walked to Ball's & Darts Hill in forenoon. Saw a Marsh Hawk & a flock of 50-60 Red wings in Concord place.

Started a new farm on Pine Ridge a pair of Wood Ducks seen & shot at N. end of Hill. Heard 1 Song Sparrow & 1 Titmouse. Pardie & I spent evening in garden talking over old times.

Concord - Boston.

Wea. MON. MARCH 23, 1908 Ther.

Cloudy with light rain in P.M.
Very mild. Wind S.W. Frost nearly
gone from roads. Fields brown & bare.
Big flight of Robins & Song Sparrows.
Purdie, Gilbert & I went to Boston
by 8.09 train returning by 1.51 train.
At our office I saw Henry Hurdson,
Miss Magath & Harry Cunningham.
Harry & I called on Mr. Bennett to
discuss the Shaw Trust matter. Henry
& I saw Dr. Drake in his office. The
two Hurdsons (Purdie & Hurdson) arrived
with us at Long's.

Wea. TUESDAY 24 Ther.

Clear & mild with fresh W. wind
Spent day with James cutting
off brown tail mole from apple trees
on farm & Rethin place. Took short
walk with Leach after breakfast.
He has bad cold & spent most of
day in house. At evening I took
a walk alone through Am. Botany Postman
& down Benson's Lane. Relatively quiet
in Rethin place. In poplars, with first
flocks of Fox Sparrows singing this evening.
Lots of Song Sparrows & flight of juncos
about air.

Concord.

Wea. WED. MARCH 25, 1908 Ther.

Clear & cold with strong N.W. 22°
wind. Those who went out 38°
described ... weather as "wintryish".
I stayed in the house all day,
having a lame back apparently due
at least in part to an acute
attack of rheumatism. Purdie has
a bad cold but he went to Birch St.
Swamp in P.M. seeing no birds.
I wrote Gilbert, changed our desks etc.
I had arranged to go to the train
dinner at Joe Goodale's & was very late to do so.

Wea. THURSDAY 26 Ther.

Partly cloudy. Violent S.W. wind 22°
Early morning cold. Most of day warm 46°
Sat by the fire until 10.30 when I
got Pat & began making a clearing in
the Barrett Run on west side of road
to Rethin place. In the afternoon, James
helped & the work was finished
by 4.30. I took little part in it for
my back is still very lame. Purdie
used up his. He stayed in house most
of day but took short walk with me in
a.m. At sunset we went to the poplars
in Birch field but found no Partridges there.

Concord. Mass.

Wea.

FRI. MARCH 27, 1908

Ther.

70° max

Sunny most of day; calm, m. warm
 Purdee, Gilbert & I took 8.09
 train from Concord to Arlington.
 Gilbert & I spent about an hour
 at Museum. 4 Fox Sparrows, a Song
 Sparrow, a Tree Sparrow & 2 Robins in
 New Tower Room too fast & I missed.
 Peewee has finished potting garden.
 Went in town at 11.30. Mackintosh
 & I visited Saffery barrels. Saw Harry C.
 near. Gilbert & I returned to Concord
 by 1.57 train. Walked through Perry
 pasture on way. Lots of birds about.
 Wea. SATURDAY 28 Ther.

Forenoon cloudy, light rain at noon;
 afternoon sunny. Very warm all day.
 Spent forenoon with Pat clearing
 up & burning brush along new road
 south of peach orchard. Worked
 near house after dinner. At 4 P.M.
 went to Swamp below orchard. One
 Hyla peeping feebly & hundreds of
 Wood Frogs croaking & at this a chorus
 in pond more than half covered with
 ice. First Tree Swallow. A Phoebe
 singing near house 2 P.M. Fox Sparrows
 in field song 10 A.M.

Arrival - Tree Swallow.

Concord

Wea.

SUN. MARCH 29, 1908

Ther.

Cloudy with N.E. wind and light,
 steady rain from 9 A.M. to 3 P.M.

Sam. Henshaw & his friends Mr. & Mrs.
 Thomas Barbour came last evening to
 spend Sunday here. We started for a
 walk after breakfast but were driven
 back by the rain & part of morning in
 the parlor. At 3.30 P.M. we
 started out again & walked to Ball's Hill
 where we spent an hour by an open fire
 in the old cabin. Visited Davis Hill on
 way back. Full chorus of Hylas in Davis
 Swamp at 5 P.M.

Wea.

MONDAY 30

Ther.

Brimingly clear with strong N.W.
 wind & cold. Ground frozen at dinner.
 Henshaw & the Barbours left me.
 This morning, I spent the whole
 day working with Pat on the
 new road near the peach orchard.
 We cut down & burnt a lot of brush.
 Wood Frogs croaking nearly all day
 & many Hylas peeping at sunset.
 Heard a Dove cooing for first time
 this morning in woods W. of our
 Pease Pasture.

Arrival - Tree Swallow.

Conecord.

Wea.

TUES. MARCH 31, 1908

Ther.

Cloudy & Cool with strong S.W. wind.

Spent day working with Pat among the cedars at the foot of our lane. We cut out

and a great number of young pines. Larry drew a large

Woodchuck into a wall & with a little assistance from Pat & me dragged a one & killed it.

A flock of about 60 juncos & 4 Fox Sparrows about house. Saw a S. Cooper's Hawk. Walked to South Field at evening.

Wea.

WED. APRIL 1

Ther.

Brilliantly clear with warm sun but cold N.E. wind.

Working with Pat & Elmer all day at the foot of our lane. James pruned the peach & plum trees.

Only a very few birds about & but little song except from the Bluebirds which were singing more freely about ten o'clock than I have heard them before this year.

I walked through the Berry Patch at evening. C. started for Ford on horse this morning I suppose.

Conecord.

Wea.

THUR. APRIL 2, 1908

Ther.

Forenoon cloudy; afternoon clear. Ground snow covered to depth of 2 inches early this morning & white in places at evening.

Spent day in house writing letters & making out checks for bills.

4 Fox Sparrows & a dozen or more juncos with 2 or 3 Song Sparrows & Chickadees were under the dining room windows most of the day picking up hemp seed.

I walked at evening to Birch & Green Fields with Larry. Saw a few Robins. James went to W. Newton to look at a horse.

Wea.

FRIDAY 3

Ther.

24°

Clear & cold with high N.W. wind. Ground frozen hard at 8 a.m.

Spent day working with Pat & Elmer. In the forenoon we walked on the road through the cedars to the peach orchard.

In the afternoon we cut out a new road on south side of Barnard Run. Richardson called.

24 juncos & 7 Fox Sparrows feeding on seed put out under dining room windows. 28 Robins eating barberries in front of house at dinner.

Concord.

Wea.

SAT. APRIL 4, 1908

Ther.

16° min

Brilliantly Clear with raging 34° max
N.W. winter. Bitter cold

Spent day working w. James,
Pat, Elmer, Benson & Peter in
the woods at N.E. corner Melrose place.
Although sheltered & during the day it
was as cold as an average January
day. I wore a sweater & an overcoat &
kept in constant exercise yet was chilly
at times. The only bird heard singing
was a first sparrow. Larry started a
Woodcock near me in the Rabbit den.
& a Rabbit that ran against my leg as
I walked.

Wea.

SUNDAY 5

Ther.

16°
46°

Forenoon clear & calm. Afternoon
cloudy with fresh S.W. wind. Warm.

Called on Mr. Howe after breakfast.
His daughter was thrown from
their buggy on Thursday but was much better.

Next went over the land where Albert
Barnum's pine woods & Everett Mason's
big chestnuts stand. The trees have all
been cut since last summer & the ground
is littered with pine branches. Mr. Jewett of
Newton brought up his boy horse Duke for
us to try driving about 11.

I spent afternoon in woods near
Patriot Rock. Fine water holes there & much to be

Concord.

Wea.

MON. APRIL 6, 1908

Ther.

Cloudless with fresh W. wind. Warm.

A delightful spring day, keenly enjoyed.

Spent day at Bass Hill. Richardson
there with six men fighting brown ants.

They cleared the oaks near the cabins.

Pat with me all day cutting & burning
leaves. James & Elmer there all A.M.

with the new horse hauling wood.

Two Red-bellied Geese calling, (2 Black Ducks

flying about, (2 Red-throated Hawks soaring &

searching. Flock of 50+ Fox Sparrows along

river path. Walked back at 4 P.M. over
Hobbs Hill.

Wea.

TUESDAY 7

Ther.

Chiefly cloudy with light W. wind.

Very warm.

Spent most of day working in

the lane with Pat & Elmer planting

various bushes, Elder & hawthorn.

I tried the horse "Duke" in a buggy

just after dinner. He started off

lame. Gilbert then drove him

around & back. I walked to

Bass Hill & back. A lot of evening

to good many birds about the farm.

First meeting day. Went to Frys & Frys
in field day. Heard a Meadowlark

Fine weather. They say it is the best of the year.

A fine day with a light wind.

Concord

Wea.

WED. APRIL 8, 1908

Ther.

Cloudy with inter. chilly N.E. wind and light rain in P.M.

Spent forenoon transplanting barberry bushes from Ricketts place to new road below peach orchard, Pat & Elmer doing most of the work. Wrote letters in afternoon, Hopkins the mason working all day on cistern & cementing it. Sent the horse "Duke" to Mr. Maness at 4.30. The Bedford Veterinary examined it this morning & says it has a bad case of "dropped sole". Haven't been declared to buy it. Telegram from

Wea.

THURSDAY 9

Ther.

40 may.

Brilliantly clear with violent, cold N.W. wind.

Spent entire day working on new wood road from Ricketts place through Bannett woods to the spring. Pat and Emil helped me. James worked in P.M. We had lunch nearly at the spring. The road follows an ancient cart path. Nearly the whole way. No birds singing even in early morning. Telegram from C. to say berry is better

Concord, Cambridge, Boston

Wea.

FRI. APRIL 10, 1908

Ther.

Forenoon clear with light N. wind. Afternoon cloudy with strong S.W. wind. Light rain at evening. Warmer to-day. Arrived. Field Sparrow 1. Spent day working with the men. We transplanted cedars, ground junipers & two large black spruces which have been in the nursery since 1892. We also rearranged things in the barn & clover. Bensen & his men worked on the stone wall along the road. Telegram from C. in P.M. Woodcock keeping in berry pasture on eve.

Wea.

SATURDAY 11

Ther.

Forenoon cloudy calm mild with light showers. Afternoon clear & cooler with a gale of wind from N.W.

To Cambridge with Gilbert by 8.09 train from Concord. Spent an hour at the Museum. Saw Talcott & H. H. H. The new town room finished & out. Wonderful show of squirrels, owls etc. in front of Museum. To Boston at 10.30. Signed quarterly ledger & talked with Christian White about taking Ricketts house again. To W.O.C. Council Meeting at Boston at 3 P.M. Took 6.05 train Arlington to Concord.

record

Wea.

SUN. APRIL 12, 1908

Ther.

Clear & Cold with the N.W. wind blowing a driving gale from sunrise to dark completely silencing the birds I did not hear one sing although the sun shone brightly all day.

Went to Balls Hill in forenoon, Pennell's Place & Davis Hill looking over Beacon. Saw a Ruby Crown Kinglet & heard a Kingfisher, both "arrivals".

Wrote letters in P.M. Walked about in the forest after sunset wearing sweater & umbrella overcoat. Hylas peeping frequently despite cold. Red maple in full bloom.

Wea.

MONDAY 13

Ther.

Partly cloudy with strong cold N.W. wind. Snowing thick & fast for an hour in forenoon.

Spent entire day transplanting Cedar and Rhodora. The latter I put about 1000 feet. Pat alone worked with me. He is in high spirits & most amusing this spring. Saw very few birds. A Flicker on Robin, a Song Sparrow, a Fox Sparrow & a Grass Finch sang in early morning. No singing through the day or at evening.

Concord, Cambridge, Boston.

Wea.

TUES. APRIL 14, 1908

Ther.

23° min

Clear & Cool with light S.W. wind. Gilbert & I took 8.09 train from Concord. Spent forenoon in the Museum & garden. Wonderful display of squills from Museum. 2 Robins & 1 Goldfinch in garden. Dined with Mrs. Allen, Mary & Betty at 1.30.

Went in town for 2 h. Spent about 2 hours at one of the dinner at Abolitionist's Club. To Huntington Av. station at 8.30. to meet C. & S. A.S. who arrived in train by Chicago line in C. and is stopped with her.

Wea.

WEDNESDAY 15

Ther.

Cloudy & mild with rain in P.M.

Had tickets bought & other arrangements made to go to Washington by Co. exp. Went to Back Bay Station to catch this train but got in up at last moment because I could not find the ticket. Went to office 1/2 hour at 8.30. I was there, sending letters & signs to the W. to explain how of course there is much to be done. I am at the office with C. at Abolitionist's Club. I am at the office with C. at Abolitionist's Club. I am at the office with C. at Abolitionist's Club.

Cloudy, with strong S. W. wind and
much lighter rain at evening. Much warmer
than yesterday. Came at 8.20 & found
plans for a Bath soon in relation to
it & we all went to Bath. But for
a long time. James & Emily stayed up
& the other three. We examined the
wall, dug & found last autumn's ground
level. It was by a in the S. W. corner.
Found the tracks of a fox in the S. W. corner
the 2. In the S. W. corner of the S. W. corner
passing them within 40-50. A small flock
of Hares on Bath side.

Wea. SUNDAY 19 Ther.

SUNDAY 19

Ther.

Partly cloudy with fresh N.W. wind
 & a few light showers. Cold & dry.
 Spent most of forenoon in house
 doing up my stock of clothing &
 packing up a lot of things for the
 supplies for the winter here.
 Mr. & Mrs. Deaneh visited &
 staying about an hour.
 Wrote letters after dinner & took a
 long walk in the woods, in afternoon
 cold. Saw my first birds. 2 crows
 sang feebly in evening. March snowed
 heavily in afternoon & one found

Wea.

MON. APRIL 20, 1908

Ther.

Early morning sunny & calm. Rest
of day cloudy & bitterly cold with
blowing N.W. wind. Temperature - snow & sleet.

Worked with Pat all day,
about the white flower garden
& the pond in forenoon, in
Back Field in afternoon. He
raked lawn, picked up dead
leaves & tied up generally
besides planting a few things.
Saw few birds & then mostly
of it & a. m.

Wea.

TUESDAY 21

Ther.

150 4000

Clear & cold with raging N. W. wind.
Ground hard frozen & ponds all around con-

Spent day at Ball's Hill. James
& I have finished painting cabin roof.
Port & I walked, out South & transferred
a few laurels. The wind testified at
times & the trees covered with white caps.
I saw a great many seeds in hollowed
places, but heard only two - a song
of a dove & a noisy - canon - bird. It
is strange, though to hear in woods
to call & catch words & words of birds &
the wind & the trees & the water.

30.

554

Clear with strong W. wind
much warmer.

Spent the forenoon working in the
lawn and new wood shed with Pat.
We did a variety of things, grading
sodding, sifting earth for flower beds etc.
A Partridge drumming near us for hours
- on the wall in the Ball's Room.

At evening I strolled through
Bush T. etc. A Bunsen which I say
a log of Pinus resinosa & I have known.
A Robert in full song at Bunsen. Heard
nothing else.

Wea.

THURSDAY 23

Ther.

Sunny & hot with S. W. wind 80° at 2 P.M.
Thunder showers in afternoon at evening -

Spent day with Pat checking the up
about the pond. Lots of fish rising &
one a young shiner, lying dead on shore.
Saw a hawk swimming in the pond.
Birds singing freely. Noted for first time
3 White-throated Sparrows, a Chipping, a
Purple Finch, a Broad-wing Hawk, a Red-
winged Blackbird, The last heard fly in over the lake at
5 P.M. A little earlier heard two
Pine Siskins & a pair of Cherry Robins
for the first time in season. Found Pond birds.

Iron ...

Wea. FRI. APRIL 24, 1908 Ther.

Cloudless with cool E. wind.
 Arrivals, Black-throated Green W., 1x;
 Solitary Vireo 1x; Paw-swoth, 4; Towhee,
 15, Sapsucker, 1; Bullfinch 1x.
 Spent most of day at pond working
 with Pat. Heard 3 others in vicinity
 of the cabin this or 4. 10 & heard them
 feeding the hen house had been destroyed
 but the 1 of eggs on the nest. Visited cabin
 & spent half an hour in Pine Park. Lots
 of woodpeckers there. Walter Forbes came
 down to see me in forenoon.
 Blood root in full bloom on farm.

Wea. SATURDAY 25 Ther.

Cloudy with soft, moist S.W. wind.
 A little sunshine in P.M.
 Spent day transplanting hennipeds
 & mountain laurels, chiefly to the border
 of the new roadway behind the school.
 Saw a good many birds. A woodcock
 Brown thrasher, 1 yellow throat & white
 throat warbler 1x. Banister hum. 8 or 10.
 Black & white creepers 1x " " 10 or
 House Sparrows roosting on the chimney.
 I saw that from the top of the hill, and as
 soon as the sun was up

Wea. SUN. APRIL 26, 1908 Ther.

Cloudless with fresh W. wind. Hot. 85° max
 Mr. Severett & Will & Alice Stone
 came from Boston by the morning train.
 We left the farm at 11 and walked to
 Balls Hill where we dined in the
 cabin. Walked back via Holden Hill.
 Then went to the Spring & Birch Field
 where we spent an hour or more.
 After supper went to the pond where we
 saw dozens of glow worms. Lots of
 Hylas eating a great number.
 No fresh arrivals noted to-day. Birds seem

Wea. MONDAY 27 Ther.

Sunny & warm with light S.E. wind.
 Mrs. Stone & her daughter left by
 the morning train. Will & Alice stayed
 in day. We spent an hour at the
 pond walking. Lots of woodpeckers
 there. It was very interesting.
 Saw lots of people on the hill in
 the afternoon. Saw many
 house wrens. After dinner went to
 the pond & the field behind the house.
 I lay off on the grass. Saw a lot of
 birds. Hylas & woodpeckers
 were very busy.

Concord - Cambridge

Wea. TUES. APRIL 28, 1908 Ther.

Cloudy with light E. wind. Mild - Showers 'at night'.

Spent forenoon transcribing things and discussing them. California notes; working alone, as Pat has been absent too long. In afternoon put in a bit of time at hand of lawn, James - small doing most of the work. Birds: - Chestnut - 1, Red Winged Blackbird 2, Purple Martin 1, Sparrow 1, 2. Spotted Sandpiper 1 at the pond.

Wea. WEDNESDAY 29 Ther.

Clear & warm with light W. wind.

Pat & I came to Cambridge by 8.09 train. I spent day at Museum, working on Dunster Cafe with C. At 6 P. M. called on Mr. Blackwell & then Woodin. At 7 I was at Woodin's. The W. L. in hand there & in p.m. present except Blackwell who is ill. We celebrated Mother's 60th birthday with cake & candles, gifts & flowers by hand. Spent night at the Alway.

Wea. THUR. APRIL 30, 1908 Ther.

Heavy rain 9 P. M. to midnight & later. Sunny with clouds gathering. 1 P. M. Warm with light E. wind. 2 Chipping Swifts at Ball's Hill. 5-11 the first noted by me this year.

Spent forenoon at Museum. Walter spent an hour there looking up references. Salvation Army agent called to collect money for building. I subscribed \$1.00.

Lunched at Dunster Cafe & took 2.08 train to W. Bedford. Father found me across the river to be at a cabin for a few days. I walked to farm at 2.30 & talked with C. on edge of river. She is still at the Abbottsford.

Wea. FRI. MAY 1 Ther.

Clear with violent W. wind. Very cool at evening.

Arrival Wilsons Thrush 1, Ball's Hill Sw.

Pat has been absent since Saturday. He appeared at cabin this morning looking ill & complaining of a lame back. I rowed him across the river & walked up the track with him nearly to Cemetery Brook to get a lot of fossils & bird foot prints. Took them to farm in P. M. & planted them along the new road. Birds silent & seemingly dead. The harsh wind drove them to cover by daylight.

First I shall bush blossoms.

Concord - Boston.

Wea.

SAT. MAY 2, 1908

Ther.
32°

Forenoon cold with high, harsh W. wind
Then succession thunder showers between noon
& 2 P.M. after that warmer weather with
sunshine. Spent forenoon at Ball's Hill.
Worked at various small tasks. Day too hot
outside & took them to farm after dinner
planting corn by pond. The Austin Whites
came at 3.40 & took over Ruthin place.
I drove them back to Concord & walked back
4.20 train for Boston. & spent night
at Abbotford. Robin singing in parkway
in front of house.

Wea.

SUNDAY 3

Ther.
32°
at Concord.

Cloudy & cold, with strong E and N.W.
wind & occasional brief showers.
C. & I went to Trinity Church at
10.30. After service called on Jones.
Pardon dropped in when we were there
thence to Hotel Victoria where C.
& I had dinner.
Spent afternoon at Abbot. Club. At
5 o'clock saw Houdini do wonderful things
in the club gymnasium. It was crowded.
Saw next 7 o'clock training. Met C. at dinner
at 6. We dined there. Spent evening in
his room at Abbotford.

Boston - Concord

Wea.

MON. MAY 4, 1908

Ther.
32° at Concord.

Sunny most of day. Warm with light W. wind
Breakfast at Abbotford. Took 8.51
train to W. Bedford. Put suit in & changed
my dress suit. Changed clothes & went back
to get from Velocia (Coca-Cola) 11 jars &
Gillies came with the green fish & we
dinner to the farm. Worked on Pond
until 3.30 when Will Stann & W.A.
Purdie arrived to spend the week
with me. We walked to Birch Field
for supper. I observed 3 goldfinch
caught in Boston in one little pond.

Wea.

TUESDAY 5

Ther.
36°

Brilliantly clear with light N. wind.
Purdie, Stann & I were out all the
forenoon, working to Ball's Hill via
Holden's Hill & returning over Davis Hill.
Birds started about 9 am. Heard first Yellow Warbler in form
Shore Sparrow in form & over the
Ruthin place, both females. Heard
Barn Swallow in first song on Davis Hill.
Spent P.M. working letters. Jim Melton
came at 3.30 & stayed over here.
Purdie, Stann & I went to Bay Path
just before & just after supper.

Concord.

Wea.

WED. MAY 6, 1908

Ther.

Morning Sunny; afternoon cloudy.
Cool with fresh E. wind.

Will Stone & I went to Ball's Hill
this morning via Holderness Hill returning
the same way. Saw very few birds.
Caught ten larks in Harris' meadow
& I broiled them on our fire.

Purdie & Stone took a drive after
dinner. Later I went with them
up the Bigelow road. Its beauty is
entirely ruined.

6 Bats in shed to-day. Shed both full of them.

Wea.

THURSDAY 7

Ther.

Cloudy & cold with strong N.E. wind.
Raining steadily from 2 P.M. into
the night.

Spent forenoon cutting out young
birds among red pines at Belbin place.

Cut three large bushes for boxes.

Purdie & Stone drove Betty to Corbin
to 6 Road. At 1.30 we then started
to walk to Ball's Hill. It began

raining by the time we reached Holderness
Hill & on several occasions I saw almost
no birds to-day & heard very few.
One in a long time.

Concord.

Wea.

FRI. MAY 8, 1908

Ther.

Cloudy with light N.E. wind.
A little misty 2 am. The rain last night
was very heavy & the brooks are swollen
by this day.

Will Stone & I walked about in farm
this forenoon harvesting Calyptropis nests.

We started a Whippoorwill in freedom just
before dark and saw 3 Black Ducks
flying over Puffin Pond. Later we drove
to Ball's Hill, Purdie & I went to
the Hill via Holderness Hill returning

via Holderness. Many of the birds are
now in the air.

Wea.

SATURDAY 9

Ther.

Clearing with frequent showers. Wind N.
rather cool.

First Nashville Warbler 3.

Will Stone & Purdie returned to
Boston this morning. I spent
forenoon in the farm transplanting a
few things & shooting a House Sparrow.
Haven't been in P.M.

Mr. & Mrs. C. F. Batchelder &
Will Jeffers came at evening to
spend Sunday.

Concord - Cambridge

Wea.

SUN. MAY 10, 1908

Ther.

Cloudy with occasional sun
 & many light showers. Strong cold
 N. W. wind.

The Baldwins, Will Jaffins & I
 spent forenoon in woods. Walking
 in direction of Bore Hill which we
 reached about noon. We dined at
 cabin & came back via Holden Hill
 at 4.30 P. M. Mr. & Mrs. E. Eversham
 called & we all had afternoon tea
 together in parlour & front room.
 Heard Wood Thrush & farm, Maryland
 Yellow-throat & Bore Hill.

Wea.

MONDAY 11

Ther.

75° max.

Clear & warm with light W. wind
 Arrived Bal. Creek 8.30. Baldwins & I
 The Baldwins, Will Jaffins & I left our
 farm on 7.45 and drove to Concord.
 I took train 8.09 am for Cambridge
 where I spent the day in Museum
 & garden. Arrived about 4.30 &
 repriming of Redstart Am. heron &
 interceded this afternoon for the place
 of garden. Between second way passed
 a Yellow Warbler, a Chaffin, 2 Robins,
 a Grackle, a 9 Yellow & 100 in garden.
 Went to Baldwins at 6 & spent night at.

Cambridge - Boston - Concord.

Wea.

 Swift 1 (3). Whole place alive with birds.
 Spent night at Baldwins. Walked up at 9 & spent
 forenoon at home. To Boston at 12.30. Breakfast
 with C. at Delft room. Afterwards fed birds in
 Peter's Garden. Left at 3 P. M. Concord Am.
 Took 4.31 train to W. Red. & spent night at
 Concord.

Wea.

WEDNESDAY 13

Ther.

Clear & warm. Fresh W. wind changing to E.
 in afternoon.

Arrived L. Montross 2 8 8 D. discolor 1. (form)
 V. olivaceus 2. V. flammula 2. P. orange 2 8 8,
 R. br. Grosbeak 3 8 8 1 p, Yellow bird Conkors 1,
 Black-throated Green 1 (Dale Hill), Crested
 Flycatcher 1 (form) / 1 Pin Ridge.
 Walked up farm at 8 a.m. & spent forenoon
 there. At Bald Hill through afternoon.
 Plenty of birds but they were scattered
 about. Good singing all day.

Concord.

Wea.

THUR. MAY 14, 1908

Ther.

North east storm with heavy rain in A.M. P.M. calm with bright sunshine after 4 o'clock.

Went to farm after breakfast & dinner there. Spent forenoon clearing out the box shed on old barn & rearranging the things stored there. Will Stone arrived at 3.30. We went to cabin for the night. Packed up river at 3 P.M. Lots of Swallows, Humming birds. Dr. Chamberlain called when we were gone. Saw a Kitti wren 20 yards of cabin just after 4 P.M. Wood Thrush singing near cabin at 4.15. Suck

Wea.

FRIDAY 15

Ther.

Cloudy most of day with light easterly winds. Cool. Calm at sunset. Arrived Canadian Harbor 2 P.M.

Will Stone & I walked to Holden's Hill & Davis Hill after breakfast.

We went to the farm in the afternoon. Birds mostly numerous but scattered. A Wood Thrush singing near cabin, a Brown Owl on

Lewis Hill. Mr. Clinton, a friend of Robert Gray's, called at 3 P.M. He collected a lot of Brown & Green for Houghton to collect.

Concord.

Wea.

SAT. MAY 16, 1908

Ther.

Brilliantly clear. Forenoon dead calm. S.E. changing to S.W. wind in afternoon.

Had five men working all day on well house near cabin. They carried up the rods & worked the day, being the day.

I got a short walk with Will Stone after breakfast. He departed at 3 P.M. Then ladies, school teachers from Cambridge landed at noon & lunched in the woods.

I walked to farm after dinner. Apple trees full in bloom but past their prime. Only a few nigamids about & nothing very early.

Wea.

SUNDAY 17

Ther.

Clear & warm with light S.W. wind. Arrived Bicknell's Thrush 1 B.H. (No other northern migrants seen to-day).

Spent forenoon at Ball's Hill. Paul came down & I laid out some work for him.

Mrs. & Mrs. Austin White & Mr. & Mrs. Charles K. Lamb arrived at 12.30 & dined at the cabin. I went to farm & Pickin place to look them over after dinner. It was heavenly there with the apple trees in full bloom.

Walked back alone about 6 O'clock through a world of beauty.

Concord, Cambridge - Boston - Concord

Wea.

MON. MAY 18, 1908

Ther.

Clear & warm with light S. E. wind.
Gilbert & I took 8.13 train to
Boston, I to Cambridge. I spent
forenoon at Museum where I met
James Mc. Millan by appointment
& engaged him to work for us to
begin June 1. Went in town at 12.15
called for C. at Abbottsford & lunch
with her at 1.45. Went to
bank after 3 & sent Matthews &
Lloyd on Estate account. Met Parker
on State St. Returned to Cambridge 4.37
Walked to Holliston Hill after supper.

Wea.

TUESDAY 19

Ther.

Clear & warm with fresh S. W. wind.
No migrants noted. The flight seems
now yet no Black-poll has passed as yet.
Scudus bladders in bloom on Ball's Hill.
Apple blossoms falling.

Spent day at Ball's Hill. James,
George & Pat worked at the new well
house cementing the walls & then I am
well & cementing the floor. It was a
good days work finished at 4.30

I walked to farm after supper. Wood
Thrush singing in Rosehedge during the day.
Scrub Owl working in elm near house.

Concord

Wea.

WED. MAY 20, 1908

Ther.

Cloudy & oppressively sultry with light
easterly winds.
Arrived Wood Peewee 1/2 Davis Hill
Black poll W. 1/2 The farm.

Spent forenoon with Pat working in
woods behind Ball's Hill. Went to Davis
Hill to get the Brown Anger out on the
big farm with a pole but no bird came out
& I could find none in the woods there.
Fished for an hour collecting on fresh.
We went to the farm in P.M. looking
up a Beech corner by Gilbert. Birds
sang most all day.

Wea.

THURSDAY 21

Ther.

Forenoon sunny & hot. Afternoon
cloudy with fine rain after 3.30. Light
& steady winds.
Spent day working in flower garden
with Pat & George. It had not been
touched before this year & was very
weedy & shabby looking. Mr. & Mrs.
Melton called at 3 P.M. with two
friends. They had their automobile.
Walton Forbes came at 5 P.M. & we
took a walk in the woods. Heard a
Throat Lark in Barrett run many times
an ahod-ah any like human voice.

Concord.

Wea.

FRI. MAY 22, 1908

Ther.

Cloudy with light - coolish winds & some fine mist-like rain. Birds sang gloriously all day long. They were very numerous about the farm house but I noted only one on my part, a Black jay. Spent most of day in flower garden working with Pat & George. Our looks were peculiarly furnished by my brother. Horner & Allen were with all day in the shop getting it ready for the winter to occupy. About 11:30 day as Cabins putting them in order. Five roses. Some of them in full bloom.

Wea.

SATURDAY 23

Ther.

Forenoon cloudy & misty. Afternoon clear. Heavy rain last night. Warm. Indigo Bird seen for first time. Spent most of day working the wild gardens with Pat & George. A young man named Sawyer from Concord drove into the road road to Rethers place & left his horse there. We put it in the barn.

Her loads in the water & walking a great racket this evening. I heard the quail like call from the forest and a Bull. Swan over.

Concord.

Wea.

SUN. MAY 24, 1908

Ther.

80°

Clear with light W. wind. Walked to Rethers place after breakfast & called on Mrs. White. After that wrote letters until 11:30 when the Melvins arrived in their automobile bringing their friend Mr. Downard. We dined together on Cabins. They took me to Walside Inn in P.M. On way back we saw five Foxes, an old she & four pups 1/2 grown, nosing about in meadow within 100 yds. of road by Pine Deer Corner. Got back at 5:30. Walked about farm till 6.

Wea.

MONDAY 25

Ther.

Clear with cool E. wind.

Black & Yellow Warb. 3 (2x) House Wren

Black. jay " 1x

To Birch Field and back up the run. Lost sight of Black jay. Birds numerous & singing well. Evidently a great migration wave around last night. Spent most of day working in the apple orchard with George. He preserved several grafted trees & destroyed a lot of cornfield nests.

Concord.

Wea.

TUES. MAY 26, 1908

Ther.

87°

Clear & warm with fresh S. W. wind.
A perfect May day.
Wrote Thrush the only northern migrator noted.
A long walk just after breakfast,
through Pleasanton pines, over Davis Hill,
around Ball's Hill & Holden's Hill
back by Ricketts place. Birds numerous
& singing freely.

Spent remainder of day working
with Pat in Bower's Run. He began
a ditch which I hope will drain
the swamp. Two Wood Thrushes singing there.

Wea.

WEDNESDAY 27

Ther.

Clear & warmer still with fresh W. wind.

No northern migrants noted.

Spent most of day with Pat
who worked on the new drainage
ditch in Bower's Run. At 11 I
went to Ball's Hill expecting to
meet Mr. Chilton, the brown tail
appears there but he did not come.

In the evening called at the
Flowers and on Mrs. White.
Mosquitoes very bad.

Concord.

Wea.

THUR. MAY 28, 1908

Ther.

Cloudy & cool with strong N. E.
wind and fine, mist-like rain at eve.
A large Gray-check Thrush seen & a
Black poll Thrush heard were the only
northern migrants noted by me to-day.
Spent entire day with Pat working
on the new drainage ditch in Bower's
Run. I am adding a ditch from the
two waterfalls to make it all drain.
Two Wood Thrushes singing all day.
Saw a Red Squirrel, try to rob a Yellow
throat. Vireo's nest in elm by barn but the
birds & I together drove him off.

Wea.

FRIDAY 29

Ther.

Forenoon cloudy; afternoon sunny.
Warmer with fresh S. W. wind.

Worked all day on the drainage
ditch in Bower's Run with Pat.
In afternoon James joined us &
we put in the day with & two dams
for waterfalls.

a Very damp & rainy all day.

The Red Squirrel appeared near an
old barn this morning. He was
evidently looking for nuts I shot him.
The Yellow-throat Vireo nest had the
bird on a nest this he was all right.

Concord.

Wea.

SAT. MAY 30, 1908

Ther.

Cloudy with N.E. wind and light rain after 12 M. Early morning frost. Afternoon cool. No migrants noted since May 28th. As it was Decoration Day my men did no serious work. James planted some dahlias & Montebellis for me just after breakfast. Later I called on the Whites & then with letters in the late afternoon walked to Birch Trench & Pleasant Hill. Several shows of lobes, Hyphs near Pulpit Rock. Lycopodium in nearly full bloom.

Wea.

SUNDAY 31

Ther.

Clear & warm with fresh W. wind. No northern birds since May 28.

Spent forenoon at farm. Pot came to be paid off & to see about some more wood work to be done after I can get I went about with James & called on things. In afternoon walked through the woods into Pleasant Hill to Davis Hill where the have been almost completely staffed by brown toads, to Ball's Hill where muskrats swarmed, to Holden's Hill & the green & fresh to Holden's Hill where I spent half an hour with the stone to see the muskrats.

Concord - Cambridge - Boston, Ipswich

Wea.

MON. JUNE 1, 1908

Ther.

Partly cloudy with brief showers. Cold. Gilbert & I, with Harry, left Concord by 8.09 train. I spent day at Museum. James Mr. Milton, the new gardener, was on hand & I spent some time explaining him on his duties. The garden is very beautiful with the irises & dahlias in flower. A Robin in full song, a Yellow Warbler singing at intervals, a Chipping sparrow, a Red-eyed Vireo, a Wooding Vireo heard towards Harvard Park, an Oriole & a Yellow-bellied Cuckoo were all heard. The clouds were speeded to clear.

Wea.

TUESDAY 2

Ther.

Clear & cool with light W. wind. Backlog
Robin 1%, Red-eye 1%, Yellow W. 1%, Se. C. 1%
Robin 1%, Yellow W. 1%, Red-eye 1%, Chipping 1%,
Indigo Bird 1%, Oriole 1%, Black bird 1%

Spent forenoon in Museum writing letters. Went in town at 12.30 lunch with C. at North Station. We took 1.40 train to Ipswich where we saw a Pomeranian puppy. & the fine old house built in 1632 near the station. Back to Boston at 7 & dinner with C. at the Bluey. Out to Cambridge for the night.

Cambridge - Boston.

Wea.

WED. JUNE 3, 1908

Ther.

Clear & cool with light N. wind.

Spent day at Museum packing at Mrs. Goodrich's. Moved my things into my old room there from Mrs. Batchelder's (where I have slept two nights) in late P.M. Walter Deen called on me at the Museum at 4 P.M. staying mostly at home. I spent the evening at the Russell where I saw Joe & his son Joe.

Wea.

THURSDAY 4

Ther.

Partly cloudy with frequent brief showers. Just pleasantly warm.

Am in. 8 Redstarts in full song and a Pair of Winter Wren calling, appeared in the Garden this evening.

Spent day at Museum & in Garden. Peter's son calling down two large dead trees in the jungle, a white oak and mulberry, planted by me in 1887. Went in town at 12.30 & lunched with C. at Deft's restaurant at 1. Came back to Museum at 2.

Cambridge, Acton - Boston - Cambridge

Wea.

FRI. JUNE 5, 1908

Ther.

Clear & cool with fresh N.E. wind.

To Concord Junction by 9 A.M. train. Drove thence to Weather's Mill to look at a bay horse for farm. Bought him for 265. of W.C. Robbins who is to deliver him in a few days. Returned to Boston by 12.23 train. Spent most of P.M. at our office. Dined at Athletic Club at 7. At 8 P.M. went to Farnsworth Century Rooms to attend meeting N.E. Bot Club. About 30 members present. Capital talk by Farnsworth. Got home to the Goodrichs at 12.

Wea.

SATURDAY 6

Ther.

Clear & cool with light easterly winds.

Spent day in Museum writing letters & checking for bills. Batchelder called at 9.30 and we spent an hour comparing his series of Hairy Woodpeckers from Newfoundland with specimens in my collection from other regions. It is evident that the Newfoundland bird is a good subspecies & he will describe it. C. came out at 2 P.M. & spent three hours in the house which she has not been before for many months. Her new house room & George's house are nearly finished & she is delighted with them.

Wea.

SUN. JUNE 7, 1908

Ther.

Cambridge - Bethel.

Wea.

TUES. JUNE 9, 1908

Ther.

93° max

Clear & intensely hot with light S. W. wind

Took 9 A. M. train, Boston & Lowell for Bethel. Our engine broke down at Biddeford where we were stalled for nearly two hours. Reached Portland at 2 & Bethel at 6 P. M. Got nothing to eat save a sandwich & bananas. The heat & dust were stifling. Dr. G. met me at station. I took a room at the hotel, but dined at the Temperance & Homecoming Union. Boardman, W. W. & Miss Luck were the only persons whom I had seen before.

Wea.

WEDNESDAY 10

Ther.

Sunny, & in afternoon & evening cool.

Spent evening at the G. M. G. had a book about birds in England in A. M. The doctor & I went to the field in P. M. & had a survey to keep the birds & record talk. Birds singing freely, with but only a common kind used in the song. In village near Crossbills & P. M. G. in blue finches as present & a town. Were in office orchard. Two whippoorwills singing at evening.

Wea.

MONDAY 8

Ther.

Clear & hot with light N. wind.

Spent day in Museum park & walking. A robin, a Red eye Vireo, a Yellow Warbler & a Chaffinch singing in garden. Yellow throat Vireo, very plenty. The call of a Kingfisher evidently flying over our place. At Mrs. Swales, on Biddeford St., I have only a Robin, a Yellow Warbler, a Chaffinch, a Red eye Vireo, no Grackles or Redstarts singing. One Jay. A Woodcock seen in Hobbs Park.

Bethel - Norway - Portland.

Wea.

THUR. JUNE 11, 1908

Ther.

68° may

Partly cloudy. Cool with fresh N. W. wind
Dr. Gearing, Dr. MacBumy, Mr. Boardman
& I took 8.45 train to Norway for a day
fishing. Dr. G. & I went out in the dory
boat with a Mr. Bicknell as guide.
We rounded up the lake about 3 miles.
We used the dory exclusively and fished
along the rocky shores. Over 100 Curlews
in all over 100 Black Brn. Kingfishers about 40
the best 3 lbs. My best was a 1/2 lb. Black
abundant & Lingcod fairly well. Saw a pair
of Ruddy Turnstones & heard a Tinn. Warbler. Many
other shore birds. Got back to

Wea.

FRIDAY 12

Ther.

Clear & cool with light W. wind.
Left Bethel at 8.45 with Mrs. Gearing.
On reaching Portland we went to the
Wafayette Hotel where I found C. who
had come on from Boston yesterday.
We read about 60 in afternoon.
After dinner she called on Mrs. Gearing.
Later in evening Dr. & Mrs. Gearing called
on all of us. Still later C. & I took a
walk about the city. Several Night Hawks
peeping over the hotel in twilight. They
must be breeding on the roof.

Portland.

Wea.

SAT. JUNE 13, 1908

Ther.

Cloudless with light S. E. wind. Warmer.
C. & I took a trip down the Bay in
forenoon by steamer leaving the wharf at
10.30 & returning to it about noon.
The boat touched at Emerald, Diamond,
Peaks & Long Island. Saw about a dozen
adult Herring Gulls & 2 Barn Swallows. Heard
a Yellow Warbler singing on one of the islands.
Dr. Gearing came from Bethel by the
evening train & spent most of afternoon with
C. Boardman also came, a pleasant fellow.
C. read to me in the evening.

Wea.

SUNDAY 14

Ther.

Cloudless but hazy. cool. Wind E.
C. went to early service at the Cathedral.
I waited for her outside & came back with her.
We breakfasted at 9. At 10.30 we went
to St. Stephens, the little Stone Church on
Congress St. where there was a beautiful simple
service, a lot of women & a few men.
After we got out we walked over to State St. to
the museum. On going the way. So my husband
this is the most beautiful city I ever saw.
At 4.30 P.M. we walked to Wilson's & returned
it was a very pleasant trip. We had a
good time. C. read to me in the evening.

Portland, Cambridge, Wolfeboro.

Wea.

MON. JUNE 15, 1908

Ther.

Partly Cloudy. Warm with light S. wind.
C. & I spent forenoon in the hotel here,
however, making a call on Miss Mc. Cobb.
We took the 12.20 train for Boston
reaching Cambridge at 4.30 and
going directly to 145-147 North St. where
we found E. R. S. The house was
in order & Mrs. Morgan, a Swiss
woman engaged as housekeeper with
our old servant Julia as maid & all went.
Thus we slept in our house again after
nearly two years absence.

Wea.

TUESDAY 16

Ther.

Heavy rain in early morning - Part of
day clear & cool with violent N. W. wind.
With Arthur Estabrook took 9 A. M. train
for Wiers. Carroll D. Wright joined us
at Nashua & John H. Bond at Wiers
where the teachers, D. S. & Mrs. Mansfield
joined us. They had had a rough trip
across the lake. It was a rather good
boat. Another meeting at Academy at
4.30, dinner at Hotel Jura at 6.30.
Graduation exercises at Wiers.
usual. Began meeting here at 8 P. M.
February 10-12 P. M.

Portland, Cambridge, Wolfeboro.

Wea.

WED. JUNE 17, 1908

Ther.

Clear & cool with fresh N. W. wind.
Took 8.30 A. M. train. Mr. Estabrook
went with me as far as Newton. I
went on to Harvard where I took the
car to Merimac, Charley Hayes met
me there & gave me a house in the
hotel. I then called on each of my
nieces & Sarah, William & Clara Gold
& last on Charley's wife. Rode to
Harvard by 2.55 Valley & to Boston by
3.58 train. Got to Cambridge about 5
& spent night in our house.

Wea.

THURSDAY 18

Ther.

Clear & warm with light S. W. wind.
Took 9.10 train to W. where
where we crossed the river and spent
our hour at Ball's Hall. It was very
beautiful about the Casino but only one
bird, a Red eye, was singing on the hill.
We then took the train to the
Hotel to where I spent about
most of P. M. Party of birds about
most of them singing freely. Fireworks
were set off at 6.30 & spent the night.
We had a walk before dark & after
that a long walk in the house.

Concord - Boston - Cambridge

Wea. FRI. JUNE 19, 1908 Ther.

86

Clear & very warm with light S. W. wind.
Spent day at farm. Sunday
came at 9 to see about work at
Kilbin house & to before our long.
Pax & Gray worked all day in the
house & garden. I rambled about
the place most time before going
to water to the bath with mother.
Kilbin looking down later. The house
about the house also with birds. Saw
a large yellow red Weasel in a stone
wall looking for food. Chaper the late night.

Wea. SATURDAY 20 Ther.

Clear & hot with fresh S. W. wind.
Gilbert & I left Concord by 8.09 train
& went to Boston where I called
at our office, at Obion & Russell to
arrange about reinsurance, at Safety
Trust with Macklin to cut off
7000 shares of common for Estor, at
Mellikin's to buy \$15.00 worth of bonds
to take to Glendale for L. on I went
to Cambridge at noon C. E. R. S.
& took lunch & tea on piazza. In evening
we called on Mrs. Lavery & Mrs. Scudamore.
I saw Mr. Abney also. Walter & I
Mrs. Russell then called on us at 6 P. M.

Cambridge - Glendale.

Wea. SUN. JUNE 21, 1908 Ther.

Clear & hot with light W. wind.
Spent forenoon in Museum writing
letters etc. Dined at the 'Hayes' at
1 P. M. with C. E. R. S., Mrs. Thayer,
Mrs. Howland, Miss Irwin & Gray Seniors.
Walked back at 2.30 to pack my
things for the boat to Glendale
to-morrow. Gilbert came up & helped
me. Saw a Kingbird bathing in the
Ross's fountain. Robins, Cuckoos,
a Red eye, a Yellow Warbler, a Chipping
& a Yellow Warbler singing in garden.

Wea. MONDAY 22 Ther.

Clear & hot with light S. W. wind.
Left Boston at 10.04 A. M. and reached
Glendale at 3.30 P. M. Boston & Albany R. R.
much improved in every way as compared
with last year. No one at station to meet
me so started to walk up but James soon
came in sight & pulled me up. On reaching
the Trembles found the whole family with
the Bushes dressing for a reception on the
lawn. About 40 people came, mostly
looking from Dedham or from there. The afternoon
was perfect & the day was made a pretty
light. The Garrison the evening, so saying here.

Glendale.

Wea.

TUES. JUNE 23, 1908

Ther.

Partly cloudy with light shower at 10 A.M.
Cooler with wind from S.E. Cloudy evening.

Spent entire day about the Frenches place. In forenoon went with Dan to his studio on the hillside above Spring. Where we found Huber at work on a statue of St. Francis. In afternoon Dan worked on a cement bench in woods behind his studio. A feast of birds song here from a Robin, Wood Thrush, Veery, Tanager, Wood Pewee etc. We sat on piazza through evening. Hosts of juncos on the night lounge - not even a Wren.

Wea.

WEDNESDAY 24

Ther.

90°

Forenoon sunny & intensely warm
Terrible thunder storm in afternoon lasting over two hours (3-5) with crashing rolleys of thunder & heavy rain. I do not recall ever witnessing so prolonged & violent a storm before.

Spent most of forenoon writing.
Dan began to work on his cement chest in the woods after lunch but he & I were soon driven in by the storm.
We remained in the studio during most of it. I saw Robin feeding on the lawn while it was heavily raining.

Glendale.

Wea.

THUR. JUNE 25, 1908

Ther.

Clear & cool with high N.W. wind.
Spent most of forenoon in the studio reading. Dan departed for Worcester (to see the Hoar strain mould) just after lunch. I worked for a couple of hours with Tom Knight chipping away on the cedar horse. After that I walked to Mc. Intosh's place. On the way back visited Dan's pine woods across the road. As usual there were many birds there. Miss Bingen's Field Talk to us.

Wea.

FRIDAY 26

Ther.

Brilliantly clear with light N. wind.
Cool though day & very cool at evening.
Spent most of forenoon in the scene woods across the road. Sat under a tree for a couple of hours writing.
In afternoon walked to Hager's Pond. It has not been much injured as yet by the woodchuck. It seemed fairly clear today with Painted Quail on logs & swimming about. Started two birds of young Partridge or big as Pigeons. They were less than 50 yards apart. I went on walking & saw a Robin early. I am relieved at 10-30 P.

Glandale - Cambridge

Wea.

SAT. JUNE 27, 1908

Ther.

Brilliantly clear with light W. wind.

I have worked all day on the seat in the woods by the big maple. I was with him, part of forenoon & also in Studio Easting. In P. M. took a solitary walk to & through Mr. Bowker's woods. Two Wood Thrushes - two Blackburnians singing there. Newton Mackintosh opened his house to-day & dined with us this evening. I have been having trouble of a neuralgia or rheumatic kind with my left leg these last three days. The pain is increasing this evening.

Wea.

SUNDAY 28

Ther.

Heavy Thunder. Showers 8-9 P.M.

860

Clear with light S.W. wind. Warm
My leg pained me intensely all last night: I
got no sleep whatever until after sunrise this
morning when I beat off 2 fine birds sitting
in a tree in the park. I had dressed
a chair hair this. The lawn was cool &
unusually tranquil. Then came on an
evening very warm. Dan & I spent some
in tidies arranging some tools & brought him.
Miss Barton joined us & played the piano.
The Buses took 11 a.m. train for Boston. I
followed them by 1 P.M. train from Stillbridge.
Reached Cambridge about 6.30. Found some
travelled very early on coming to talk on home.

Cont'dge.

Wea.

MON. JUNE 29, 1908

Ther.

Forenoon sunny & warm. Afternoon cloudy
with light rain.

Dr. Jewett came to see me at 9.30 a.m.
He says I have sciatica. It kept me
awake & in severe pain all last night.
He prescribes aspirin & orders me to keep
very quiet for the present. I spent
day in Museum reading & writing a
few letters. Took dinner & tea on bank
piers with C. & E. R. S. Mrs. Sande-
berry called in the evening. This
evening had with us from 8.30
with Mrs. Blackbush & others eating &

Wea.

TUESDAY 30

Ther.

Sunny & oppressively warm. Light
breeze at P.M.

Dr. Jewett called again at 7.30. He says
I now have not only *Acrida* but *Skink*
also. He took a good long nap last
night & spent to-day in the Museum.
Working a number of letters. Heard singing in
Garden Yellow Robins (Red-eyes; 1000)
1 noted near; 1000, Goldfinch and 2
Black-bell Chiffchaffs. The Chiffchaffs were
full of Robins. Saw only 4 Swifts last eve.

Cambridge.

Wea.

WED. JULY 1, 1908

Ther.

Clear calm warm. Thunder muttering in P.M. but no rain.

Spent most of day in Museum writing letters & lying on couch reading. Dr. Jewell called at 9.30. My Sericidae better but I am still very lame. James & the birds picking cherries. They are the best & most abundant for years. Crows are taking some of them. A big frog which looks like a bull in the little museum pond. He sings nothing.

Wea.

THURSDAY 2

Ther.

Oppressively hot. Forenoon sunny; afternoon cloudy with thunder muttering towards N.W.

Spent day in Museum writing letters & chasing for bills. A Redstart singing in lilacs at 10 a.m. Did not see him. Two Black-bell Cuckoos have haunted the Garden all the season. I found their nest to-day in the lilacs within six feet of where the Yellowbills nested in the Juniper the last year.

C. H. Watrous of Chester Conn. called at 2 P.M. He has changed but little since 1897.

Cambridge.

Wea.

FRI. JULY 3, 1908

Ther.

Forenoon sunny. Late afternoon cloudy with distant thunder. Oppressively warm. Wind W.

Spent day in Museum writing letters and reading. Dr. Jewell called at 9.30. My Sericidae & the Skingies troublesome again. I had a good deal of pain last night & am very lame to-day. C., E.R.S. & I take all our meals on the back piazza. The garden is swarming with mosquitoes & many of them get into the house. Bird song delicious today but Robins, Red eyes & Yellow throats sing freely in early morning.

Wea.

SATURDAY 4

Ther.

Forenoon sunny. Afternoon cloudy. Heavy thunder storm 1 P.M. lighter one 3 P.M. Oppressively hot all day.

Spent most of day in Museum writing letters & bird notes. Saw a big Green Frog swim under water across the little pond in front of Museum and then attempt to swim a bathing Robin. Birds singing freely up to 10 a.m. Heard Robins, a Red eye, Yellow throat & warbling Vireo, a Redstart, Yellow Warbler, Chipping, Black-bell Cuckoo & many. C. & E.R.S. had about to see after dinner.

Family Room

Cambridge.

Wea.

SUN. JULY 5, 1908

Ther.

Clear & hot with light S.W. wind.

Spent forenoon in Museum working on bird notes. C. had arranged a little supper party to celebrate my birth day. There were only E. R. S. & Sam Henshaw besides C. & me but we had a fine dinner on the back piazza with a big birth day cake and fifty seven candles. Henshaw spent most of afternoon with me in museum. Dr. J. called this morning. He says my leg is better but I am still very lame.

First Cicada heard.

Wea.

MONDAY 6

Ther.

95° max

Clear & warm with fresh W. wind. Less humid than the past few days.

Spent day in Museum writing bird notes & reading a good deal.

Dr. J. called at 9.30. He thinks me better although I had a good deal of pain last night.

E. R. S. left us soon after dinner to take the 5 P.M. boat to Rockland & Mt. Desert where she is to visit the Elliotts. I am pulling chairs all day. He has pulled more than a bushel this season. Purdie spent evening with me.

Cambridge.

Wea.

TUES. JULY 7, 1908

Ther.

95°

Clear & intensely hot with light W. wind.

Spent day in Museum writing bird notes & reading. Dr. J. called at 4 P.M. My left leg is still desperately lame but I hobbled around the garden once or twice daily.

Robins sing freely in early morning & at evening. I enjoy their music exceedingly. Am reading De Soto's Legend of Florida. A man from New York who is in England & day called to see me. He says he is a doctor & is interested in the study of the human mind.

Wea.

WEDNESDAY 8

Ther.

Clear with strong N.W. wind. Early morning hot & oppressive & clearing at 10 A.M. Day, evening very cool.

Spent day in Museum. Gilbert passed my postman's & class book. He also got together a lot of things & gave me a box. I am pulling chairs all day. He has pulled more than a bushel this season. Purdie spent evening with me.

Cambridge - Bethel.

Wea. THUR. JULY 9, 1908 Ther.

Clear & cool with light N. W. wind.
Left Boston by 9 A. M. train and
reached Bethel at 4.30 P. M. Gilbert
went to North Station with me as I
was too lame to carry my things.

The journey gave me little pain. However,
I read most of the way. The country
beyond Portland is parched by drought
as there has been no rain for eight weeks
I have seen no grass. The house is full
of patients mostly men & nearly all new to me.
Dr. Mc. Bueney is still here. Braden left
yesterday.

Wea. FRIDAY 10 Ther.

Clear & warm with light west wind.
Spent forenoon about the house.

In afternoon Mr. Dallas & I walked
to the shore where we sat talking
for half an hour or more. It was
pleasant & refreshing. Chickadees &
an owl. A Redstart coming flitting about
us & I heard a Nashville Warbler
give the full song over near our hands.

The Doctor has reduced my pain
so much that my left leg is still
very stiff & lame.

Bethel.

Wea. SAT. JULY 11, 1908 Ther.

Clear & intensely hot with strong S. W. wind.
Dr. Gehring & I took the 8.45 train for
South Paris where we went by electric car
to Norway. Bicknell met us at the boat house.
We went up the water nearly to its head in
a power boat & began fishing along the shore
from Bellefleur boat. The boys would not
stop & when we went ashore for lunch at noon
we had caught nothing. After lunch I got a
fine fish but made a splendid fight & the
doctor caught a small perch. We returned
to Bethel by an afternoon train.

Wea. SUNDAY 12 Ther.

Cloudless but densely hazy. Oppressively
hot with strong S. W. wind. The haze
was probably caused by forest fires. We
could smell smoke distinctly.

Spent day about house. The
usual morning session in the parlor
of Dallas & Mrs. Gehring. Among them
pleasant was Mrs. John Brooks whom
I had not seen since her husband's
death. Had a long talk with Margaret
after dinner. Fine birds singing in day.
Heard a Cuckoo & saw a Heron. Forest
fires, raging in various directions. Burnt
leaves falling on the lawn this afternoon.

Wea.

MON. JULY 13, 1908

Ther.

Clear & hot with fresh S. W. wind.
Spent day in and about house
going no further away than to
the orchard when, in evening,
I heard, in the direction of the
Dorset woods, the songs of at
least three Hermit Thrushes and
one Swainson's. A very large army
swarm near our house. I saw a flock
of about a dozen Brown Grackles
dash past in this evening flying south

Wea.

TUESDAY 14

Ther.

Sunny but hazy. Warm. Light thunder
showers at 7 P. M. Cooler afterwards.

Spent most of day in house. Walked to Shack in forenoon. At 5 P.M. started for Sango Pond with Mr. G. Road highly dusty, fields brown but woods green.

Full colony of Martins on farm where we
 could not get over & key is lost. It was the
 same old story we had had before & just
 as we were about to go to the island
 I had a very bad cold & was
 with him & he was. He was not
 in good luck & was very bad & was

Wea.

WED. JULY 15, 1908

Ther.

Clear & cool with high N. W. winds.
Went to the shore in forenoon and
saw some interesting things, but did not
find much of interest. A few small
fish were seen. The water is very
shallow and the bottom is sandy.
The tide was out and the water was
very clear. The sky was blue and
the sun was shining. The wind was
from the North West and was
strong. The water was very
shallow and the bottom was sandy.
The tide was out and the water was
very clear. The sky was blue and
the sun was shining. The wind was
from the North West and was
strong. The water was very
shallow and the bottom was sandy.

Wea.

THURSDAY 16

Ther.

To the Shack at 10 a. m. After
writing there for an hour made a
circuit of the Doctor's woods. Saw family
party of Minidittas, five in number.
Red eyes singing everywhere. Found fresh
footy feathers of Woodcock in path. One of
these birds shot by Dr. Mc. Burray
not far from shore to-day.

Called on Mrs. Harriet in late P.M.
In evening went with Dr. Savage, Mr. J.
Pierdows to Crown Hall to see the
It was a "fella" to the end of the road.

Litch

Wea.

FRI. JULY 17, 1908

Ther.

Raining heavily after 5 P.M.
Sunny but hazy. Warm. Wind W.
Dr. Gehring went to Portland this morning
to visit the Magraves for two days
I went to the Shack at 9.30. Found
in pots in woods, four Star nosed mole
young dead near together three within the
space of a square yard. All had been
killed in the fall by John Arnold,
a Fox. I suppose their fur was well
disposed of in the bank but not in the
all the other was no more. They were
all large specimens but two were young & thick.
Went to the office of stores in P.M.
buying a few other things.

Wea.

SATURDAY 18

Ther.

Heavy rain all last night with S.W. wind.
Clearing weather to-day with W. wind. Warm
and oppressively humid.

To the Shack in forenoon, I like to
sit up my diary & bird skins. Also
it is a pretty, quiet spot & early fire
from the mountains and the signs being
about 5 or 6 for 100 years at least.

Walked down town in afternoon to
have my hair cut. Robins & Purple Finches
singing delightfully in village & forest.
We had out one fraction through evening. Sky &
Wind. Getting a small rain here & there.

Bethel

Wea.

SUN. JULY 19, 1908

Ther.

Cloudy & cool, with light rain in
afternoon. Wind N.E.

Doctor G. & I went to Shack in
forenoon & had a good talk there. It
was raining a little. A Hermit, a Red-eye
a Cuckoo & a Peewee bird singing near it.
In afternoon wrote a letter & took a
long nap. In evening Dr. Doctor gave
a lantern slide show in the cellar for
Dr. McHenry, Dr. P. Adams & me.
His Egyptian pictures are very fine.

Wea.

MONDAY 20

Ther.

Forenoon cloudy; afternoon clear. Cool.

To the Shack at 10 A.M. Spending
an hour there, visiting. The Dr. gave
me a "treatment" at 2.15, as usual.
At 5 P.M. I walked to the village &
bought a pair of rubbers. Saw Alva Beldy
at Rover's store. He was on his way to
Canada on a visit to his wife. She is
fitted there. He is a very
low & thinks it doubtful if he can
can be carried now.

Bethel.

Wea.

TUES. JULY 21, 1908

Ther.

Partly cloudy, Rather warm. Light W. wind.
To the Shack at 10 a.m. No one else
except the Doctor goes there at this season
because of the mosquitoes; yet they are not really
numerous. The woods are beautiful. I hear
Cicadas there now. Bird singing declining fast
but Red-eyes & Cuckoos still to be heard at our
house & Herons & Peabody birds at evening.
A few small mixed flocks of Warblers & Titmice
among the alder bushes. No signs of any migration
from further north as yet.
Walked to the post office in P.M.
Spent most of evening talking with Dr. McBurney.

Wea.

WEDNESDAY 22

Ther.

Heavy rain all last night & a drizzle this
morning. Sun out before noon. Afternoon clear,
calm, humid.

Walked down town to Clint Barker's this
forenoon wearing an crown on my left shoe.
It seemed to ease the pain in my leg. In
the village about two Warbling Vireos singing
in an apple orchard behind the library &
a House Wren in field song. The latter
bird doubtless the one I heard last June.

To Shack in late afternoon. Found a
man sawing wood down to Belmont at night.
Dr. Arms of Cleveland lived with us & that

Bethel.

Wea.

THUR. JULY 23, 1908

Ther.

Sunny, hot, humid. Distant thunder.
To Clint Barker's, on errand for Dr. B.,
at 10 a.m. Returned via Chapman & Mason
Sts. where I saw a big pitch pine (perhaps
planted originally) and a bird house on
a barn with a ♀ Martin & some House
Sparrows hovering about it. A woman told
me that this box had been tented by
Martins for at least twelve years. She thought
there were a number of pairs there this season.
Went to Shack in P.M. Woods dead silent.
Saw 4 Redstarts & 2 Magnolia W. bathing in pool.

Wea.

FRIDAY 24

Ther.

Partly cloudy. Hot & sultry.
Walked to Paradise Hill at 10 a.m.

Only a few birds singing, among them
two Great Grackles. The recent rains have
affected vegetation but the fields are still
matted and brown.

To Shack at 5 P.M. No birds singing
there but a few Warblers chirping in the
chase, mid afternoon for up. Martins & Robins
were calling overhead. Myriads of wing
beats everywhere though the wind was
at 9 P.M. Heard a Night Heron peep several
times. It was constantly flying over the field
to the pond and below the creek.

10 cited

Wea.

SAT. JULY 25, 1908

Ther.

Raining lightly but steadily all day. Cool with light southerly winds.

Walked down town after breakfast. Met Alva Coolidge & had a long talk with him. He thinks it would be difficult & expensive to launch the house here. The camp at Pine Point is dilapidated & dirty, the Colby Hotel is kept. All this sounds discouraging.

On my way back called on Al Rode. Spent most of day reading & writing letters.

Wea.

SUNDAY 26

Ther.

Clear & fresh, pleasantly warm with fresh W. wind.

Usual family services at 9.30 attended by all the parents & friends. After that I walked down the village street nearly to the waterfront. The barrel market here is interested only by English Sparrows now. Then looking about among the village houses.

The Doctor & I went to the shore in late P. M. & had a good talk with

about 9 P. M. heard for first time the bark of a Waller nightingale overhead.

Wea.

MON. JULY 27, 1908

Ther.

Clear & warm with light W. wind. Heavy thunder showers at 9 & 11.30 P. M.

Walked down town as far as Clint Barbers in forenoon. Went to the Shack about 4.30 P. M., spending an hour there. Woods very serene & beautiful but for air most part silent. Heard a Hermit in distance, a Cuckoo near at hand, Martins & Barn Swallows overhead. Saw a mixed flock of about 15 Thrushes but they were scattered & I did not succeed in identifying any of them. They looked & acted like newly arrived songbirds.

Wea.

TUESDAY 28

Ther.

Breezy all day. Clear. Wind S. W.

Walked down village street to the Landing this forenoon. Heard a House Wren in the orchard behind Ray's house. It sang in the same bird which I saw in the day on the opposite (left) side of the house near the library & in June above the hotel.

The afternoon spent as usual (P. M.) but cold water showering forenoon by high suggestion & a nap, then up & out again walking to Shack where I stayed about an hour. Singing in the park this evening by songbirds.

Bethel.

Wea.

WED. JULY 29, 1908

Ther.

Thunder & heavy rain, midnight

Clear, humid, oppressively warm. Wind SW
Spent forenoon writing letters &
shopping at Ceylon Road where I
bought rubber boots, moccasins & two thin
flannel shirts, all for use at the Lake.

Visited shack about 5 P. M. Spending
nearly an hour there. Crows cawing in
distance, Purple Martins, old & young, calling
noisily; also Song Sparrows & Cedar Birds.
A few Mockers chirping in trees. No birds
seen here. Red-eyes in full song all day
today & start over house. They are the only
birds I saw near the house here.

Wea.

THURSDAY 30

Ther.

Clear with drifting cloud masses.
Necessarily sultry - about the hottest
day thus far of a hot summer.

Spent most of forenoon writing
letters. Walked to post office about
noon & got the mail.

Went to the Shack at 5 P. M.
and spent an hour there. Two red ones
singing. Found another fresh Kill.
Stationed Mole in the path. Saw
them found on the 17th in hole but
bitten in the back, no doubt by a Fox.

Wea.

MON. AUG. 10, 1908

Ther.

Brilliantly clear & just pleasantly warm with light, steady N.W. wind.

Spent day up the lake with Alva in his motor boat. Landed first at Gospy Cove where I revisited & remeasured the big canoe which is now nearly dead. Landed next at Pine Point & found my camp & landing ground nearly unchanged & unmarked. After lunching there walked to Hellman's Point measuring all the trees we could find. Saw two Herons on the water & a Canada Goose. Came down in late P.M. having a dinner. Saw a small white bird on the shore. Saw a Canada Goose. Saw a small white bird on the shore.

Wea.

TUESDAY 11

Ther.

Cloudy & sultry, Heavy Thunder storm in P.M. accompanied by a deluge of rain & hail stones as big as small cherries.

Spent most of day in room copying & expanding field notes on birds, big birds etc. Started out in morning canoe after dinner but the threatening aspect of the sky drove us back before the storm began. No birds heard singing. Saw Goldfinches, cowbirds, a few Robins & a few small birds about.

At the Umbagog.

Wea.

WED. AUG. 12, 1908

Ther.

Sunny, calm, sultry

Spent most of day writing in my canoe on the north side of B Point paddling over shortly after breakfast, returning for dinner, going across again at 2 P.M. It was serene & peaceful there under the shade of big trees & ledges.

In forenoon a Red-shouldered Hawk, screaming loudly, crossed the lake near us in afternoon I saw a Blue-winged Teal perched on a stub & a few Blue Herons flying about. Long flight of four Swallows as usual, Canada W. singing.

Wea.

THURSDAY 13

Ther.

Partly sunny with two heavy showers. Very warm & exceedingly humid.

Paddled over to B Point after breakfast & spent most of forenoon there. Sailed back before a fresh breeze. Spent most of afternoon in the house. It rained heavily much of the time. There are no mosquitoes, black flies or midges here now, even in the woods. The lake is two feet lower than last year.

Same Umbagog.

Wea.

FRI. AUG. 14, 1908

Ther.

Clear with fresh W. winds. Cooler.

Alva called at 9 A. M. and took me over to the Mill & back in his motor boat.

We picked out some logs for a floating boat harbor for my canoe. In the afternoon I went over again in my canoe, taking all the way. Saw 2 Eagles, 2 Herons, a large flock of Green Blackbirds (in trees behind Lake Umbagog) and 2 ad ♂ Hummers. Heard Red & White wing Crossbills. Sailed past my back. Saw no tracks of an Otter. The hotel nearly full of guests the night.

Wea.

SATURDAY 15

Ther.

Brilliantly Clear with violent N. W. wind. Pleasantly cool.

The lake was so rough I did not go out on it in the forenoon. Just after dinner I sailed over to the mill in the little canoe, the first time I have been in an open boat. Found Alva & his two sons working on my floating boat harbor. Spent afternoon there. Packed back at 6 P. M. The mountains unusually impressive.

Same Umbagog.

Wea.

SUN. AUG. 16, 1908

Ther.

Brilliantly Clear with light S. E. wind. Spent forenoon in my room looking letters. Started out at 3 P. M. in the large canoe. Sailed up to S. end of Great Island & back also running into some of the lateral coves. Saw 2 Brown Eagles together in one place & 2 white-headed ones in another; a Fish Hawk 2 Blue Herons & a Kingfisher. The breeze was so steady I lay down in the canoe & made my sheet fast. The mountains stood out in wonderful relief. A fine sunset.

Wea.

MONDAY 17

Ther.

Cloudy with light S. E. wind and fine rain in forenoon. Rather warm.

Spent forenoon in my room writing up bird notes. Off in the little canoe for the whole afternoon. Sailed across to the mouth of the Cambridge. Skipped Ten Herons there landing on one of the points & making no sound. Saw 2 Eagles, 3 Fish Hawks, 2 Blue Herons & a Kingfisher but no Ducks. Heard a Heron, a Woodcock & a pair of Swallows & a single flying over lake.

Lake Umbagog.

Wea.

TUES. AUG. 18, 1908

Ther.

Brilliantly clear with raging N.W. wind. Cooler. Fine aurora borealis 8-10 P.M.

Spent entire day at my boat house in Upton superintending the completion of a floating boat house for use at Lakeside. Sailed over in early morning and paddled back at evening when the violent winds had nearly died away. The lake & its surrounding mountains were exquisitely beautiful. I saw a number of Eagles, Ospreys & Herons and several Thrushes, besides a few swallows.

Wea.

WEDNESDAY 19

Ther.

Partly cloudy with showers in P.M.. Violent W. wind.

Spent day at Upton working with Alva & his son Harry on boat house.

It was a windy day. A squall day. I sailed over in the little canoe at great speed but had a hard paddle back at evening rapidly however, by a titillating breakfast. Arrived by the night of darkness, day and night at day time in the morning. I was very tired.

Lake Umbagog.

Wea.

THUR. AUG. 20, 1908

Ther.

Brilliantly clear with raging N.W. wind. Cooler. 5-20 mi

Sailed the old gray canoe over to the Mill in Upton this morning. It was exciting for the wind and waves were high. I used my little slow sail and fairly flew along! Alva & I worked all day on the big & little boat houses. Saw only few small birds. Alva brought me back in Lakeside in his motor boat at evening. Saw 5-10 thrushes or swallows of various colors, small "flashes" 400, almost going to rest in woods about Pease Spring.

Wea.

FRIDAY 21

Ther.

Cloudless with violent W. wind. Much warmer.

Sailed the old gray canoe over to the Mill this morning before a splendid breeze. Paddled back at evening facing a glowing sunset with Herons & Ospreys sailing about me and a swarm of swallows (chiefly J. B. with one Martin) coursing back & forth over the marshes. The wind had died away & the air was very still. Spent day working with Alva & his son Harry on boat house & boat. Saw only few birds here.

Lake Umbagog.

Wea.

SAT. AUG. 22, 1908

Ther.

Cloudy with light variable winds
and several dashes of rain. S. 40° E.

Spent day at the Mill working on
the flooring floor he is with Alon & his
son. Finished it by night. Packed
one box. Saw a fine adult of *L. sin-*
ensis on a slab near Peaslee's house.
Saw a child on a pine tree top
near Long Brook. Alon saw it. He has
not seen one before for 7 or 8 years he says.
Saw & heard bay many small birds
as I was on my way home from Wood
Quills (the house). A death rattler was
heard 70 yds. S.

Wea. SUNDAY 23 Ther.

Cloudless with fresh N. to N.W. wind.
Air cool & breezy.

Spent forenoon in room writing letters.
In afternoon paddled up Sumat Cove
to head of Great Id. Landed on island
where we found a Black Duck's nest in 1897.
Saw 2 Eagles (one a fine adult) & a large hawk
2 Blue Herons (one on log deep in lake, fishing)
an Osprey & 6 Whistlers. Heard 2 Wood Pewees,
& saw a flock of Cedar birds of White wing
Crossbills & of Pine Squirrels. The latter &
numerous & admirably beautiful. All around
sailed our way were a steady stream.

MON. AUG. 24, 1908

Ther.

Partly cloudy with light W. wind
just pleasantly cool.

Spent day packing & pulling the
Cannon, Sails & other things away.
Also came over to Ballards to
keep her. He worked there through
forenoon and at my boat house in
Afternoon. Dined at
the Spring behind Balls House. A fine
boy fell slightly in slab within 20 yds.
& skinned many times. Saw 6 Sharp-shinned
Hawks in Eagle feed. Also took in some
& back in the tugboat
Wea. TUESDAY 25 Ther.

[illegible]

Bethel - Cambridge.

Wea. WED. AUG. 26, 1908 Ther.

Raining all day. Wind N. E. Cold.
Left Bethel at 9 a. m. and
arrived Boston at 4.15 P. M.
Went met me at North Station.
Took 7.15 train, R. R. to Cambridge.
Drove from Porters to our home.
C. E. R. S. and Lottie K. were
with Mr. E. R. S. in the library.
We sat by a big fire in the
room through evening, talking.

Wea. THURSDAY 27 Ther.

Cloudy & Cold with occasional
glimpses of sunshine.

Spent day in Museum
unpacking my things & writing letters.
Called on Walter in late afternoon.
C. asked E. R. S. & me to select
pictures & select paper for our
album which we did.

25+ Robins, 8 Cedar Birds, 2 Hummers,
(75+) Great Blackbirds (on wing) and
a Flicker noted in the garden.

Cambridge - Boston.

Wea. FRI. AUG. 28, 1908 Ther.

Brilliantly clear & bracingly cold
with fresh N. E. wind.

Went in town with C. E. R. S. at 10 a. m.
To select in new pictures for C. & my
album at 140. We chose a Raphael
Madonna, a photograph of Highland
cattle & a Dutch peasant & several
other things. After that I called at
office, looked over "Bunch O' Grapes"
& bought a mission clock for museum.

Got home at 2.30 P. M. Lottie K.
was a little ill to-day. C. E. R. S. & I spent
the evening with her up stairs, reading aloud.

Wea. SATURDAY 29 Ther.

Brilliantly clear. Warmer with light
S. W. wind.

Spent forenoon in Museum & Garden.

Gave James directions about his work
& told him I should not want him
after October 15th. He is a good fellow
but inexperienced & inefficient in some ways.
C. E. R. S., Lottie & I lunch in my den
at 12.30. Drove over to No. Cambridge Junction
in two couples. C. E. & Lottie took 1.49
train for Northampton. I had my house
packed & a moving box with books & other
things in car. I took 2.00 train for
Boston.

Concord.

Wea.

SUN. AUG. 30, 1908

Ther.

Cloudless & warm with light S. W. wind.
Spent forenoon at Ball's Hill. Took
a walk in woods just after breakfast.
Gypsy moth nests on almost every tree.
The oak tops & branches swarming with
young Brown Tails. Some trees dead or dying.
2 Redstarts, a Cuckoo, a Chestnut Siskin,
a Red eye & a Hair Thrush seen. Went
to Ball's Hill from 10.30 to 1. Walked to
farm after dinner. Birch Field & Puffin
Rock woods badly infested by Gypsy Moths.
One bird tree near Spring has at least 100 with
Whiffles on it. Many acorns eaten as coming.

Wea.

MONDAY 31

Ther.

Cloudless & warm with light E. wind.
Spent day at farm walking up &
down. Pat began work there. I
was with him most of the time.
We dug a little pond near the cemetery
across the swamp on road to Ricketts place.
A mixed flock of about 20 Robins
in this swamp. They kept high in the
trees & I identified only a few of them.
The Gypsy moth situation looks worse
& worse as I investigate it further. I
fear all my woods are doomed. The
pine blight is dying out here.

Packed up in rain & a storm
only one bird, a Swamp Sparrow

Concord.

Wea.

TUES. SEPT. 1, 1908

Ther.

Clear & warm with fresh S. W. wind.
Spent day at farm walking up
via Pine Ridge & Davis Swamp Ridge,
returning via Holden's Hill. Worked
with James, George & Pat in the
little new park at rear of Ricketts
place where we set out a lot of
hemplocks & Mountain Laurel from my
private nurseries. Birds of most kinds
seen very close but I heard an unusual
number of Jays. Saw tracks of two Deer,
a young buck & doe, on Pine Ridge Pine Point.

Wea.

WEDNESDAY 2

Ther.

Cloudy & sultry with light S. W. winds.
Light showers at day break.
Spent day at farm walking with
James, George & Pat on a dam at the
outlet of the Swamp in Bowler Run.
We finished it at 4 P. M. Mr. Gould,
of Blanchard & Gould, called to talk
with me about buying my woods.
We have a good peach crop at farm
& I fear on them daily now. Very few
birds to-day. Saw fresh tracks of Great
Blue Heron on shore of pond on Berry Pasture.
Pat saw Kingbirds there.

Concord.

Wea.

THUR. SEPT. 3, 1908

Ther.

Brilliantly clear with fresh, cool N. W. wind which died before sunset.

Spent day at Farm walking up & back. Harry Richardson with me the whole forenoon. He scolded for Gypsy moths. He considers situation serious, perhaps hopeless. Spent afternoon working with my men in flower garden. Very few small birds noted. Saw 3 Barn Swallows at sunset. Red should. Hawk out perched on my sign post across river 7.30 - 8 A.M. Packed up river in a bag on 6.30. Saw a Bittern & heard a Gull & a Swamp Sparrow.

Wea.

FRIDAY 4

Ther.

40° to 50°

Brilliantly clear with fresh W. wind. Cool last night. Dense fog in early morn.

Spent day at Ball's Hill. Had all three men & the new horse (he is a dear) working on the pond in front of horse shed deepening it. I was with them all the time. Went to Farm 5 P.M. & killed a lot of peaches for Combings. Two Red shouldered Hawks screaming for half hour this morning perched in dense foliage one in maple E. end Ball's Hill, one across river. Small birds, especially Juncos & Wrens silent & few appeared.

Concord.

Wea.

SAT. SEPT. 5, 1908

Ther.

Brilliantly clear with fresh S. W. wind clouds gathering at sunset. Warm.

Spent day at Ball's Hill. My three men and the new horse working on the pond in front of horse shed. He hoped to finish it but did not. Two or three Hooters came about chirping but I failed to see any of them. Went out sailing for an hour in forenoon. All coming packed up river in the bag. Started a Bittern, saw a Night Hawk, heard Barn Swallows. The two young Red shouldered Hawks were screaming again this morning.

Wea.

SUNDAY 6

Ther.

Cloudy with light rain in forenoon. S. E. & S. W. winds. Warm.

Gilbert & I went to the Farm just after breakfast to get some peaches. We picked five baskets of fine Everts before the rain forced us to quit. James drove me back to Ball's Hill with the peaches. Packed them after dinner in the cabin. Crossed the river later & spent an hour or two there planning for a floating fruit house. Saw only few birds & nothing of interest.

Cambridge.

Wea.

MON. SEPT. 7, 1908

Ther.

Brilliantly clear with fresh, cool N. W. wind -
To Cambridge by 8.15 A. M. train. C. & E. R. S.
returned from Northampton Saturday night. & I
found them at an hour. Gilbert & I brought down
a lot of feathers, melons, eggs &c. this morning.
Found a pair of Carolina Wrens in the Garden.
Heard them first about 10 A. M. in short bushes
under my study window. Saw or heard them
later in close view of house, in hedges by dining garden.
Gave Walter Dean at his house & showed them to him.
Made the ♂ sing by whistling to him. Spent most
of forenoon with them, of afternoon writing in house.

Wea.

TUESDAY 8

Ther.

Brilliantly clear with light N. wind: Cool.
Found in the Garden at 9 A. M. the pair
of Carolina Wrens seen there yesterday, 3 Black-
poll Warblers, 2 Red-eyed Vireos, 4 Robins.
In P. M. saw three 2 Water Thrushes & a
Connecticut Warbler (my first local record). Heard
Crows cawing there at sunset. The Conn. Warbler
was in the jungle. I had a fine view of it
(see Journal). At 10 A. M. I drove in a
carriage to Irving Street on Concord Ave. (where I
saw another Carolina Wren the previous day) then on to
Hills. Gave a look at the house of J. Taylor & Howard
Hill, then at the house of J. Taylor & Howard Hill.
Purdie, Sam Hurlbut, Walter Hurlbut, Dean Hurlbut
with C. & E. R. S. & me at 11 A. M.

Cambridge - Concord.

Wea.

WED. SEPT. 9, 1908

Ther.

Brilliantly clear with light S. W. wind.
Purdie came out at 9 A. M. to see
the Carolina Wrens. We found them in
the N. W. corner of Garden. The ♂ sang a
number of times. Purdie spent whole
forenoon. C. told E. R. S. & me she did
not feel strong enough to attempt to run
the house this winter & that she had
decided to close it in October. I
lunched with them both on Cook's place
& took 2.08 P. M. train for Concord.
Sailed down river to Davis Hill before 4 P. M.
& walked to Holden after 4 P. M.
Wea. THURSDAY 10 Ther.

Sunny but densely hazy. Very warm. Light S. W. wind.
Spent day across river working with
James, George & Pat on the boat pit, near
stone boat house. We enlarged it & then
planked the sides. I shall put a floating
boat house there later on.
Bobolinks had passed over high from Lowell
to 10 A. M. A Tanager calling chop-chop 7 A. M.
A few Warblers about probably Black-polls.
Paddled up river to the dragon & beyond or
several. Saw a Red Wing & a Marsh Wren.
At twilight was flying a lot of fireflies across the
river. Saw a pair of song 18-3 notes. Gull
flew & a little later 6 P. M.

Cambridge - South Yarmouth

Wea.

FRI. SEPT. 11, 1908

Ther.

Cloudless but very smoky. Impressively hot and sultry with light S.W. wind.

Spent day with James, George & Pat working on boat pit across river. We dug it deeper & lay on & supported bank by oak logs from tree cut near boat house. Saw a Plover & D. Quail on this shore. On Hall's this day, a Murrelet's voice & heard a Jaeger. Robolinks heard near house.

Robert & I took 4.24 train to Cambridge. On way home went into garden & found two 2.5 inch worms & a House Finch & 8 eggs. G. & S. R. S. had been to day before today. We spent evening looking about our hole.

Wea.

SATURDAY 12

Ther.

Fairly cloudy & very sultry from fog & haze in the north this day. Colder with light wind.

Spent forenoon in house & found some peckling etc. Heard first song of Carolina Wren in garden but did not see either bird. A juv. & Yellow Warbler with 3 Black-bills, feeding on big willows. A Red-eye & a Phoebe heard & heard Robolinks near.

Went in train at 11.30. Spent about three hours at our office. Took 7.25 train for South Yarmouth. Spent evening in father's cottage with John & Mary. A few & some more about, also heard a

South Yarmouth.

Wea.

SUN. SEPT. 13, 1908

Ther.

Cloudy with light easterly winds. Warm. Spent most of forenoon on the shore of the river at Davis's Landing with Mr. Davis, Mr. & Mrs. Davis, Mr. & Mrs. Frothingham & others. Saw Sea Kitties, Plover, small Phoebe & big Crows singing about first branch on road to Swan Pond after dinner.

A lot of them sang & a Kingbird in garden. At 5 P.M. went to Mrs. Davis's where thirty or forty people, mostly children, assembled in big house. We stayed there again at 8 P.M. for some time & then went to bed. It was a very nice evening.

Wea.

MONDAY 14

Ther.

Fairly clear with rising N.W. wind. Cool at morning & evening.

Went to Haynes's Pond in forenoon & found a large number of birds. The water was out as yesterday with Sabbath & Sunday's work. Still showing a few flowers high & moist vegetation all about. Chris. & Mary (children) & I. Two boys fishing down hole a few feet deep & caught several small fish. Heard Robolinks near house & Phoebe. The Frothinghams came & stayed in afternoon.

South Yarmouth, Cambridge, Concord.

Wea. TUES. SEPT. 15, 1908 Ther.

Brilliantly clear & very cool with strong
N. wind. Took 10.08 A.M.
train for Boston. On arriving got
lunch at South Station & then went
to Cambridge where I found C. & E. R. S.
In P.M. planted some *Sabbatia* & *Corylus*
rosae in the little pond front of Museum.
Heard the Carolina Wren sing over
about 4 P.M. Called at Walter Dean's
at 7.30 & found Charlie Dean &
H. K. Job at dinner there. Spent
rest of evening with C. & E. R. S.

Wea. Thursday, Sept 17 Ther.

Sunny but hazy. Strong E. wind. Warm.
Took 8.02 train to Boston with C. &
E. R. S. Put them on 9 A.M. train for
Portland & Portland and then took
8.51 train for Concord. Worked
at Ball's till all day with James,
George & Pat. We dug out the
cane pit & made some changes in
the breeding. Saw very few birds
except a flock of 1 black-jacks, a
chase on near in number. The
river is at its lowest ebb & the
woods as dry as tinder.

Cambridge - Concord.

Wea. Wednesday SEPT. 16 1908 Ther.

Sunny but densely hazy. Cool. Heavy
white frost in early morning. Strong E. wind.
Gilbert & I went to Concord by 8.08
train, taking Henry. I spent day working
with James & George on canoe pit.
Took 4.24 P.M. train back to Cambridge.
where I spent the night. Sat in
the hall with C. through the evening.
The house is to be closed to visitors.
I saw very few birds at Concord
& nothing of any interest.

Wea. FRIDAY 18 Ther.

Sunny but densely hazy with a strong
smell of smoke. In afternoon the smoke
hung low in a thick haze obscuring everything.
It was very warm all day with W. wind.

Gilbert & I went to farm after breakfast
& dined there. We pulled all the remaining
peaches & made up several handsome
baskets to give away. James has sold
25.00 worth. The crop has been over thirty bushels.
Mr. Dexter M. Rogers, U.S. Gypsum Mills man,
called just after dinner. I took him to
Larson & Ball's Hill. He thinks the entire
place could be harvested in three years.

Concord.

Wea.

SAT. SEPT. 19, 1908

Ther.

Cloudless. Forenoon calm & densely smoky; afternoon clear with fresh E. wind. Just pleasantly cool.

Spent entire day at Ball's Hill. James, George & Pat worked there together excavating coals for a charcoal I am digging below our boat pit & the pond in front of horse shed. I worked on sailing canvas & on the canoe pit. Hobbs' canoe brought up a lot of people in P.M. & was continuous and pleasant.

Wea.

SUNDAY 20

Ther.

Brilliantly clear with light, cool S. E. to S. W. wind. A perfect day. Took short walk behind Ball's Hill after breakfast. Dany started a noisy cackling Thrasher. It looked like a hen. At 10 A.M. six Red-shouldered Hawks soared over Ball's Hill for several minutes circling & weaving only a few yards apart. White Cellars in formation. Started up river at 2 P.M. Sailed most of way to Red Bridge. Called at boat house & saw Mrs. Hill, Leonard, Hightman, Geo. Hayes & wife, George Hayes, Hightman & others. Have called on Mrs. Allen Bullen. Paddled back to camp.

Concord.

Wea.

MON. SEPT. 21, 1908

Ther.

Cloudless but very hazy. Warm with fresh S. W. wind.

Spent day at Ball's Hill on evening work on the boat pits, landings etc. Had no less than seven men engaged in it viz James, George, Pat, Benson, Peter & two men hired through Ed. Mather. They dug a wide canal from our old boat pit to the new one in front of horse shed. We cut down some good white oaks for a landing. Very few birds about & none of any interest.

Wea.

TUESDAY 22

Ther.

Cloudless but densely smoky with light easterly winds. Very warm.

Spent day at Ball's Hill working with some men at same tasks as yesterday. Michael Hopkins the mason worked all day making a crib around our new well at S-P.M. I paddled up river to the bog. Found a flock of about 75 Blackbirds there. Most of them ^{I looked} like Rusties but I identified one of them as being among them. Saw a Kingfisher & a Heron. Saw 2 Swainson's Thrushes near our house. Found thrashers & Brown Tail. Crows dead in trees.

Concord.

Wea.

WED. SEPT. 23, 1908

Ther.

Cloudless but densely smoky. Warm with light S. W. wind. All the days for a week past have been sunnier but the nights are pleasantly cool.

Spent day at Ball's Hill overseeing the work of the men. Besides James, George, Pat, Benson, Peter & Maken's boys I had Hosmer & his son in law who began a new cabin on an island a little west of the log cabin. They had the frame up & the under floor laid by night. I saw almost no birds today.

Wea.

THURSDAY 24

Ther.

Partly cloudy & densely smoky. Very warm. Good cabin work today.

I worked at Ball's Hill all day with the same men, on the same tasks as yesterday. We completed a new boat pit in front of log cabin & finished grading banks of creek leading to house that pond. Cut down a number of good sized white oaks also. Several Black jacks about. Heard Titmice twice. Also heard 2 Red shouldered Hawks screaming.

Wea.

FRI. SEPT. 25, 1908

Ther.

Cloudless but very smoky. Sooty with light easterly winds.

Spent day at Ball's Hill working with same men at same tasks as for past five days. Hosmer had the new cabin sheathed & tin roofed by night.

Paddled up river at 5 P.M. Swamp Sparrows giving flight songs on every hand. Cow Song Sp. in nearly full voice. Saw a Brown Marsh Hawk & a flock of about 75 Blackbirds (no doubt same flock seen on 23rd) nearly all were Red winged Blackbirds among them. Heard Winter Wren. ^{Benson saw some waterfowl probably a coot, in river at edge of woods about noon.}

Wea.

SATURDAY 26

Ther.

Early morning foggy. Day clear with light S. W. wind. Very warm.

Spent day at Ball's Hill working with the men on boat canal. James & George put up some oak logs for foundation of new cabin; Hosmer & his nephews nearly finished it inside. Mr. Gilman of Chelsea arrived at 4 P.M. to spend Sunday. He paddled up river as far as the Hole at 8 P.M. Skipped two Bullfrogs & heard a Rail creaking.

Concord

Wea.

SUN. SEPT. 27, 1908

Ther.

Clear, & oppressively hot with fresh S.W. wind.
Arrival commenced building.

Gilman & I walked to Farm in forenoon
by way of Davis Hill returning via Holden Hill.
Saw a good many Black Poles & one *Oporornis*
agilis a ♀ or juv. ♂ which I shot from ground
in open oak woods near big pine at foot Holden
Hill. Found pond at Farm quite dry save
for a fine or two of water near marshes. In this
were a few live tadpoles. All about it were
dead fish to number of a thousand or more
most of them shrimps of various sizes with the
thin brown in part in last May.
In late P.M. Gilman & I started down river
to Charles Bridge, paddling back.

Wea.

MONDAY 28

Ther.

Cloudy with fresh S.W. wind. A few
drops of rain fell about 4 P.M.

Spent day at Ball's Hill working
with my seven men. Benson finished
laying a stone wall along the new
ditch or canal leading in to house shed.
James & I did various tinkering jobs.
The other men showed second cut
down trees etc. Gilman left me
at 11 A.M. to return to Northboro.
I shot a hen Partridge at E. end of
Ball's Hill at evening.

Wea.

TUES. SEPT. 29, 1908

Ther.

Heavy showers with violent S.W. wind
just before daybreak. Forenoon cloudy.
afternoon clear with strong W. wind. Cooler.
Had six men at work to day, James &
George logging the new cabin, Benson &
Peter laying stone walls at boat pier &
Benson worked here, Pat & John digging banks.
Began excavation near house shed for a
small boat house for canvas.

Walked behind Ball's Hill at evening. Not
excepted full moon in places but not generally.
Only a few birds mostly Black-poles.
Phoebe in first day 8-7 A.M.

Wea.

WEDNESDAY 30

Ther.

Brilliantly clear with fresh, cool E. wind.
Heavy fog in early morning.

Spent day at Ball's Hill, overseeing
the men. James & George finished
logging the basement of new great cabin,
Hosmer & Pat put up & boarded new
newer cabin, Benson & Peter hauled
stones & laid walls.

A fine C. sparrow flew low over the hill
at 4 P.M. Later a Marsh Hawk followed.
Scrub Owl working at dusk. Saw first
Heaven Thrush.

Concord - Cambridge - Boston.

Wea.

THUR. OCT. 1, 1908

Ther.

Cloudy with light easterly winds. Early morning foggy. Cool all day.

Spent day at Ball's Hill working with my men, chiefly on the foot canals & landings. Hosmer & assistant Carpenter worked on the main cabin. It was begun yesterday & boarded & roofed to night.

C. & E. R.S. returned from Bethel to-day. Gilbert went down to meet them. I paddled up river at sunset. It was calm, mild & cloudy. Heard the full song of a Red-wing given a dozen times or more.

Wea.

FRIDAY 2

Ther.

A typical fall day of the gloomy November type, Cloudy with harsh N.W. wind.

Took 8.13 train to Cambridge. Spent about two hours with C. then went in town & met E. R.S. at Shreve's. He presented me a wedding present for Joe Russell's daughter & then went to Bernard's where we selected two Backham rugs for our house. Next I went to our office, next to Hollingsworth, formerly to Farguhar's. Got 4.57 train back to Concord.

Concord.

Wea.

SAT. OCT. 3, 1908

Ther.

Brilliantly clear with fresh N.W. wind. Frosty at morning & evening (ice is said to have formed last night) but pleasantly warm at mid day.

Spent day at Ball's Hill working with the men, chiefly slabbing new cabin. Pieces came up with three men and found oaks on Beaver's Knoll. Farguhar sent up a man for Cambridge place. I liked him. Paddled up river at sunset. Got within 12 ft. of a Grackle when it flew. Saw a Wilson's Snipe calling about in the dusk & 3 rumpless, brownish. Heard 2 Crows Road. Mammals of Winter Wren near Cabin, Short-billed Noddy.

Wea.

SUNDAY 4

Ther.

Sunny and warm with light E. wind. Geo. V. Bennett arrived at 10.30. We walked to Farm via Davis Hill & back via Holden Hill, before dinner. Down river in afternoon paddling (in row boat) to Cole's bridge & back. Saw 4 Grackles together off Birch Island & a flock of 100 further down. Started two Parula's at Farm & heard another down. Gilbert saw one in barberry forest of his cabin in forenoon. I went to Farm again at 5 P.M. & telephoned to C. & to Betty. A Yellow Chantrelle was dead this morning.

Concord Cambridge - Concord.

Wea. MON. OCT. 5, 1908 Ther.

Clear & warm. Dead calm most of day. Mr. Bennett departed this morning. I spent day supervising work of men. I had four carpenters besides James & George working on the cabins. Pat worked at bracing & Gilbert painted. Benson & Gilbert did not come. There were also Pierce & four men fanning trees & feeding gypsy milk cows.

Took 4.24 train to Cambridge. To
Hill Club meeting at 10.30
Spent night at our house

Wea. TUESDAY 6 Ther.

Cloudless & warm with light easterly winds. I spent most of forenoon in our garden. Saw there a dozen or more Robins, as many White-th. Sparrows, 2 Black-jacks on gray Purple Finch, 2 Goldfinches & a Yellow-bellied E. R. S. & Miss Allyn attended wedding of Sarah Russell (Jas' daughter) in the First Church at Concord. We went afterwards to reception at home. Big crowd there.

C. had attack of rheumatism & could not go. Jim & Mrs. Melvin called with automobile at 2.30 & took E. R. S. & me to Concord. We saw members of local. After they took us to South Hill. A cabin burned down.

Concord.

Wea. WED. OCT. 7, 1908 Ther.

Forenoon cloudy; afternoon clear warm & dead calm.

Spent day at Ball's Hill working with the men. James & George finished building the large new cabin, Hosmer's carpenter worked in the new small cabin & in the canoe boat house, Pat showed & graded. Two gypsy milk men worked all yesterday & to-day in the woods across the river, felling them. As I was at the canoe for a Fish Hawk alighted in a maple within 15 ft. of me. Paddled up river a little way at sunset. Packed up cabin light to day.

Wea. THURSDAY 8 Ther.

Clear & warmer with fresh W. to S.W. wind. Foggy in early morning.

Spent day at Ball's Hill working with the men. Gilbert & James slatted the new chestnut cabin, Benson worked on the canoe, Pat, Peter & George hauled off brush. I worked chiefly with Hosmer's carpenter on the canoe boat house & the mill race.

Paddled up river to the bog at sunset. Saw a Great Blue Heron. Heard a Song Sparrow, a Short-billed Marsh Wren. Song & Swamp Sparrows in field at day.

Concord.

Wea.

FRI. OCT. 9, 1908

Ther.

Cloudy, calm, mild. Tree crickets still chirping. Red maple foliage at the very height of its autumn coloring & very brilliant.

Spent day at Ball's Hill working with James & the Carpenter. The finished shelling the new chestnut cabin. Benson, Peter & Pat going with.

In evening walked to Benson's to see the swamp maple foliage. Near here I know a new full moon. Paddled up river in twilight. Heard a Sora Rail saying *coo* & then several Owls. Solitary lines saying near Cotton this morning.

Wea.

SATURDAY 10

Ther.

Cloudy with chill E. wind, threatening rain.

Spent day at Ball's Hill working with the men. The Carpenter made shingles for new chestnut cabin & George painted them. James & I worked at a variety of small tasks about the cabins. Benson, Peter & Pat worked at an iron wall in the new boat house. Peter & James were treated gyping north west on Davis Hill.

Very few birds heard. Sam Henshaw arrived by 5.30 train to spend Sunday. As we approached the steam boat bridge in twilight a deer started near us & whistled loudly.

Very few birds heard. Sam Henshaw arrived by 5.30 train to spend Sunday. As we approached the steam boat bridge in twilight a deer started near us & whistled loudly.

Concord.

Wea.

SUN. OCT. 11, 1908

Ther.

Sunny & very warm with fresh S.W. to W. wind. Heavy showers before day break.

Sam Henshaw & I paddled down river to Birch Island after breakfast. Returning we walked to Davis Hill. In dry course of brook that drains Davis Swamp found the biggest snapping turtle I ever saw living. It must have weighed 50 lbs or more. Head as big as my fist hind legs as my wrist. It was vicious & active.

Walked to Farm in P.M. Sleaked Blue Heron from big pine Pulpit Rock-woods. Got back at 8 & paddled up river to Hall. Saw a South Owl then on a dead tree trunk & a light Heron in foliage gorgeously along edge of river. Saw red water lilies of course.

Wea.

MONDAY 12

Ther.

Brilliantly clear with strong cold N.W. wind. Henshaw departed at 8 A.M.

I spent day at Ball's Hill working with the men. The Carpenter built in a box for cars & paddles in wall house. James put down more steps to boat pit.

George left us last night & Austin about took his place this morning.

I walked to Farm at 5 P.M. Got chestnuts at Holden Hill, grapes at Kitchin place, peaches at Farm. Saw very few birds. In day. Red maples leaves falling fast. Henshaw at Farm splashed old gold.

Concord.

Wea.

TUES. OCT. 13, 1908

Ther.

20°

Brilliantly clear with strong W. wind. Early morning cold with heavy white frost. Warm at midday. Maple foliage falling & trees nearly bare by evening.

Spent day at Ball's Hill working with the men. I had James, Pat, Benson, Peter & Shaw the Carpenter. Worked on boat house & changed mosquito netting in my cabin. Peter & four men on Davis Hill.

Saw Sharp-shin Hawk over Cabin & 2 Marsh Hawks on river. Paddled up river carrying Cottony Down. He shot 2 Shore Birds. I approached one of them within 6 ft. on the causeway. He was in perfect control.

6 Wea. WEDNESDAY 14 Ther.

Cloudless & warm with light S.W. wind.

Spent day at Ball's Hill working with the men. I had James, Austin, Pat, Benson & Peter. Shaw the Carpenter worked all day in my cabin changing the mosquito screens there. Peter & 4 men worked on Davis Hill.

Very few birds about. Paddled up to the Bogam at sunset. Evening calm & mild. Heard three Scaup calling & creating. Two Muskrats came very near me. One was eating water lily roots.

Concord - Cambridge - Concord.

Wea.

THUR. OCT. 15, 1908

Ther.

73° Max

51° Min

Clear, calm, very warm

Gilbert & I took 8.13 train to Cambridge.

I spent forenoon in house & Museum.

The new man Henry Seagroat began work this morning & I showed him what to do.

C. had a host of women cleaning house but she made time to go to Mus. Comp. Left at 3 P.M. We saw three 4 live Solenodons just gone. Hatched of woodchuck cubs.

After that I had her out on Squam. C. & I called at Pres. Eliot's at 8.30. They were not at home. Garden alone with White-throats. A Hermit & a Black-bird there.

Wea.

FRIDAY 16

Ther.

80°

Clear, dead calm all day. Oppressively hot.

Took 9.08 train for Concord. It went only to Bedford I found. Took electric there.

Spent day at Ball's Hill working chiefly with the Carpenter. Besides him I had James, Austin & Pat on work. Peter was on Ball's Hill with the men for his last day. Robins & 2 Hermit Thrushes eating Japanese berries near cabin. Heard Pine Siskins & Titmice.

Paddled up river at sunset. Marshes dark & apparently almost lifeless. Heard a Swamp Sparrow, a Song Sparrow & a Maryland Yellow-bird (chirping).

Concord.

Wea.

SAT. OCT. 17, 1908

Ther.

Cloudless but very hazy. Dead calm all day. Oppressively warm.

Took short walk after breakfast. Saw at least 50 Robins along river path & a lot of smaller birds near bush gate.

D.C. French arrived at 10 a.m. to spend day. We walked about in the woods & looked at the cabins in forenoon. Started up river in the little canoe soon after dinner. Went nearly to Hunt's Pond stopping twice to cut off weeds & mow on meadow. Water glassy smooth. Covered with creep flowering leaves. Got back at 4.30 & walked to Pine Ridge. Dan left me at 5.30. Heard a Black Duck just then.

Wea.

SUNDAY 18

Ther.

Still another smoky, uncongenial warm day with some a breath of wind.

Drove to the farm just after breakfast & telephoned to Boscawen about a. o. c. matters. Got back at 11 & strolled about in the woods for an hour. They were alive with birds; there were fully 100 Robins on the hill. Pine finches in big flocks whirling about. Mr. Mc. Innes & Mr. Hall arrived at noon to dine with us. We worked to Davis & Holdens fields after dinner. They took 4.13 train. Mr. Hall & I had dinner called.

Concord.

Wea.

MON. OCT. 19, 1908

Ther.

Cloudless but densely smoky. Cooler with strong N.E. wind.

Spent most of day working with Pat, James & Austin on and about Benson's Knoll where we spent several visits cutting down a lot of trees & brush. It was a clear gloomy day & I noted but few birds. Gilbert saw four Ducks on wing & I heard a Night Heron on wing & saw a Cat bird in the swamp behind Benson's Knoll. Bill Nichols called in afternoon.

Wea.

TUESDAY 20

Ther.

Brilliantly clear with strong, cold N.W. wind.

Spent day working with Pat, James & Austin on & behind Benson's Knoll. We cut down a large number of trees including some white pines which George Cornell, Pat & I set out in the spring of 1894. They are now 10" in diameter & 25' high. Gilbert went to Cambridge. I cooked my own dinner. Saw only a very few birds including 3 juncos & a white-throat. A Green heron on shore off Ball's Pond. Large geese appeared in Park at 4 P.M. & I observed them all.

Concord - Cambridge - Boston - Concord.

Wea.

WED. OCT. 21, 1908

Ther.

Clear with light N.W. wind. Early morning cold. Warmer at evening.

Took 8.13 train. Our Canal frozen over with thin ice. Spent forenoon in our house & Museum. Batey & Geo. Leane, called to discuss A.O.U. plans. A Hermit, a Chickadee, a Junco & 8 or 10 White-throats in Garden. Also 5 or 6 Robins & 5 Thrushes flying over. Dined with C. & E. R. S. Went in town at 2.30. Spent afternoon at office, bought hardware at Williams & took 4.51 train back to Concord.

Wea.

THURSDAY 22

Ther.

Cloudless & mild. Calm most all day.

Spent day at Ball's Hill working on the well house with James & Austin. We raised the roof a foot & made other changes. Pat walked across the river in forenoon, behind the hill after dinner. The Carpenter did not come yesterday or to-day. Gilbert came to Cambridge to help clean Museum. I cooked eggs for my lunch.

Paddled up river to Logans at sunset. Moths brown & apparently leafless. Saw small flock of Indigo Bun. One seen

Concord.

Wea.

FRI. OCT. 23, 1908

Ther.

Clear & warm with light, variable winds (chiefly S.E. to S.W.) & long intervals of dead calm. Smoky in afternoon.

Spent day at Ball's Hill working chiefly with Shaw, the Carpenter, in the new cabins. James & Austin worked all day on the well house. Pat across the river on the boat canal. It was sunnier at noon & evening but cold in early morning with ice on my roof. Saw very few birds. Two Grackles in front of cabins at 8 a.m.

Wea.

SATURDAY 24

Ther.

Cloudy & mild with light easterly winds.

Spent day at Ball's Hill working with the men. The Carpenter practically finished the new guest Cabin. James worked under the new men's cabins. Pat cleaned out the well and ~~the~~ wood shed. Saw almost no birds. Saw a Purple Finch, a Hermit & a few Crows & Blue Jays. Mr. & Mrs. H. B. Bigelow called in forenoon & stayed about half an hour. Paddled up to the Logans at sunset. Did not see more than a single bird of any kind. Two Mockers singing about noon.

Concord

Wea.

SUN. OCT. 25, 1908

Ther.

Cloudy & mild with fresh E. wind.
A few rain drops fell about 3 P.M.

Spent day at Ball's Hill
working in the cabins with Gilbert.
Had a short sail on the river
and a walk to Davis Hill in
late afternoon. Almost no birds
seen or heard. At evening I started
great numbers of frogs along the
river path. They made lots of noise
among the day & all leaves. The workers
finished some along at dusk with
only a few left to-day.

Wea.

MONDAY 26

Ther.

Cloudy & mild with light N.E. wind and
heavy rain in late P. M. & evening.

Spent day at Ball's Hill working
chiefly with James the Carpenter. Pat &
Gilbert worked about the cabins.

James & Austin across the river where
they floated one side of the boat pit.

We moved the canoe house to behind
the hill & put both canoes away for the
winter in the boat house. Pat burned
two big piles of brush after dark.
Very few birds seen or heard except
Robins & Flickers.

Concord

Wea.

TUES. OCT. 27, 1908

Ther.

Clear & warm with light W. wind.
Spent day working behind Ball's Hill
with Pat, Austin, Benson & Peter. We
cut down a great number of trees, including
some rather large pines, chiefly in &
about the opening in the forest land
between the hill & the swamp. The
Carpenter worked in the cabins. James
made a rack or "shoe" for the boat house
to be carried on. Heard White wing Crossbills
twice in early morning & saw a flock of 50+
Red Crossbills arching in a dense ^{coniferous} ~~deciduous~~ 3 P.M.
one Ball's Hill. I think there were White wings among them.

Wea.

WEDNESDAY 28

Ther.

Cloudy & calm with fine rain every now
& then & heavy rain after midnight.

Spent day working with Pat, Austin,
Benson & Peter in woods behind Ball's Hill
where we cut down hundreds of inferior
trees mostly oaks, beeches & maples. The
Carpenter worked in the cabins for his
last day & James finished shoe for boat house.
I went to Farm at 2 P.M. to answer a
telephone summons from C. about A. O. A.
complications. Saw a lot of birds then James
chiefly. Skinned 3 Partridges on the River.

Concord.

Wea. THUR. OCT. 29, 1908 Ther.

Cloudy with strong N.E. wind and fine mist-like rain. Heavy rain last night.

Spent day at Ball's Hill working with Pat, Benson & Peter on or near the road at Hunt's Gap. We had two big brush fires going. Cut down a lot of pines & other trees that were crowding the hemlocks, larches & spruces that I planted 13 or 14 years ago. Took my last meal in the cabin at home. Left at 3 P.M. & I followed him just before dark.

Wea. FRIDAY 30 Ther.

Heavy North-easter with torrent of rain all through last night to 10 A.M. today. Sun came out by noon & wind changed to N.W. blowing half a gale in late P.M.

Spent day at farm overseeing work of men. Pat & Austin cleared up wood shed, James & Talbot took off mosquitoes & deer ticks. There were lots of Junco & Yellow-rumps about the place. Saw 2 Fox Sparrows in Petchin place. A Peewee Bird in nearly full song at evening. A few Robins & a number of Chats & Jays, 2 Goldfinches 2 House Wrens etc. heard near home.

Concord - Cambridge.

Wea. SAT. OCT. 31, 1908 Ther.

Brilliantly clear with strong, cold N.W. wind.

This was my last day at Concord. I spent most of it at farm closing up & pulling things away for the winter. Had James, Austin, Pat & Benson at work. Hosmer came in forenoon & I arranged with him to build roof over apple cellar & another new house. Walked to Davis Hill after dinner with Pat & Benson & arranged with Carter to cut off part of Davis Brook and "holers" before I went to Post road river at 3-4 P.M. James & I then took H. 24 train to Cambridge.

Wea. SUN. NOV. 1 Ther.

Clear & cold with strong N.W. wind. Saw four or five Peewee Birds & a Chickadee in the Garden. Ponds skinned over with thin ice. Cherry & Apple trees still leafy but most of the other trees quite bare.

Spent most of day in Museum working labels, making bills etc. Called on George & Mary Deane in late P.M. to discuss plans for entertaining A.O.U. members: C. & E. R. S. Road to see through evening from "The Festivity of Diana Mollery" by Mrs. Ward.

Cambridge.

Wea.

MON. NOV. 2, 1908

Ther.

Clear & cold with fresh N.W. wind.
Spent day in Museum writing letters
& cheques for bills. D. J. Mc Millan
who has worked here as gardener
since from 1st coldest to receive his
final payment (of \$60) for the month
of October. He is a good boy but
unhappy in many ways. He likes much
better his successor Henry Seagrave.
A 7 of Sparrows & seven Peabody Birds in Garden.
Dined at Balchfields at 7 P.M. with
Dr. Gadow, Will Jeffers, Arthur Bent, Mrs. Bolles,
Miss McCreedy & Miss Cleveland.

Wea.

TUESDAY 3

Ther.

Clear, calm, mild.

Spent most of day in Museum
working on letters, bills etc. Finished
my museum report and took it to
Sam Hurdson after tea, & came
down & back. He showed me a
Siberian Forest Hippoboscids just arrived
from Wood. Peter called on Ben P.M.
to be about making gifts, which was.
The parrots began squawking over house
this morning. 4 Robins, a Brown Creeper,
a Junco, 4 White-throats & Flicker & a Starling
seen in garden in the garden.

Cambridge.

Wea.

WED. NOV. 4, 1908

Ther.

Cloudy & windy with falling
temperature.

Spent day in Museum writing
letters. Walked to Dring's stable to
speak to arrange with him about
keeping our cow for the winter. Met
Robert Nesbitt examining two young ducks.
A Brown Creeper, a Chickadee, four
Peabody Birds, a Junco and a
Dove noted in the garden.

Will & Alice Stone dined with
us at 7 P.M. & I spent the evening.

Wea.

THURSDAY 5

Ther.

Clear & colder with fresh N.W.
wind. Birds in garden fallen over again.
Threw out a lot of hemp seed in back.

4 Fox Sparrows, 3 White-throats,
a Song Sparrow & about a dozen House
Sparrows assembled at 6 AM. Saw
4 Robins early. Pullerum off to
3 Chickadees in the birch.

Spent day in Museum writing letters.
Men all over the floor painting, repairing
& cleaning up things. Co. has given out
again. The work is in the flower bed
and a few more to be done.

Cambridge, Boston.

Wea. TUES. NOV. 10, 1908 Ther.

Cloudy, calm, mild but chilly. Foggy in early morning.

Spent day in Museum & Garden. Patsy with 4 men still at work about the place. James came down from Concord with load of birch wood. Gilbert & Henry cleaned up the Museum cellar.

In late P.M. I walked at Backluffs with C. & E. R. S. Mrs. B. engaged. Went to Harvard Square & had hair cut.

Two White thr. Sparrows & a Golden Crest in Garden. Saw nothing else there.

Wea. WEDNESDAY 11 Ther.

Cloudy & misty with an occasional sprinkle of fine rain. Calm & mild. 1 Chickadee only bird noted in Garden.

Spent forenoon in Museum writing letters. Glorn Allen has left with working up references. Patsy & 3 men digging hole for hot beds, Birckluffs & one man replacing front steps of house. The painter still working on house.

To Boston at 3.30 to attend meeting of Audubon Soc. Directors at Bos. Soc. H. H. Present Dr. Felt, Allen, Hoffmann, Mrs. Elliott, Mrs. Bolles, Miss Richards, Miss Thibault. Got home at 6 P.M.

Cambridge - Boston.

Wea. THUR. NOV. 12, 1908 Ther.

Clear & cool with high N. W. wind.

Spent day in Museum working with Gilbert & Henry, rearranging things & "tidying up" for the coming A. O. U. visitors. Patsy had two men at work about the place & Birckluffs on the house where a swarm of painters were engaged.

Saw two Red Crossbills flying above the Garden & a flock of other birds. Goldfinches in our garden. Saw a single Goldfinch in our garden. Saw a single Goldfinch in our garden. Saw a single Goldfinch in our garden.

Wea. FRIDAY 13 Ther.

Clear & cool with high N. W. wind. Spent day in Museum working with Gilbert & Henry, rearranging things & "tidying up" for the coming A. O. U. visitors. Patsy had two men at work about the place & Birckluffs on the house where a swarm of painters were engaged. Saw two Red Crossbills flying above the Garden & a flock of other birds. Goldfinches in our garden. Saw a single Goldfinch in our garden. Saw a single Goldfinch in our garden.

Cambridge

Wea.

SAT. NOV. 14, 1908

Ther.

Sunny most of day but cloudy in
late P.M. with rain after dark.

Spent most of day in Museum. Called
on Ruth Dean at George's house in
name. When I got back from

H. W. Henshaw & E. W. Nelson at our
house. We spent afternoon together

in my study. Arthur Bangs
called & stayed over here & was

Spent evening in haggard's &
dinner. 2 Henshaw & a couple in forenoon

Wea.

SUNDAY 15

Ther.

Clear & cool with raging N. W. wind
Henshaw, Nelson & I spent forenoon
in a taxicab driving the park

system. The Mr. Arthur &
Hark Pond engines. The cab broke
down in W. Roxbury & we were

stuffed into another &
Mr. Eastwood dined with us at

1.30. Henshaw, Nelson & I
called on Ruth Dean at 5 P.M.

We all went down to Bolshakoff's at
5 P.M. & had our guests Fisher, Stone,
Doughty & Bolshakoff.

Cambridge

Wea.

MON. NOV. 16, 1908

Ther.

Brilliantly clear fresh N. W. wind.

Dr. Roberts, Mrs. & Mrs. Frank Robinson
the Misses Hayes became our guests a day.
The Council of A.O.U. met at 10 a.m.
in our study. 13 members present including
Allen, Chapman, Merriam, Fisher, Knight, Stone,
Bolshakoff, Sage, Nelson, Roberts, R. Dean & Bolshakoff

We lunched in the Museum room at 1. Had
short session N.E. Com. in late P.M.

Business meeting of Union in big Museum room
8-11 besides members of Council in last Bolshakoff,
Purdie & Merriam & R. Dean. Lunch with
Nelson elected Pres. 6-30 P.M.

Wea.

TUESDAY 17

Ther.

Cloudy with light N. W. wind. Fine day.
A.O.U. meeting in big lecture room at Museum.

Comp. took over 100 present. I think it an
high all day. We met at 10 a.m. in
& went to afternoon tea at Bolshakoff's at 4.30.

A great crowd there, very busy having good time.
At the meeting we had talks by Merriam,
Doughty, Chapman, Forbush, Lord & Henshaw.
& general discussions. Saw Kellogg & Mrs.
Sutcliffe dined at Bolshakoff's at 8 P.M.

About 80 members present. A great success.
I sat & talked with Mrs. & Mr. John Mendenhall &
5 others. Went to the Green & back.

Boston - Cambridge.

Wea.

SUN. NOV. 22, 1908

Ther.

Clear, Calm, Very warm for season.

Spent most of forenoon at Athletic Club
and then went to Harvard Museum to look
at some of the bones for Dr. Arnold.

"about 6-140" P.M. We then
went to Roxbury to call on Miss Anna
Barnett & her sister. After that C. visited
Mrs. & I called for her Amen.

Returning to Boston we called on Sally Deane.
I dined at the Athletic Club at 6 with
Henry Henshaw & sent him off for Worthington
2. 8. P.M. train. Spent evening at the Club
dancing & night at the Athlford

Wed.

MONDAY 23

Ther.

Sunny but hazy. Calm & very mild.

I breakfasted at Abbottsford. Swam and took at
Athletic Club until 10.30. Then went to
our office & with Mr. Hamilton & J. J. Venable
to get our mortgage books. Lunched with
John & Ed. Exchange Club at 12.

To 2 P. m. from C. at 4 P. m. S. & did have
a dinner in the room at 4 P. m.

Got home about 3.30. Heard a Robin calling
in jungle & a Warbler chirping at base of palm.
Looked up the Warbler. It was feeding on a cat.
- It was high in an elm & I could not climb,
it was too high. I think it was the Western Tanager.
Saw a cat in the tall grass.

Concord

Wea.

TUES. NOV. 24, 1908

Ther.

Clear, calm very warm.

To Concord with Gilbert by 9.06 train
James met us at Station. The Rev. J. Farn
he & I went in. I took 7 and a few young
chickens home for winter care. I visited 2 or 3
of afternoon to Sam's work in Sam's place. Almost
every tree in our field appears naked & in a few
places covered with snow. I saw 1/2 dozen
or 2. 12. Spills feeding on both sides. I walked through
Barn, Pasture, at Amherst. I heard 1 calling. I saw
the Sparrow in the air. 2 juncos in the Tulip garden.
Gray & Red Squirrels numerous. No blue jays. Many
unusually warm sunny days & much. Cold today.

Wea.

WEDNESDAY 25

Ther.

Gloomy with dense low clouds, thin fog and
fair rain. Light E. wind. Mild but chilly.

Spent day at Town Superior looking over
around Tassels. Two of Horners' Cooperators at
work on new hen house in front of Tassels.
It is nearly finished. Pat working on apple
tree. He has dug out a lot of them by the roots.
Only a few birds, mostly a couple, a W. G.
Hutchins & 3 Chantrelles in orchard, 2 Juncos
near house, Blue Jays screaming in the
woods. Took 4.30 train back to Con. City.
No ice nor snow nor frost anywhere. Tassels
are & brown.

Cambridge

Wea.

THUR. NOV. 26, 1908

Ther.

Cloudy, calm, mild with misty rain.
Thanksgiving Day. C. & I attended
service at St. Johns in forenoon.

Geo. V. Bennett & Mrs. Mansfield dined
with C. & R. S. & were at 1.30. Mr.
Bennett stayed on until 5 P.M. talking
with me in the Museum where Ruthven
& I were joined at 4.30, staying
until 6.15. C. & R. S. had lunch
in the hall in the evening. I saw no
birds in Garden to-day.

Wea.

FRIDAY 27

Ther.

Hear & cooler (but not frosty) with fresh N. wind.
 Spent day in Museum. Forester called
 at 10 a.m. with some papers from Har.
 Ambrose Sear: for me to sign. He sent
 for Anna to witness them by Henry
 Edmund Garrison called at 2.30. I
 walked with him to Memorial Hall
 where he left me to call on Miss Weston.
 Soon after my return I had a note from
 John Farley who brought me in the skin
 of a fine Skua killed in Nova Scotia by a
 fisherman to whom I sent \$5 for skin & bones

Cambridge - Concord

Wea.

SAT. NOV. 28, 1908

Ther.

I am sure that the
 of the train to Bedford
 driving there on that train to M. Bedford
 crossing the river in our iron boat. No
 ice seems to have
 for some talking, sitting, & other things
 about which Gilbert says that there is
 roofs of the house I am living in the
 down on the side of the hill that is covered
 by snow.

cold fruit &c. sent by Mrs Bowen.
Philosophy The slaves departed
3 p.m. 2 p.m. 1 p.m.

Cambridge

Wea.

MON. NOV. 30, 1908

Ther.

Cloudy, calm, mild with a little rain in forenoon.

Spent day in Museum writing letters. No callers save R. G. Holland of Illinois who called in forenoon to consult me about an article he has written on nesting of birds. Philip Hanks. Which has been in the air for some time up in the air in the air. Heard him say on the first two of them. I have heard him say on the first two of them.

Wea.

TUES. DEC. 1

Ther.

28° min.

Clouded with light N. wind. Warm as a rule, or early June day, & calm as usual as on other days in the forenoon & afternoon.

Spent day in Museum writing on letter to Dr. R. O. Howard about the matter. Painted as usual on the wall. I have heard him say on the first two of them. I have heard him say on the first two of them.

Wea.

WED. DEC. 2, 1908

Ther.

Clear & colder with high N. W. wind. Spent day in Museum.

Spent day in Museum. I have heard him say on the first two of them. I have heard him say on the first two of them.

Wea.

THURSDAY 3

Ther.

28° min.

Clear & cool with high N. W. wind.

My bronchial cough was so troublesome that I spent the entire day in the house inhaling benzoin steam every two hours. Dr. Jewett came to see me at 8.30 a.m. He has decided it will not be safe for me to attempt to give the little talk I had planned at Botanic Club meeting to-morrow night.

It was to have been on my experience planting things at Concord & it has been already announced on Dr. Jewett's part to me that I should not go.

Wea.

FRI. DEC. 4, 1908

Ther.

Cloudy with light rain.

Spent day in house.
My cough bad. Dr. Jewett came at
8:30. Walter called later.

I read & C. read aloud to me.
I was in the den most of day.
Have given up smoking for
the time. I cough heavily
& frequently in day & still worse
at night.

Wea.

SATURDAY 5

Ther.

Clear & cool with W. wind.

Spent day in house in the Den.
Read most of time. Dr. Jewett
called in forenoon. I sent us over
also except Miss Sunday who dined
with us. She & C. went to dinner
theatricals in Boston in P.M. &
E. R. S. went to Dramatic Club
performance. This evening when C.
read aloud to me in the hall.
My cough better but still
not a little troublesome.

Wea.

SUN. DEC. 6, 1908

Ther.

Clear, calm mild.

Spent day in house. My
cough better. Read & looked over
old photographs. Dr. Grenfell,
Frank Manning & Miss Allyn
dined with us at 1.30. Dr. Grenfell
went in town with C. about 3 P.M.
Frank stayed in room later talking
& smoking in the hall.

Wea.

MONDAY 7

Ther.

Cloudy with violent S.E. wind, and a
flood of rain.

Spent day in Museum working
letters etc. Discovered that the collection
of bird nests in the gallery is badly
infested with anthrax. They have done
a lot of damage & are distributed through
at least eight or ten large cans. How Walter
& Githers can have let them get such a
foothold, I cannot understand. Natural Club
meeting this evening. I read a short
paper on bird spreading & my notes.

Cambridge - Boston.

Wea. TUES. DEC. 8, 1908 Ther.

Clear & cool with light W. wind.
Spent day in Museum working nests
of forenoon on the infested bird nests.
Many are ruined & among them are
some of my choicest things. Bay-breast
Warblers, Canada Jays etc. Gilbert says
Waller ordered him to cease his sulphiding
these came from or five years ago because
he feared the sulphur would injure the eggs.
James drove the new horse down to-day
& left him at Irving's for the winter.
John Nichols spent evening with us. I called
on Mrs. Frank Bolles at even to-day.

Wea. WEDNESDAY 9 Ther.

Cloudy & chilly. Ground hard frozen
little or no wind.

Gilbert went to Concord to finish
painting cabin roofs & to photograph
fringe Charley. I spent forenoon in
Museum writing letters. To Boston at
3.30 to attend meeting Directors (with
Sec. at Mrs. Coburn). Nearly all of them
there. Hoffmann elected Chairman.
Came out in carriage with Mrs.
Prof. Putnam after driving her husband
& John Marsh to Arlington Street S. &
E. R. S. took Cambridge Express in evening.

Cambridge.

Wea. THUR. DEC. 10, 1908 Ther.

Brilliantly clear & crisply cold with
light W. wind. Ground hard frozen.

Spent day in Museum. Worked
all forenoon on short article about
Ollers in E. Mass. which I have decided
to write for Science in which (issue of
Nov. 27) has just appeared some records
of recent occurrence of this animal in
Concord River. In afternoon worked
in gallery on the moth-eaten nests.
Birds excessively scarce here. Saw only one
- a. P. Miller in Garden to-day.

Wea. FRIDAY 11 Ther.

Snow storm (the first for this winter)
beginning at 10 a. m. & lasting all day
about 2 inches falling.

Spent day in Museum working
on article about Ollers for Science.
C. & E. R. S. went in town at noon
for Christmas shopping & to see a
famous professional dancer this evening.
Gilbert went to Concord by a
morning train to superintend the
cutting of maple fumes for our carrels.
Heard a Crow this morning but did
not see a single bird all day except
Habit Sparrows & Cardinals.

A. F. Fisher & 2 children

Cambridge

Wea.

SAT. DEC. 12, 1908

Ther.

Forenoon cloudy with sleet & snow
afternoon clear & rather mild with no wind

Spent most of day in Museum
working on Oltu article but making little
progress because of frequent interruptions
due chiefly to preparations for Christmas,
in which our whole household took part.

There was, too, Miss Upton whom C. is
employing to help. She lunched with us,
a bright woman highly educated & refined.

No calls to day except the Cummings
who appeared about 5 & stayed an hour.
Not a bird of any kind seen or heard in garden.

Wea.

SUNDAY 13

Ther.

Cloudy with snow flurries now & then.
Calm, mild. Snow on ice, has in coat.

Spent most of day in Museum
writing letters. Miss Eastwood dined with
us at 1-30. George Farnsworth called
at 5 P.M. As he was leaving about 6
Harry & Mrs. Bartlett, formerly of South
~~Mass~~ living in Cambridge, came for a
long call. Never before have I known
our place so utterly barren of bird life.
This is the third consecutive day that
has passed without my seeing a single
- seen on a few House Sparrows.

Cambridge - Boston

Wea.

MON. DEC. 14, 1908

Ther.

Clear, calm, mild. Trees & shrubs hung
with ice diamonds in early morning.

C. & I took walk with baby after breakfast.
up Brattle & Faneuil Sts, both through
Highland St. Saw 1 Blue Jay at Nichols
place & 2 robins in Hooper place on hill.
I wonder why they do not visit our garden.

In the Garden to-day heard a Kinglet &
saw 2 Crows in garden. Spent forenoon

working on north-eastern nests. To Boston at
2 P.M. for Christmas shopping. Visited Parson
& bought 2 books at Holt & Barnes. Collected
up our office. Got home at 6. Walked through
Dean called in evening.

Wea.

TUESDAY 15

Ther.

Forenoon cloudy with drizzle of rain.
Afternoon clear, calm, mild.

Spent day in Museum, working on
north eastern nests. Much interrupted.
Carpenter busily about. Walter Dean
called twice in afternoon spending
nearly 2 hours on all. C. kept her
room all day. E. R. S. read Clouet's
Egypt to me in evening. After 9-30
I read Preble's book on Massachusetts Region.
I sit up until midnight reading in my
den nearly every night now. Preble's
book has occupied me thus for a week or more.

Cambridge - Boston -

Wea.

WED. DEC. 16, 1908

Ther.

Clear, calm, mild. Sleighing spoiled but lawns & gardens still encased thickly with icy snow.

To Boston at 11 A.M. stopping at Harvard Square to do some Christmas shopping. In Boston visited Bunker's & Kings Christmas card store. Then went to Athletic Club. Lunched & had hair cut there. Returned to Cambridge at 4.30. To Roland Thaxter for We dine every 7-10.30. Fine time. Christmas gifts from Thaxter & all of us & gifts from all of us to him with pounds given.

Wea.

THURSDAY 17

Ther.

Clear & cooler with light N wind. Went to museum in forenoon working with & but. We inspected the main part of the collection of eggs & nests in the wooden cabinets on the ground floor going over them carefully but finding no traces of nests or museum birds.

Sally Dearborn lunched with us at 1. At 2.30 I went to Mrs. Comp. Took where I saw Henderson but spent most of afternoon talking with Taxon in his room. Called on Jackson & Mrs. C. & E. R.S. read Eggs to her. evening

Wea.

FRI. DEC. 18, 1908

Ther.

Cloudy & intensely chilly with light snowfall (about one inch) in forenoon and fair rain in afternoon.

To Mrs. Comp. Took. at 10.30 A.M. Worked thru their house over the Thaxter collection. There are about 200 skins mostly from water birds or sea birds, but some are valuable & fully colored & among them is a ♂ Prothonotary Cuckoo on Mariner coast. Got back at 1.45 & spent P.M. writing in my notebook. Packed birds & spent evening. Saw a Blue Jay & heard Chickadees in garden. 2 Crows flew over it.

Wea.

SATURDAY 19

Ther.

Clear, calm, frosty

Spent day in Museum working on a short article dealing with Mass. records of Boreas's Golden-eye. I was suggested by the receipt yesterday at Mrs. Comp. Took. of an adult ♂ islandia shot at Eastham Mass on Dec. 11, 1908 by Matthew Laver. and mounted by Fraser.

Saw 2 Chickadees & a ♂ Downy in the Garden this morning. No calls to-day.

Cambridge - Boston.

Wea.

SUN. DEC. 20, 1908

Ther.

Clear & cool with light W. wind

Spent most of day in Museum working letters. Mr. Samuel C. Palmer, Special Student at Harvard, called at 10 A.M. to tell me of a Bald Eagle (im) he had seen in Camb. Cemetery. He wished me to return with him in hope of finding it here but my cough is still bad & I did not care to ride across country through snow & frost. Dorothy Carter (my old friend Charles' daughter) & Miss Allyn dined with C. H. S. C. at 1.30. A Blue Jay, a Chickadee & a Downy were in garden.

Wea.

MONDAY 21

Ther.

Clear, calm, just agreeably cool.

Spent forenoon in Museum working on Barrow's Golden-eye sketches. No work preparing Christmas gifts. No calls. A letter at 2 P.M. to select a lot of plants in flower over garden. Reunion here. Small again before lunch. Arrived at 5.30 in train with car. The Rutherford Shallow had met me. Our school record paper on "Position of birds feet on feet" a dozen or more members.

Cambridge.

Wea.

TUES. DEC. 22, 1908

Ther.

Partly cloudy, calm, light, clear.

A broken day spent partly in working. At 11 A.M. went with C. to Miss Thompson's school to Christmas exercises for the children. The room was pretty & cozy. I was surprised & neighbors there. Miss Dighton reached with us again. She is still helping C. about Christmas things. No birds at 8 P.M. Miss Thompson & a dozen or more of her school children marched up our driveway & greeted us, singing their songs. The sweet young voices joining in the Christmas carols & rising in the still winter night were most pleasing.

Wea.

WEDNESDAY 23

Ther.

Forenoon cloudy & intensely chilly with a few snow flakes falling now & then. Afternoon clear with much lower temperature than in forenoon.

Spent day in Museum working on Barrow's Golden-eye sketches. No calls, no birds. C. went to Forest Hills to put wreaths on the family graves & gather Concord with Christmas presents for the Benson, James & Plummer families.

Cambridge.

Wea.

THUR. DEC. 24, 1908

Ther.

10° min

Partly cloudy. Morning cold; afternoon mild, snow thawing. No wind.

Spent day in Museum working on Barrows Golden-eye article. It drags sadly. No callers & not a bird of any kind (save House Sparrows) seen or heard about the place. Yet only a little way out in the country: even about Fresh Pond there are Crows of Redpolls & Pine Squirrels I don't tell.

Belmont & Henry dressed our hall with Christmas groups this afternoon. I took around some presents after dark.

Wea.

FRIDAY 25

Ther.

Forenoon sunny; afternoon cloudy. Calm; very warm-like an April day.

We had at breakfast, at 8.30, Purdie, Miss Eastwood, Mrs. Edward Hyman, Mrs. Cobb, Billy Teller, & Mrs. Mansfield. At 10.45 I went with C. to St. John's where we had a beautiful service & fine sermon from Dean Hodge. Got back at 12.30. Almy called & spent hour.

C. & I dined at 1.30 at Mrs. Thayers with her, Mrs. Howard, Miss Ellison (89 years old), E. R. S., Miss Johnson, Mr. & Mrs. Sara Thayer & 3 children, Mrs. & Mr. Jack Grant & 3 children. Had game after dinner. Got home at 4 & opened up presents in morning room at 5. E. R. S. with us. We had happy & long. A. gave me a beautiful little silver box.

Cambridge.

Wea.

SAT. DEC. 26, 1908

Ther.

Cloudy, calm, mild.

Spent day in Museum writing letters, chiefly to old friends from whom I had Christmas gifts or cards yesterday. No callers to day. Heard Crows carrying lustily in the binders at daybreak and later in day a Chickadee or two chirping & once the phoebe note. A winter Bulb was planted this year. I have just taken up this part of them & placed them in Museum.

Wea.

SUNDAY 27

Ther.

Sunny, calm, mild.

Attended church at St. John's with C. 10.45 a.m. to 12.15 p.m. On way back we called at the Cobb-Tucker house.

Mrs. Scudder & Miss Hopkin dined with C., E. R. S. & me at 1 P.M. At 3.30 I went to the Museum to write letters. & C. (a little later) to Roxbury to see Miss Anna Everett. No birds seen about our place to-day. Garden still thinly covered with snow. Streets muddy with ice in places.

Saw Sparrows in garden & saw them in the park.

Cambridge.

Wea.

MON. DEC. 28, 1908

Ther.

Clear, calm, mild, the ground frozen at morning & evening but muddy through the day.

Spent forenoon in Museum working on an article (begun a year ago) about Flicker's eggs found on ground at W. Gormond. To Mrs. Comp. Tool. at 2 P.M. Saw Faxon, Henshaw & Hookworth, also Mr. Agassiz who is to sail for Europe on Friday. Got the skin of this big Skua shot in Nova Scotia & left by Torsley with Faxon. Saw Bonaparte's Golden eye shot on Dec. 11 at Exmouth by Matt Jones - 25 was mounted by Faxon.

Wea.

TUESDAY 29

Ther.

Clear, calm, mild, a duplicate of yesterday in every respect.

Spent day in Museum working on the article about Flicker's eggs and finishing it, I rejoice to say.

Writing comes a little easier with practice I find but not much.

It is at times hard enough for me.

Miss Ellison (now in her ninetieth year) and Minna Kettel lunched with us. Mrs. Bruce who has just taken the Nelson house called at Museum to get the key etc. in late P.M.

Cambridge.

Wea.

WED. DEC. 30, 1908

Ther.

Cloudy calm, mild but chilly.

A Flicker, 2 Crows and 2 Chickadees in Garden.

Spent day in Museum working on some notes for my talk at Botanic Club on Friday evening next.

Several interruptions by callers. Walter came in forenoon, Mrs. Bruce, Mr. Neilson & Mr. Palmer in afternoon.

Palmer brought me a lot of notes on birds seen by him in Cambridge. A Gray Squirrel entered our Museum by the door to-day. Begging for food. I gave him a nut but he did not take it.

Wea.

THURSDAY 31

Ther.

Clear & cooler with fresh W. wind.

Spent day in Museum working on the notes for my talk at Botanic Club to-morrow night.

Made out lists of indigenous plants at the Concord place & of plants I have introduced or tried to introduce there.

Also wrote out a few pages to serve as M.S. for the beginning & ending of what I am to say.

No callers, no birds seen in Garden.

Heavy rain last night has taken off nearly all the snow.

I know something of them covering 'em
They think needles & pins
In the Right Reverend Ladies
Of the Bishop engaged in Confraternizing
'em!

WAGES

When Due When Paid Amount

There was a young lady from Byron
Who was so exceedingly thin
That when she essayed
To drink lemonade
She supported through in the
and fell in.

There was a young man from Peru
Wished to take the 2.02 train to Sioux
Said the porter "don't hurry
Or scurry or worry
It's a minute or two to two two."

Alas for the wily Hindu
He does the best he can do
He sticks to his cost
From first to last
But for clothes he makes his skin do.

LETTER REGISTER

Portland, Maine

Birds noted in the City.

Date June 14, 1908. Received Paid

Noted the following birds while walking along State Street this forenoon. (This beautiful street runs down the hill through the heart of the residential part of the city. It is shaded by clusters of large trees & bordered by fine old houses with well-kept gardens or grass plots, some with colored trim.)

- | | | | |
|---|-------------------------------|------------------|----------------|
| | <i>Musula nig.</i> | 1 ♂ | 4 or 5 seen. |
| | <i>Tanagra aestiva</i> | 4 ♂♂ | singing. |
| 1 | <i>Sitophaga bula</i> | 1 ♂ | " |
| 3 | <i>Uris olivaceus</i> | 1 " | " |
| 4 | <i>Spizella socialis</i> | 1 " | " & birds seen |
| 5 | <i>Passer domesticus</i> | 3 or 4 | heard |
| 6 | <i>Icterus galbula</i> | 1 ♂ | " |
| 7 | <i>Cardinalis virgin.</i> | or red | " |
| 8 | <i>Empidonax carolinensis</i> | Heard in garden. | |
| 9 | <i>Chondestes pelagicus</i> | 3 or 4 | seen |

In the afternoon I noted in a walk along "Western Promenade":

- | | | |
|--------------------|------|---------|
| <i>D. aestiva</i> | 3 ♂♂ | singing |
| <i>S. socialis</i> | 2 " | " |
| <i>Cardinalis</i> | 1 " | " |

Wolfeboro, N. H.

Birds noted in village

Date June 16 & 17, 1908 (both afternoon & early morning)

- | | |
|--------------------------|-------------------|
| <i>Musula nigra</i> | 4 |
| <i>Tanagra aestiva</i> | 1 ♂. |
| <i>Uris olivaceus</i> | 1 ♂. |
| " <i>flavifrons</i> | 1 ♂. |
| <i>Progne subis</i> | large colony |
| <i>Psaltriparus</i> | seen over country |
| <i>Spizella socialis</i> | 1 ♂. |
| <i>Icterus galbula</i> | 1 ♂. |
| <i>Tyrannus tyrannus</i> | 1 ♂. |
| <i>Empidonax minimus</i> | 1 ♂. |
| <i>Chondestes</i> | 4 or 5 |

Heard no Robins. Did not go into the fields to look for them. Did not have time even to look at the Barn Swallow colony. It was cool & windy & birds did not sing freely.

Glendale, Mass.

Hotel Gordon.

Washington, D.C.

February 9th, 1908.

My dear Miss Kimball:

I have been thinking for some time of resigning my position as President of the Massachusetts Audubon Society. My inclination to do so is prompted solely by the conviction that the office should be filled by someone who can give much more time and thought to the interests of the Society than I have been able to do. I should like to have the Directors consider this matter carefully at their next meeting. If they share my conviction I will send in my formal resignation as soon as I hear from you. If not I shall be glad, of course, to continue in office.

I do not know how the Directors feel about Mr. Forbush but I believe that if he could be made President of our Society he would strengthen it greatly and that in a very short space of time. Mr. Dabbs tells me that the work he has done for the National Audubon Society has been little short of marvellous. He has great enthusiasm and unbounded energy combined with careful persistence and with excellent tact and good judgment. These qualities make him a peculiarly effective man. As he can now devote his entire time to Audubon Society work I think as much of it as possible should be given to him to do.

Yours sincerely
William Brewster.

SAW A REAL WOLF.

From the Kennebec Journal.

George L. Noyes, artist and naturalist of Fryeburg Center, had the unusual experience of seeing a wolf the other day. It was supposed that these animals had been long extinct in Maine. Mr. Noyes writes of his experience to a friend as follows:

"This is something good to think about. It kind of takes one back to old Crawford, Passaconaway, and Wannalancet days and the good old days when the good old primeval forest stood. The other day I was coming along under the hill and out of the woods came a large wolf within a few rods of me, so that I could look him over thoroughly. He went down on the intervalles and circled about and then disappeared in the woods on the other side."

CAPT. PILLSBURY. 1908.

From Zippo's Journal

st Hour.

TO PREVENT DROWNING.

London, July 2.—A young mechanic named Mansfield quite by accident recently hit upon a novel, simple device for restoring animation to apparently drowned animals.

He was salting some winkles which had boiled over night, and noticing what he called a dead bluebottle in the pot, he thought to himself: "Oh! I'll put you in brine too."

Suiting the action to the word, he buried the fly in salt, thinking no more about the thing. Two minutes later he was surprised to see the bluebottle shake itself free from the salt, crawl a little distance, and, hesitating a moment as if to take its bearings, spread its wings and soar to a window pane with a new lease of life.

Mansfield proceeded to investigate further. He began with a beetle. For two hours he kept it submerged in water. Then, life being apparently extinct, he buried it in salt. In less than two minutes the insect crawled out as much alive as ever. Next he tried a mouse, then a rat. Both were restored to life and freedom.

The young man decided to consign his cat to the water tub for two hours, when its lifeless form floated on the water. The magic salt was brought to bear upon it and today the domestic pet is as much in evidence as ever.

It was when he experimented on his dog, a pup retriever of five months old, that Mansfield's faith in his discovery received its first shock. In this, as in the previous cases, he made the time limit two hours, but the thickness of the dog's coat, he thinks, retarded the effective operation of the salt. When after half an hour there was no sign of returning life Mansfield began to grow anxious. Half an hour had sufficed to bring around the cat.

Mansfield renewed the salt, which by this time had absorbed a considerable quantity of water. The pup quickly recovered itself, and as if fearing a renewal of the experiment, promptly ran out of the room.

DECLARES PLANTS HAVE EYES

ENGLISH BOTANIST SAYS THEY CAN SEE

London, Sept. 8—The interest aroused by the contention made by Francis Darwin, son of the author of "The Origin of Species," in his presidential address before the British Association in Dublin last week, that plants can remember and can develop habit, has been increased by a paper read yesterday by Professor Harold Wager, the well-known botanist. Professor Wager declared that plants possess an organism corresponding to the brain in animals, and further demonstrated that they have eyes with which they can see, and see well. Professor Wager showed that the outer skins of many leaves are, in fact, lenses, very much like the eyes of many insects, and quite as capable of forming clear images of surrounding objects. This is the case with most leaves, but especially in the case of those that grow in the shade.

These lenses are so good and focus the light that falls on them so carefully that photographs can be taken by means of them. Professor Wager has taken a great many such photographs, and he showed some of the more remarkable. These included reproductions of a photograph of Darwin, in which the features were distinct and unmistakable, as well as direct photographs of landscapes and people. Even colored photographs were exhibited, and, like the rest, they are remarkably clearly defined. Not only do these plant eyes see well, but the rays of light which by means of them are focused on the interior of the leaf are carried to the brain of the plant and affect its subsequent movements. It has long been known that the leaves of plants move so that they can get a maximum of light. It is now suggested how this movement is made possible, and the process is almost identical with like movements in the case of animals. A close analysis of the eyes of plants, moreover, proves them highly developed organs.

Boston Sun. Transcript, Sept. 8, 1908.
